Philip spoke a few words of comfort to him, such as a man can speak who is himself a believer. He felt that such an admission as this was as good as a prayer on such callous lips. It was past one o'clock in the afternoon before he spoke again—for he had lingered much longer than seemed possible at first, and the greyness of death was on his face, and his lips were ashen.

"You would have been a worse boundrei even than I take you for if you had," exclaimed Philip, hotty. "Everything is fair in love and war," Armytage said. "If you can't take a citadel by storm, you must take it by stratagem."

Dr. Frazer was so utterly disgusted with the man ne moved away lest his temper should master him. When he returned the other had sunk into an aneasy sleep, which assted for a full hour. Philip utilized the interval in writing out a brief but comprehensive account of his confession, and made him sign it directly he awoke, getting one of the other doctors to writness it with him.

He was glad he had been prompt, we's wild tunnered a hit-leading the oplates it was necessary to give him in order to soothe the pain. Later on these were discontinued, as he became easy, and his mind grew clear again.

Winnipeg, Feb. 28.—Major WillHams was busy at the barracks yesterday encolling recruits for the
Baden-Powell police force. Only 188
men, he says, are required from Winnipeg. He has plenty of good material, but is having a most severe
examination of the hien made by
Surgeon-Lieut. Col. Codd, who rejects all men who in his opinion are
not physically and morally firstclass. Forty-four men were secured
in the Portage and sixty-eight in
Brandon and Virden, making a total
of 122. The limit from this Province is 250, and, as Major Gardiner
has received applications from sev-

rtment has sent out a notice that ere are more applicants for posi-ns in the South African police than there are men required.

B. for cancer on the throat, from which he has been suffering for seventeen years ago a cancer formed on my throat just beside the wind-pipe.

I doctored with several physicians, but they failed to give me a particle of relief.

Some for them advised an operation, others cautioned against it as the cancer was in such a delicate place. The seven years I suffered untold agony, until at last the cancer broke and discharged a thick bloody matter, after this it would heal up and a scab would form, but would eventually drop off and leave the opening larger than before. I suffered this terrible agony suntil, as short time ago, when I happened to read of Burdock Blood Bitters being good, for cancer, and I decided to procure a bottle, but hardly had faith in anything and did not dare to think of it giving me any relief.

However, I started applying it to the sore with a piece of cotton. I also took the B. B. internally according to directions. I had not used the treatment long before I could notice a great change for the better, and believe by continuing its use I will ere long be permanently cured. I cannot too highly recommend B. B. B. to any person who is troubled with cancer.

Statistics of the Years Worl

demic of the grip is prevailing it is in the air we breath and no one is safe.

The endy integrand is to keep the system in the highest possible condition of health and on the first appearance of a cold in the head to use some safe antisetic like Stuart's Catarrh Tablets freely, a tablet taken every hour or two for a couple of days will be sufficient to break up the attack.

La Grippe attacks the weakest part of the system, it may be the lungs, heart, liver, stomach or kidneys, but wherever it finally locates it almost invariably starts with cold in the head and throat or in other words, the disease at the beginning is acute catarrh.

This is the reason Stuart's Catarrh Tablets have been so successful in hreaking up attacks of grip. The antiseptic properties of the remedy destroy the garns before the whole system is thoroughly infected.

Dr. Anniscon says: Stuart's Catarrh Tablets being free from cocaine and harmful drugs should be freely used at this time of year on the first appearance of grip symptoms.

CASH PAID SGRAP GAST IRON

The 21st annual meeting of the Canadian Order of Foresters opened at Sarnia Tuesday afternoon, H.C.R. Elliott presiding.

The reports of the High Court officers were very satisfactory. At the close of the year the order had a membership of 40,142, and a surplus in the insurance branch for the payment of death claims of \$982,029.32, reaching past the million mark on Feb. 1. The death benefits in the year reached \$195,669, the sick benefits \$59,880, and the funeral benefit \$37,82. The receipts but the several funds were:—Insurance, \$340,428.11; sick and funeral benefit branch, \$71,852.80, and to the general fund, \$47,482.89, making a total of \$469,703.80. The total expenditure in these funds amounted to \$300,717.39. The interest receipts were \$32,386.92.

The death rate for the year 1900 was only 4.89 per 1,000 of membership, being lower than the average for the whole 21 years of the order's histosy. The pet increase in the insurance surplus for the year was \$144,767.66, the largest addition to the reserve la any one year. During the year there were 58 Courts organized, with a membership of 1,402. A total of 6,619 members, with an average age by 28.2 years, were initiated during the year.
