-SHORT'S-

Recent Four-Pointed Steel Barb Wire.

Weights 14 1/2 oz to the rod, and will stand 1,600 pounds to each line, before breaking. It is adopted by Railroads, Stock Raisers and Farmers, on account of its superior style of Barb, which passes between the two wires, firmly locking them together, then is wound around both, fastening the barb securely so that it cannot be moved, thus making the strongest, most durable, and cheapest wire in the market.
