

## THE SINKING OF THE H.M.H.S. "LLANDOVERY CASTLE"

The list of medical personnel given herewith is as the *Llandovery Castle* left England on her outward voyage to Halifax. Captain W. A. Hutton, Pte. B. Bonner and Pte. J. F. La Fontaine were taken off the strength.

With these three exceptions and the six survivors—Major Lyon, Sergt. Knight, Privates Hickman, Pilot, Cooper, and Taylor—the list of casualties is believed to include the entire medical personnel, though there is till hope, very remote, that some others may have escaped death by having been left at Halifax, either through illness or by reason of having been granted leave of absence. Concerning this, however, there is no official record from Canada.
