

NOTICES.

In writing to advertisers please mention the Farmer's Advocate.

As if the record—which has proven to thousands that Ayer's Sarsaparilla cures—was not enough, the World's Fair Committee bestowed upon this most excellent blood-purifier the distinguished honor of being the only preparation of the kind not belonging to the class entitled patent medicines, secret nostrums, and experiments. Ayer's was the only Sarsaparilla admitted at the Fair.

The leading manufacturers of feathers in Canada, the Alaska Feather & Down Co., of Montreal (late McIntosh, Williams & Co.), say that they have met the change in the tariff by a complete change of policy. They now use exclusively Canadian feathers, and find that these are not only more downy (owing to our severe winter), but are available in such large quantities that they have given up importing altogether, and are able to give better value than before to their numerous customers. This is a good thing for the farmers, who now are having a regular market for their goose, duck, hen and turkey feathers, whilst before they had to put them in an unpurified state into beds and pillows, simply because there was no market for them.

QUEENSTON CEMENT.—We take pleasure in directing the attention of our readers to the advertisement in another column of Messrs Isaac Usher & Son, Thorold, Ont., who have already this season turned out some 20,000 barrels of Queenston Cement, made of pure rock mined some 60 feet below the surface. That this business has increased four-fold in the last two years is sufficient guarantee of the excellence of the cement manufactured, but Mr. Usher goes further than that, and offers to refund the cost in case of failure where the material is given a fair chance. He will give all purchasers of this cement free instructions as to its use, which experience has shown to be a wise course to pursue; in fact, he will go at his own expense to give directions in starting work, particularly in localities where the use of cement is not generally known. Any communications asking for information, etc., addressed to Messrs. Isaac Usher & Son, Thorold, will be cheerfully and fully answered.

OUR BOOK TABLE.

Vol. IX. of the American Shropshire Record, containing pedigrees of sheep between Nos. 44506 and 57054, is now ready for distribution. Price to non-members, \$2.50. The American Sheep Record should be in the hands of every Shropshire breeder. It is an exceedingly well-bound and well-printed book, and is certainly a credit to the Secretary, Mr. Mortimer Levering.

We have received, and carefully examined, eleven parts of Hubert Howe Bancroft's "Book of the Fair," and we conclude that it is one of the most instructive and entertaining works that has ever come before our notice. Those who were so fortunate as to be able to visit the "Columbian" will in no sense be able to retain more than a faint recollection of very many of the most interesting objects viewed while there. To those who would recommend this work as being the most realistic reproduction of all the striking features of the Fair that this age of art can produce. Very often will many of those who visited the Fair long to be able to recall some of the scenes that have almost vanished from the mind. This work will, in a very large measure, supply the want, not only in a view of the buildings and their contents, etc., but also furnish a very satisfactory description of the same, in most excellent type. To those who did not visit the World's Fair this work will place before them a splendid idea of what was exhibited. Next to the Fair itself, this work is a faithful reproduction of it in printer's ink for permanent preservation. Most of the buildings will now be emptied and torn down, but the work will remain to teach the world's civilization throughout all time. In this respect the representation is better than the original, because one was evanescent, the other imperishable, for a work of art like this, securely lodged in all the libraries of the world, cannot die. It is to be completed in 25 numbers, of 40 imperial pages each; paper, pictures and printing being all of the very finest description. This work can be obtained of the publishers, THE BANCROFT COMPANY, Rooms 30 and 31, Auditorium Building, Chicago.

STOCK GOSSIP.

Mr. R. R. Sangster, Lancaster, Ont., writes: My Short-horns are doing fairly. I have just received the grand young Duchess of Gloster bull, by Indian Chief, from Mr. Arthur Johnston, of Greenwood, which he says is one of the best bulls he ever bred, and that says a good deal. He is doing well.

STUDS AND HERDS AT BRIERY BANKS.

Messrs. Caldwell Bros., Orchard, Ont., who are the proprietors of this stock farm, are still continuing to push stock matters. Colts and fillies from their standard-bred horses, Chicago King, show the sort of conformation which is required for gentlemen's drivers, while others are developing in speed. Two yearlings, one from a mare by Old General Stanton and another from a thoroughbred mare were especially fine, and their proprietors evidently are expecting them to turn out something more than ordinary, as they have beautiful quality and fine action. The Ayrshires were also making rapid improvement. Albion Chief's first crop of heifers are now in milk; they have developed fine udders, large teats, and altogether are most promising. Albion Chief was bred by David Morton & Sons, Hamilton, and was sired by their imported bull, Royal Chief, his dam being Maggie Brown, of Barmoorhill, both parents having won the highest honors at the leading shows of Canada. Maggie Brown was an exceptionally good milker. It will be seen that Albion Chief is bred in the proper line for that Albion Chief is bred in the proper line for breeding fine cattle and heavy milkers. Messrs. Caldwell Bros. have restricted their swine breeding operations to Tamworths. These have been purchased from several herds, and are chiefly the direct descendants of imported stock. Five or six breeding sows were in the herd, and while these retain all the typical points of the breed, they are exceedingly fine. Such length in body, depth of rib and thrifty growth is what everyone requires who is feeding pigs for profitable pork production. Three stock boards, of good quality, enable them to supply pairs not akin.

MONTREAL, June 19th, 1894.

McCLARY MFG. CO.:

Gents,—Referring to your new Steel Range, one of which I recently purchased, I have much pleasure in stating that it is one of the best Cooking Ranges I have ever seen: quick and thorough in action in every particular. The draughts are perfect, and also easily controlled. My cook, who has had great experience, says it is perfect, and the oven is splendid for baking bread, which is unusual. One of its strongest points, however, is its economy. The saving in fuel, compared with anything I have ever seen, is simply wonderful. Your firm deserves great credit for putting such a good article on the market. I wish it every success. Yours faithfully,

J. R. WILSON.

THE McCLARY MFG. CO.

7-y-om LONDON, TORONTO, MONTREAL, WINNIPEG, VANCOUVER.

Use:- Queenston:- Cement

FOR BUILDING CONCRETE OR OTHER WALLS,
Cisterns, Stable Floors, Hog Troughs, &c.

Write for Prices and Particulars. When parties use our goods, when necessary we will send a skilled man, at our own cost, to give instructions how to build. FARMERS can thus build their walls and save half the cost.

... FARMER'S BINDER TWINE. ...

Prices on Binder Twine for the harvest of '94, 7 and 8 cents, cash; carloads, special price; freight prepaid on latter. Order forms and notes in any quantity can be had on application to President Joseph Stratford, Brantford, Ont. Terms will be same as last season, payable October 1, 1894. The duty of farmers and Patrons to this Company is very plain. If you are able to establish a buying direct, thereby saving about one or more cents a pound through middlemen or agents, unite with your neighbors, if only for a few hundred pounds of twine, and send your order straight to the Farmer's Company. You will by this means assist in establishing what you have been struggling so long for, PURCHASING DIRECT FROM THE MANUFACTURER. Get your orders in early. Remember goods on way freight trains are longer in reaching their destination than you figure on.

We Guarantee every pound of Twine we make.
