

## The New Year's Greatest Car Has all the Latest Improvements

**A** GREAT many people have the mistaken idea that in order to get the very best and latest automobile it is necessary to spend a whole lot of money.

Nothing could be further from the truth.

The 1915 Overland has all of the very latest improvements, comforts and conveniences.

*Yet it costs but \$1425!*

The illustrations above are typical of the up-to-date features of the entire car.

In one is shown the simplicity, compactness and completeness of all Overland controls and instruments.

The complete set of electrical control buttons is located on the steering column.

With just a slight pressure of your finger you start the car, operate the electric head, side, tail and dash lights or sound the electrical signal.

Here also is the high tension magneto button and a patented device for locking all switches, in or out, so that no one can tamper with the controls.

*Could any other method be better or more satisfactory?*

Now take the cowl dash. Here are four instruments—a high-grade electrically-lighted magnetic speedometer, an ammeter, a carburetor priming button and the oil sight feed.

*Some higher priced cars have neither speedometer nor ammeter!*

The Overland type of rear springs is still another important and high priced feature.

See how the springs are placed *under* the axle: that they are *long*, have a very wide opening, and are of *generous dimensions*. Notice that the frame is *dropped*, which makes possible a much lower hung and more graceful body. The road clearance is not affected.

The wide opening of the springs permits great up-and-down play—the maximum of flexibility.

These springs are unusually long; in fact are longer, in proportion to the wheel base, than the springs used on almost all of the highest priced cars.

The Overland swivel seat gives absolutely free movement of the springs, prevents binding and reduces possibility of breakage.

*There is not a car on the market, regardless of price, that rides smoother or easier.*

And these are but several examples of Overland superiority!

So don't you, Mr. Buyer, feel obliged to buy an excessively high priced car. An Overland gives you every practical improvement at an exceedingly moderate price.

Place your order to-day.

# \$1425
