Winnipeg Live Stock

The receipts at the stockyards last week were very heavy but figures are not available, the large number of arrivals puting the office force behind in their work, so that the returns have not been as yet compiled. The general run of butchers showed some imprevement over former weeks and there were some real market toppers in the pens. Prices show no change, the demand for all classes being exceptionally good. It is very hard to draw first hand conclusions without the figures at band, but it looks as if the demand was never better for stock that shows quality.

Eastern buyers are on the market in force and are after the best animals of butcher quality and also want an unlimited number of feeders and stockers. Eastern reports indicate that Outside Company of the contract of

of butcher quality and also want an unlimited number of feeders and stock ers. Eastern reports indicate that Outario farmers are taking all the feeding animals that they can get hold of. This should point out the proper course to westerners. The Outario farmer purchases his feeders from the West, fee at them on grain that toots more than it would in the West and sells the finished animals at a profit. This is an old story and has been oft repeated to western farmers and it is pleasing to note that there are fewer stockers and feeders on the market this year than ever before and farmers are demanding more for them. Western farmers can finish high class beef animals for many that came to market this spring were of the highest quality. But there are too few of them in the business.

There was a good sized run of exporters, mostly from Alberta points. The quality of these was excellent and the demand was good. Prices were steady with last week.

There is a strong demand for all well finished steers, but the outic for poor one is limited. It will now to

steady with last week.

There is a strong demand for all well flaished steers, but the outie; for poor ones is limited. It will pay to hold back half fat animals and put them is to shape. They will well repay the work. There was a light run of calves that sold at prices even with last week. Their quality was very common.

Cattle prices covered are:

Cattle prices quoted are: Fair to good steers and heifers 4.00 ''
Compton steers and heifers 3.25 ''
Bost fat cows 4.00 ''
Pair to good cows 3.60 ''
Common cows 2.50 ''
Best bulls 3.25 ''
Good to best feeding steers 1,000 lbs. up 4.25 ''
Good to best feeding steers 900 to 1,000 lbs. 4.00 ''
Stockers, 700 to 900 lbs. 3.75 ''
Light stockers 3.00 ''
Best calves 4.50 ''
Heavy calves Hogs 2.50 ** 3.00 4.00 3.50 5.00 4.00 Hogs

Hogs

Receipts of hogs are reported to have shown an increase over last week and the bulk sold even with previous quotations. However, there were none went over the \$9.00 mark. Demand is strong and prices should hold steady if there is not too big a run after threshing. There are too many light pigs coming. These should be held back and put in better shape as besides the added weight they will catch a higher price per pound.

Hog prices quoted are:

Hog prices quoted are:

Sheep and Lambs

Sheep and lamb prices quoted are

Country Produce Wholesale Market

Butter

Butter prices are holding steady under small shipments and a strong demand. Shipments have not as yet started to pick up but should in a week or so more

for the last shipments of the season. There has as yet very little dairy butter gone into storage and any surplus in this last run should be easily taken care of. There is still quite a lot of Ontario stock coming in. The new stuff coming from western points is very good indeed but there should be a lot more coming. Prices quoted are:

Fancy dairy 23c.-24c
No. 1 dairy 22c
Good round lots without culls or mold. 20c

Eggs

Prices quoted for Manitoba eggs are level with a week ago, viz., twenty-three cents pre dozen, f.o.b. Winnipeg, subject to candling but the outlook is that they cents pre dozen, I.o.b. Winnipeg, subject to canding but the outlook is that they will stiffen during the coming week. There are very few coming and the trade is looking to Ontario for the greater part of the supply. For Ontario stock they are paying \$434 cents per dozen. This looks like discrimination against Western product but the Eastern eggs are really worth the difference on account of better methods in handling and the fact that they are candled before shipping. Western farmers should give their egg crop more attention for there is money in it if properly handled. This subject will be given attention in The Gcine within a few weeks and we commend to every farmer a careful perusul of the article. City stocks of eggs have been greatly depleted during the past week and this points to extreme prices during the cold weather.

Cheese

Cheese

Cheese prices show an advance for the week and the last of the season's make is selling at 12½ cents per pound f.o.b. Winnipeg.

Dealers prognostications on the hay market have gone wrong and instead of the predicted slump in prices a gain was registered during the week. Dealers state that while there is plenty of hay in the country it is uccessary to bring it from points much more distant from Winnipeg than during former years. Prices quoted are:

No.	ž	Prairie .	12		_			į		,	è	į,			gr.	11.	.00	
No.	3	Prairie .					ě									10	00	

Potatoes

Shipments of potatoes have greatly increased during the past week and carload shipments are coming in good shape. Prices have shown a decline and are now at 55 cents, Winnipeg. Dealers state that they are having many offers of stock and are having no trouble in getting plenty of tubers to supply all demands.

Live Poultry

Dealers state that there is a big run of live poultry and that the birds are in exceptionally good condition. The de-mand is strong. Abattoirs quote the following prices: Spring chicken, per pound 15c.

Retail Market

Retail dealers quote the following prices: All kinds of poultry are down a little from last week on account of very heavy shipments.

Butter Strictly fancy dairy in 1 lb. bricks. 24-26c. Strictly fancy dairy, gallon crocks, 20-22c.

Eggs Strictly fresh gathered 24-26c. Dressed Poultry

Geese (Note.—For the retail trade chickens and fowl must be dry plucked and not

Hides, Tallow and Wool

(BY McMILLAN FOR AND WOOL CO.) The hide market is rather weak. Prices

quoted are:
Green salted hides, unbranded, 88.25-9.25
Green salted hides, branded 87.50
Green salted hides, bulls and oxen 7.50
Green salted veal calves, 8
to 15 lbs 10c. to 12c
Green salted kip, 15 to 25 lbs. 825-9.25
Dry flint butcher hides 15c.
Dry rough and fallen hides 9c.
Tallow 4c. to 5c. Seneca root Wool

Chicago Wheat

(SEPT. 19)

Professional speculators worked mainly on the buying side on wheat to-day and hoisted prices materially, but the close was at a reaction and left the market unchanged at i to i below the final figures of Saturday. Absence of export business

formed the dominating influence in law dealing. Corn finished 1 to 1 down to 1 up. oats unchanged; to 2 off, and hog products varying from 71 loss to 15 advance. Covering of short sales, especially those of a southwestern operator, gave the wheat market its direction to a large extent. Some of the incentives were a decrease in primary receipts, the smallness of the visible supply increase, and a reduced estimate of the crop in France. World shipments, too, showed a hig falling off. An impression prevailed with many that important buying was being done under cover by one of the leading elevator concerns. Simultaneously cash houses reported an improved inquiry. Disappointing yields in Hungary was noted, and it was said that a lowering of the French import duty would not be unexpected. What wavering them was in the market occurred chiefly in the first hour or near the end of the day. December fluctuated between 991 at 992 and 1001 at 1001, and closed weak at 100 at 1001, a net loss of i at 1.

Outs were down with other grains early but rallied. September was relatively weaker than the distant months. December sold 351 at 351 to 331 at 351, and closed unchanged at 331.
