DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA.
 The WONDER and BLESSING of the AGE!
 The Most EXTRAORDINARY MEDICINE in the WORLD

THIS EXTRACT is put up in Quart Bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the patient. We have manufactured **1,500,000** Bottles of this Sarsaparilla during the past year, and are now putting up **5,000 Bottles per Day**; using more of the Sarsaparilla Root in one month than all the other manufacturers of Sarsaparilla in one year.

This Extract has cured more of the following diseases than all the other advertised medicines together have done:—
 Scrofula, or King's Evil, Salt Rheum, and all diseases arising from an injudicious use of Mercury, Ascites, or Dropsy, Exposure, or Imprudence in Life. It invariably cures
 Rheumatism, Indigestion or Dyspepsia, Neuralgia, General and Nervous Debility, Palpitation of the Heart, Liver Complaint and Inflammation of the Kidneys.

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigour. **THE NUMBER OF DISEASES** mentioned above, as cured by this preparation of Sarsaparilla, MAY SEEM LARGE; but we are, nevertheless, PREPARED TO PROVE, BY AN EXTENSIVE ARRAY OF CERTIFICATES, that such is the FACT. A fraction of the evidence which we possess concerning each disease, would be received before any JUDICIAL TRIBUNAL as complete demonstration. It must be remembered that all this frightful array of maladies, though appearing in an endless variety of forms, are yet similar in their origin and causes; for they all spring directly, or indirectly from a corrupt fountain. If the blood were in a pure, healthy, and active state, it would drive all the complaints from the system, and chronic disease would be impossible.

For SALE by **SAMUEL STORY, 3rd. AGENT, 41, Hollis Street.**

 MR. SAMUEL STORY, 3rd.
 Sir,—I have been afflicted for the last twenty months with a complaint on the lungs, which rendered me almost unable to do any work. I was very weak, and during which time I was under the treatment of several eminent physicians, but to no avail. I was told that I was to die, and I began to despair of ever getting better. I was told to try Dr. P. Townsend's Sarsaparilla, and after using a bottle or two, I was restored, as usual, to my former state. MISCELLANEOUS.

Insult to an Admiralty Agent.

On the arrival of the Peninsular and Oriental Company's steamship Pacha, at Cadiz, a person came on board and demanded the mails on behalf of the Spanish Government. The Admiralty Agent, Lieut. Rainer, R. N., refused to give them up, and landed the mails as usual. On his landing a note from the consul was placed in his hand, authorising him to give up charge, which he immediately did, and proceeded towards the consulate, and on passing through the gates he was arrested, notwithstanding that he was in his English uniform, and confined as a prisoner. In reply to his demand for an explanation, he was informed that he was there by order of the civil government. On the arrival of Mr. Brackenbury, authorised by her Majesty's consul to act for him, he was told that the Admiralty agent had been given in charge for resisting the post office authorities, and refusing to be searched, both of which charges were perfectly false. He was searched, and nothing found on his person, and he was then marched as a prisoner to the civil government's hall, on arriving there, was again marched back with an order that he was to remain there until he heard from him, and after a detention of two hours and a half, an order came by an aide-de-camp of the military governor for his immediate liberation. Fortunately, an officer in the Spanish service and a captain of the Royal Artillery were present and witnessed the whole of this gross insult to an Admiralty agent.

Interesting from California.

The steamer *Cherokee* has arrived at New York from Chagres, which place she left on the 21st. This arrival has created some interest, and accounts from San Francisco to the 1st of May. Business is reported to be much more active, and less impeded, than it has been for some time. The number of arrivals of gold seekers were estimated at 200,000. From the 1st of January to the 1st of May, the gold seekers who arrived at San Francisco, and who were engaged in the gold business, were estimated at 200,000. Some Facts about Cuba.

