

(2nd) I am a free Thinker and very proud of it: Look at Europe the
Home of Christianity. Any one who does not know of the Terrible
Religious wars of the Past. [Is not to be taken into consideration]

Where did this present European war start. The Vatican
war in Ethiopia [Mussolini is simply a tool of the Vatican]
All Germans know that. Next the Vatican's Holy war in
Spain. Terrible another tool of the Vatican. The fiendish
Bombings in England. Using the I.R.A. as smoke screen
Now the Vatican is about to throw in to end Protestant
England. The Vatican boasts they have endured for over 2000
years. Certainly they came out of the dark ages. The Vatican
is the Holier of all Civil Wars and Universal discord.

And now the horrors of Europe's religious wars are to
be introduced in America. What brought England to
her present position. The traitor the Great Vacuum Chamberlain
the Papist Fascist and tool of the Vatican.

Back to this Traitor King. His bringing on an election
to slow up Canada's war effort. Then his running out for a
vacation. When even school boys would know every served was
vital. Though an unknown Name I have been honored by
Foreign Governments. The German Government amongst others
[I have letters in my possession King would be proud to possess
I warned them in England against King.

This bootlicker Gardner. Is fearful. His mouth
and front feet will be shoved out of the trough.

When any Country becomes Practically one Party there
is no more direct evidence of a prostituted Elective
and Government.
