The Loss of the Whaler Hump

We heartily sympathize with Captain Horwood over the mishap which befell him off St. Lawrence on Thursday morning...

A rather serious loss has come to him; for we understand neither he nor the crew saved anything, as the Hump sank almost instantly...

The use of Carbonvoid means more Power, less Fuel, perfect Ignition, easier Starting, and uniform Combustion. IT PAYS.

"FAREWELL SMOKER" TO THE DRAFTS OF R.N.R. AND REGIMENT

The "Farewell Smoker" to the Drafts of the R.N.R. and Regiment was held last evening in the Grenfell Hall, and was a great success...

S. A. Congress Opens To-morrow

Salvationists and their numerous friends in Newfoundland are preparing to give a very hearty welcome to their Territorial Leader, Commissioner Richards, who will arrive in the City by to-day's express.

Those who follow current events in the Territory over which he has jurisdiction will know something of the numerous claims made upon him...

The programme of his visit, drawn up during the earlier part of the year, covered a period of four weeks, but unfortunately this had to be cancelled...

Since the Commissioner visited Newfoundland he has apart from his overcrowded administrative work at T. H. Q. visited a large number of Corps throughout the Territory...

The chief event of the Commissioner's visit will be his lecture on the Social and Missionary work of the Army, in the Methodist College Hall, on Sunday, August 27th at 3 p.m.

A very pleasant time is anticipated, as the Commissioner is a very hearty speaker, and will be sure to interest his audience.

Flower Service C. E. Cemetery

The Annual Flower Service at the C. of E. cemetery will take place to-morrow and promises to be a great success. The service, which will take place at 3 o'clock, will be conducted by the Rev. Henry Uphill, of St. Mary's, and an address will be delivered by the Rev. Dr. Jones of St. Thomas's. The C. L. B. Band will be in attendance and will render the music, and one of the most impressive services may be looked forward to and a big attendance is anticipated.

Mr. Fisherman to save nine-tenths of your Engine trouble, use CARBONVOID.

There was a good sign of fish on the local grounds to-day, most fishermen securing good fares; and squid was also plentiful.

F.P.U. Men Fish for Church

Dear Sir,—The 15th being Lady Day the members of the F.P.U. at Red Head Cove, three miles below here, but connected somewhat in trade, followed the good old custom of fishing for the Church, being fairly successful with the staple product. A good old time dance was held in the evening at their new Union Hall. The dance continued during the night until 6 in the morning. Table refreshments were freely served, it being the most popular time held around these borders for years. The proceeds went into the fund for finishing the new hall. The proceeds were close to the hundred dollar mark.

Squid has struck in here fairly plentiful, but cod is scarce. The average catch is 2 qtls. a boat. The trapping season did not prove as good as last season still a couple of large outports have fished remarkably well. Most of the trap men have saving voyages ashore.

A dory, in good condition, painted red outside, brown inside, picked up a few days ago off Bay de Verde head by Mr. Andrew Broaders may have broken adrift from some schooner. Dory can be recovered by proving ownership.

It is stated in a report book circulated this year by Minister of Marine and Fisheries that an iron ladder has been placed at the landing for fog alarm. No such iron ladder is to be seen there, and the keeper claims never has been there since he took charge. This report was handed by Mr. W. White, Inspector of Lighthouses, etc., and signed by Minister of Marine and Fisheries. Visitors going there wonder how the world people get up and down such a place without some person being killed. A person landing there has to hang on for dear life to an old rickety wooden thing that the keeper has placed there.

Such a statement has been put in a report looks absurd when the general public know its untrue. People are not so easily fooled now-adays as they were twenty years ago. You have to show them now, like the man from Missouri.

Simon Nolan Of Salmonier Is Drowned

Gloucester, Aug. 20.—After more than 30 years spent in battling with storms at sea, Simon Nolan, a fisherman of Salmonier, Newfoundland, was drowned in the harbor here some time last night or early this morning, almost within reaching distance of the shore. Nolan was last seen shortly before midnight on the fishing steamer F. S. Willard of Newport. He announced his intention of going ashore, and disappeared. When he failed to report this morning his son, Clifford J. Nolan, also a member of the fishing vessel's crew, became alarmed and notified the police. The water in the vicinity of the wharf where the vessel lay was dragged, and about noon Nolan's body came to light. A verdict of death by accident was given by the medical examiner. Nolan was 56 years old, and besides his son he leaves a widow and four daughters, all of whom make their home in Salmonier.

OBITUARY

MR. JOHN LODER. Information has just reached us intimating that friend John Loder, of Snook's Hr., T.B., had passed peacefully away last Sunday night and was buried on Tuesday. Friend Loder was born at Ireland's Eye and by his energy and industry raised himself to the foremost rank amongst planters. He prosecuted the fishery up to last summer and was compelled by illness to give over the command this season to his son, Thomas, who is at the Labrador. He was the first man in Trinity Bay to become interested in the F. P. U., and within a week of the establishment of the Council at Herring Neck he had applied for a Council for Snook's Harbor. President Coaker paid his first Union visit in Trinity Bay, in January 1910, in response to Mr. Loder's invitation, and was met at Clarendville by Skipper John and both visited many settlements in the bottom of the Bay and established councils. He was selected as one of the Union Candidates for Trinity, and President at Catalina convention in 1912 and retired in favor of Dr. Lloyd and returned, in 1913, Had he stood for Trinity district in 1913 his seat would have been vacant to-day, for he would have been returned without doubt. He leaves a wife, daughter and two sons and one brother, Capt. Jas. Loder, of Ireland's Eye. His daughter, Martha, is having the Red-Cross Nurses in France, having volunteered when the war began, leaving a splendid position in the United States. His son, Thomas, is master of the schooner, and another son, William, is fishing at their room, situated at Quirpon's. Union men all over the North will regret Mr. Loder's death and consider the loss a great one, as friend Loder always attended conventions and became very popular with delegates. He was also a director of the Trading Co. and Publishing Co., and strongly advocated the establishment of the headquarters at Catalina. President Coaker has lost a close friend and faithful councillor in friend Loder, and he will regret his demise as much as anyone in the Colony. To his sorrowing widow and family, especially the daughter in far away France, the Mail and Advocate tenders its deepest sympathy.

Board of Trade Fishery Reports

Aug. 19th. From W. T. Burke, (Boxey Pt. to St. Jacques)—The total catch is 10,325 qtls with 700 for last week. Thirty dories and skiffs are fishing but prospects are poor, as there is very little squid for bait.

Aug. 19th. From A. Follet, (Sound Island to North Hr.)—Fishing is very good with nets but nothing is being done on trawls. The catch to date is 1,310 qtls and for last week 450. Four boats and 29 dories and skiffs are fishing.

Aug. 19th. From A. J. Hoffe, (Change Island)—The fall catch so far has been poor though some of the boats this week got from 1 to 2 qtls. a day on the outside grounds. The catch is 3,000 qtls, with 100 for last week. Prospects are not very encouraging, herring and squid being scarce. One hundred dories and skiffs are fishing with 6 boats at Little Fogo.

Aug. 19th. From J. F. Williams, (Bay Bulls South Head to Long Pt.)—Twenty dories and 25 motor boats are fishing and the catch is 7,820 qtls with 115 for last week. Prospects are fairly good but squid is scarce there not being enough for bait.

Aug. 19th. From J. Britt, (Blanc Sablon to Forteau)—The fishery here is about closed, though on some days the boats get from one to one and half qtls. Prospects are not good and the supply of herring bait is poor. Fifty dories and skiffs and 29 boats are fishing. The catch to date is 12,500 and for last week 300.