Notwithstanding the population of this island of Cuba is less than that of any other island since 1811, from the numerous deaths of its population in 1811 was 588,732, of whom 429,770 were white, 140,225 free coloured, and 218,737 slaves. In 1831, according to the official census, the population was 1,037,924, of whom 418,234 were white; 152,839 free coloured, and 466,851 slaves. Of the coloured population at that time 417,843 were black, and 89,051 mulattoes. The number of mulattoes among the slaves was 10,974. There was a transient population of some 38,000 not included in the total given above. There were at the time 212 schools, at which 9051 poor children received instruction for three or four years. One of this total number 5,625 paid for their instruction, the rest were gratuitously taught. We are unable to give a more complete account of the condition of the island in these respects in any degree satisfactory.

In 1837 slaves were purchased by the Government in which the island was estimated as having a surplus of 455,000 of the population, the remaining 150,000 of the population were all free. The population of the island in a direct line from the year 1811 to 1837, the population was 1,037,924.

From the Southern point of Cuba to the Northern point of Cuba is 113 miles; from Cuba to the nearest point of Yucatan is 132 miles; of Haiti 49 miles.—From Jamaica to Cuba is distant 89 miles. The total value of the agricultural product of the island in 1849, including dairy produce and domestic animals, was according to Hunt's Merchant's Magazine, about \$60,000. In the same year its exports from Havana and Matanzas were of sugar 349,748 boxes; of coffee, 371,894 arrobas; of molasses, 97,373 hog-heads; of cigars and tobacco, (from Havana alone) 1,273,937 pounds. Of Matanzas, the white population was in 1846 estimated at 16,039; the free coloured at 2788, and the slaves at 4159.—N. Y. Com.

The well-known Authoress of the Scottish Chiefs and many other standard novels and romances, Miss Jane Porter, expired at the residence of her brother, Dr. W. Ogilvie Porter, Portland Square, Bristol, on Thursday night, the 25th, from a second attack of pulmonary apoplexy. "Miss Porter," says a London paper, "was in her 74th year, and maintained to her last moment not only her intellectual faculties unimpaired, but that cheerfulness of disposition for which she had been so much admired during her long life."

The second oldest Regiment in the British Army, is the 2nd Regiment of Foot Guards, now known as the *Coldstream*, which was raised in the year 1650; this corps recently celebrated the Ann. versary of its 200th year.

Late arrivals from the Pacific inform us of the discovery of gold mines in Australia.—This discovery will be important as it will stop the immigration from Botany Bay and the other British convict settlements, from going to California, and keep them within their "own diggings." On the 11th May there was a serious riot at Panama, during which two Americans and two New Grenadians were killed, and several seriously wounded on both sides. It was feared that this affair would lead to something more serious, and be the means of stopping the immigration through their part of the country to California.

Disasters.—The Br. Brig *Brazilian* (supposed to belong to Liverpool, N. S.) from Porto Caballo, took on board a cargo of hides, and sailed on the S. E. side of St. Domingo, about 6 o'clock, and became a total wreck.—Three of the crew arrived at the city of St. Domingo in a small boat, on the 10th inst. and were reported that something had happened to the brig, but that the rest of the crew, who had left some time previous to the wrecking, had not been seen.

From the Sandwich Islands.—On the 21st of the Sandwich Islands to the 2nd inst. had been received.

POETRY

PEACE IS NOT
 I must not look for peace
 Upon life's ocean
 For who could be at ease
 In constant motion
 Where every wave that
 Awakens fear—
 And every tempest that
 Peace is not here

I must not seek for peace
 Upon time's shore
 Where, woke by eve
 The billows roar
 There, gathering dark
 From far and near
 And thunder from the
 "Peace is not here

And yet I sail for peace
 Across life's ocean
 In search of endless
 Without common
 Now many a league
 My heart to chase
 O may a voice at last
 Say, "Peace is here

Yes, 'er life's ocean
 I seek a home,
 Where wild winds
 Nor tempests
 I leave time's ruge
 Of wood and cane
 And hail the heaven
 For peace is there
