

116575-5.

Ottawa, April 11th, 1918.

Reverend Sir,-

In his March report on the Qu'Appelle Industrial school, Dr. Hall states,- "As regards the out-door closets, the condition is improved from last month, but, there is room for still further improvement. The seats should be scrubbed off and made in a more presentable condition. If the boys were made to do this work, they might be a little more particular".

The closets must be kept clean and the Department trusts that, in his next report, Dr. Hall will be able to state that they are in a satisfactory condition.

Your obedient servant

Assistant Deputy and Secretary.

Rev. E. Leceq,  
Principal,  
Qu'Appelle Industrial School.  
Lebret, Sask.
