I have no more to say

Religious Orders

Negotiations are proceeding beween Spain and the Holy See in regard to the proposed legislation of the status of the Religious Orders in that kingdom. The Spanish Government, says a correspondent, has decided that all questions concerning the religious Orders shall be made natter of treaty, after due and calm discussion. Pending such discussion the State will take no action what

Made Fortune in Apples

John Wellhouse, the apple-raising Judge of Kansas, has made more than \$100,000 out of apples in ten years. During this time he has raised nearly half a million bushels of fruit, .which have been shipped to every State in the Union.

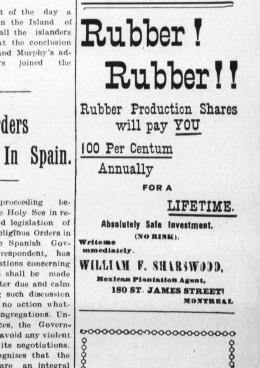

Judge Wellhouse started with a 120-acre tract in 1876 near Leavenworth, in which he set out an orchard. The land was of poor quality so far as the raising of wheat, forn and such products was concerned and his neighbors were inclined to laugh at his apple venture. He's got more than 1,600 acres of orchards now in Leavenworth, Miami and Osage counties and few of h,s neighbors make so much money as he.

In a favorable season, such as 1902 has been, Judge Wellhouse raises from 60,000 to 80,000 bushels of apples. In hot and dry seasons his apple crop is a financial "irost." It has happened that the total crop in a bad season has amounted to only 400 bushels from all his orchards, and in the season of 1893 he didn't bother to pick an apple. Judge Wellhouse has found the Ben Davis to be the most profitable of all his varieties, although the Jonathan has yielded more bushels to the acre. Judge Wellhouse also has a big trade in dried apples.

It may be useful, especially at a time when a couple of malcontents are attempting to create an opinion adverse to the Religious Orders, by pretending that there exists friction between the various sections of the clergy engaged in parochial work, to say that there is no such friction outside the minds of the visionaries. Benedictines, Jesuits, and other Or- ders work side by side with the par- ochial clergy, and between them there is a mutual admiration and a mutual respect for each others' la- bors in the good cause. The bishops invite their services, the diocesan clergy welcome them, and the Holy See regards whem, and justly, as an integral part of the work which the ecclesiastical system is organized to achieve.
