Aspirin

Nothing Else is Aspirin—say "Bayer"

Warning! Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe by millions for Colds, Headaches, Earache, Toothache, Neuritis, Rheumatism, Neuralgia, Lumbago, and Pain. Made in Germany.

All druggists sell Bayer Tablets of Aspirin in handy tin boxes of 12 tablets, and in bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocrotinamide of Salford, England. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Farming is Menaced by more Hazards than any other business

Every building can be wiped out in a few moments by fire, lightning and windstorm, leaving your farm a total ruin.

You can buy insurance that indemnifies you for such loss. It guarantees you against financial ruin caused by fire.

It is good to be sure. Better to be insured than to be insured through this agency.

P. S. MARSTEN

Insurance Broker : : Woodstock, N. B.

The University of Alberta

The establishment of the University of Alberta in Edmonton has brought about a great intellectual stimulus in the West where there are in the youth of the province wonderful potentialities for national efficiency and good citizenship. At the primary session of the Legislature of Alberta in 1906, an act was passed creating the University of Alberta and in 1908 the first president entered upon his duties with sessions beginning in September of that year.

The site of the University on the high banks of the Saskatchewan in South Edmonton comprises 258 acres while there is also a farm of 800 acres. Five hundred acres are under cultivation in addition to those covered by buildings. The institution is financed by the government and the expenditure to date exceeds three and one-half million dollars.

There are three commodious residential buildings—Athabasca Hall, Assiniboia Hall and Pembina Hall, providing residential accommodation for four hundred students. The main teaching building is a handsome structure of neo-classic style and was opened for classes in the fall of 1915. The new medical building which will be completed for the opening of the fall session ranks as one of the finest in Canada. It forms the southern part of a quadrangle of University buildings and is in architectural harmony with the other structures. In addition to accommodating the department of chemistry, it contains laboratories for the department of anatomy, physiology, pathology and public health. There are two lecture halls, in theatre form with a capacity for two hundred students each. Twenty-five thousand dollars, representing the interest on half a million, has been made available for the medical faculty by the Rockefeller Foundation, for the

(1) The Main Teaching Building of the University.

(2) The Engineering Building, in rear of the Main Building.

Under the direction of the Extension Board, the farm young people of Alberta were given a week of work and play at the University in June. A feature of the University is the Summer School for teachers which is carrying on its ninth program of work.

"Evergreen and Gold," the year book of the University gives a résumé of the activities of the year which are as interesting as they are broad in scope. The Clubs include the Agricultural Club, the Pharmacy Club in its first year, the Medical Club in its fourth year, the Literary and Musical interests are promoted by the Literary Association, the Glee Club, Mandolin Club and the University orchestra. The Dramatic Society has established a reputation in Alberta. Bernard Shaw's comedy "You Never Can Tell" was the spectacular production given in the leading cities of the Province.

The Writers' Club, whose program has covered the various fields of literary endeavor is of value in such a young province as Alberta. Amateur sport in Western Canada has been developed by the University of Alberta Athletics Society. There is a track club, soccer, basketball team, rugby and hockey, and great advance has been made in woman's athletics.—C. G.
