The Value of Annealing.

Annealing is the most costly step of mantle making—consequently a cheap mantle cannot be properly annealed—That is the reason a cheap mantle caves in like this  if you lay it on its side, after burning off the coating—Try one—They injure your trade.

Mantles branded **A** are thoroughly annealed over pressure gas—They fit the burner—They don't shrink—They stand up this way—They are reliable—They help your trade. 

—We are the sole manufacturers of **A** mantles.
—Write us if you are interested.

Lowest prices on Mantles, Shades, Chimneys, Globes and Sundries.
