

## EXTRACTS FROM THE REGULATIONS OF THE FACULTY OF ARTS.

1st. Fees £10 per annum.

2nd. The Academical year commences on the 6th day of September and ends on the 1st day of May. One half of the tuition fees to be paid at the beginning of the session, and the other half on the re-assembling of the classes after the Christmas Vacation. The Matriculation fee is one pound,—to be paid on entering the College.

3rd. Candidates for admission are required to present themselves during the three days preceding the 6th September to the Dean of Faculty, in order that the Faculty may, by examination, decide as to their fitness to enter upon the prescribed course of study.

4th. This University is empowered by Royal Charter to grant degrees in Arts.

5th. Persons not members of this University are permitted to attend the Recitations and Lectures of particular departments on terms that may be known upon application to the Secretary. This arrangement has been made to accommodate those whose engagements or occupations may require too much of their time to permit them to enter as regular students, but who, nevertheless, may have the power and desire to attend a class or classes for instruction in some of the branches of the Collegiate Course of Study.

6th. The Professors in this Faculty combine the tutorial method with the ordinary manner of collegiate instruction by lectures,—an advantage which deserves to be noted, inasmuch as the difficulties of the student are in this manner much more readily removed, and since the progress or deficiency of each student is accurately marked and cannot, as is usually the case when great numbers are in attendance, escape the observation of the Professors.

7th. An extensive apparatus for the illustration of the different parts of Natural Philosophy, together with many valuable instruments for Mensuration and Surveying, are among the advantages possessed by this University.

8th. A limited number of students can obtain rooms in the College free of charge, and may board with the resident Professors on reasonable terms.
