Prime Minister

re Trades and Labour Congress

Despite the small likelihood, I thought material should be available if a chance offered.

I attach accordingly

1. An outline of a speech

2. My own elaboration of various topics under the headings in no. 1.

(I did not attempt the first part entitled "Sixty Years of Organized Labour" as I thought you wd. want something rather personal)

3. Mackintosh's draft on which my elaboration (in all its later sections) is largely based.

If this material cannot be used for the T.L.C. I hope it may serve some other purpose.
