Building Activities

This year Newcastle is receiving her share of building activities, which we are pleased to record, and which is a good omen for our town. A number of good substantial buildings have been added to the town during the year, and considering the high state of the Lumber and labor market it speaks well for Newcastle, and assures us that our town is still on the upward trend. During this year the following buildings have been erected and they all add to the appearance of our community.

Mr. James Stables has erected a large wooden building with concrete basement in the rear of his residence on George St. which he will use as a warehouse and stable. Mr. Robert Galloway has built a beautiful residence in rear of St. James Presbyterian church which is a good building location and adds much to this street which has recently been opened up. Mr. Finlay Copp is erecting a new residence on Jane Street, near the C.N. Railway station and makes a decided improvement in this locality. Mr. Burton Somers has completed his beautiful residence on King's Highway and is built on a plan which appeals to many citizens.

The Baptist church, have under construction their new parsonage on King's Highway, and when completed will be a most suitable location and residence for their pastor. Mr. Herbert Whalen is finishing a concrete building on Regent St. which when completed will add to the appearance of this locality. Mr. J. D. Creaghan is making extensive repairs to his newly acquired property on the corner of Pleasant and Prince William Street and will not only greatly improve this corner but will materially assist the housing problem.

Mr. John Copp is also building a fine residence on the Chaplin Island Road, a short distance from the Railway crossing, and when completed will add much to the appearance of this particular approach to the town.

Mr. James McLaughlin, is erecting for himself a fine residence on Radio Street. This street is rapidly building up and the buildings thereon are of a most desirable character.

A number of other buildings are expected to be erected in the near future, and generally speaking a good boom in building operations is in sight. This is a matter of congratulation for our town, and greatly diminishes the scarcity of buildings for occupation. The housing problem is one which is demanding the attention of the country at large, and it is indeed gratifying to see Newcastle receiving her share of the new buildings erected.

Why Beauty Fades

A Condition Due Entirely to Poor, Watery Blood

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes thin, pale haggard and angular. She not only tires out easily but suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite. This condition will go from bad to worse, until perhaps fatal consumption sets in, if prompt steps are not taken to increase and enrich the blood supply. To make the rich, red blood that brings the glow of health, no medicine yet discovered can equal Dr. Williams' Pink Pills. If given a fair trial their use brings rosy cheeks, bright eyes, a good appetite and good spirits. Dr. Williams' Pink Pills have made thousands of pale, languid girls active and strong. On the first sign of poor, thin blood mothers should insist upon their daughters taking a fair course of these pills. They will not only restore health, but will save further doctor bills.

Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont. 340

More Look-out Stations To Be Established

A meeting of the Forestry Advisory Board was held Thursday afternoon with a full attendance of members, including Hon. E. A. Smyth, Minister of Lands and Mines, G. J. Buckley, Archibald Fraser, Col. T. G. Loggie, and G. H. Prince.

The Board affirmed the appointments of some twenty three candidates for forest rangers who had passed in scaling examinations and certificates will be sent to them. Seventeen of these are returned soldiers. The list is as follows:

W. P. Damery, Chatham.
J. P. Bradley, St. John
F. W. Gregg, Rowena
M. J. King, Newcastle
Louis Giroux, Charlottetown
Harvey Halcombe, Flat Lands.
E. A. Whitebone, St. John
Fred Jeffrey, Cumberland Bay.
Evert Akselheim, Fredericton.
J. Frank Hayes, North Renous.
Harry Delond, Nashwaakias.
E. T. Norrad, Boiestown.
Wm. J. O'Brien, St. Stephen.
R. M. Young, Bathurst.
J. F. Lawney, St. George.
J. F. Jones, Burt's Corner.
H. C. Lynn, Campbellton.
C. G. Fiolotte, Five Fingers.
H. A. Murchie, St. Stephen.
S. M. Ritchie, Temple.
Peter McLaggan, Nashwaak Bridge.
J. Edward Fraser, Chipman.
Albert Hopper, Hoppers, Albert Co.

Two New Look-out Stations
Reports regarding the look-out stations and telephone lines were received and it is very probable that two look-out stations will be built on Blue Mountain in Victoria County, and Bald Mountain in Northumberland County this fall. These will be connected by telephone lines. A cooperative arrangement was reached with the Bathurst Lumbering Co. by the Government by which the cost of a sixty mile telephone line from the Bathurst mills to the head of the Nepisiquit River will be borne by both. The construction of the telephone line will be by one of the methods of the tree-line. It is also very probable that a forty-mile telephone line will be laid from Bald Mountain in Northumberland County. A number of items of routine business came up and were discharged in the usual manner.

Cholera Infantum

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded summer complaints. They are an absolutely safe medicine being guaranteed by a government analyst to contain no opiates or narcotics or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wanted

One girl for general house work. Must be able to do plain cooking. Highest wages paid. Apply to
MRS. A. ALCORN
Blackville

LEAVE IT TO "PAL"

Dog's Owner Relies on Animal's Intelligence.

Offspring of Gray Wolf and Highly Bred Scottish Guardian of Sheep, Four-Footed Companion is Beyond Value.

While in Alabama I made the acquaintance with the strangest dog I have ever heard of—the most unique creature it has been my province to get acquainted with, writes George F. Evans in the Columbus Dispatch. He belongs to a man living at Tysonville, but is known all over the state, and his name is "Pal."

"Pal's mother was a shepherd and lived on the plains out West, where she looked after a big herd of sheep. In fact, she was one of the best sheep dogs in the whole region. His father was a gray wolf. So Pal is half wolf and half dog—a common enough thing out West.

"Pal grew up with the sheep his mother looked after, and learned all the tricks of rounding them up and bringing them in. But he learned a whole lot more than the average sheep dog knows. He learned that every other animal as well as sheep can be directed and guided and taken care of if you know how to do it. So when Pal's owner wants any certain animal on the farm brought in, he simply tells the dog what he wants and Pal attends to it. He can tell the dog to go to the pasture a mile away and bring in a certain mule and he goes and brings it in. He can direct him to bring in a certain cow or calf or hog and it is done.

But the strange thing about it is that Pal also brings in other dogs. His owner has numerous bird dogs, which he trains upon the plantation. Pal helps train them. If a dog gets too far away, the trainer says, "Pal, bring him in," and Pal does so. He runs to the dog and crowds him toward the owner. He simply will not let him go in any other direction. He doesn't fight the other dog, although at times it may be necessary for him to take hold of an ear and nip it a little. But he annoys the dog until there is nothing else for it to do but to be guided by Pal.

Then Pal is the high sheriff or policeman of the whole plantation. He keeps the peace between the other animals. If two dogs get into a fight, Pal separates them. If he finds a couple of hogs or chickens fighting, he does the same thing. He doesn't bother anything upon the plantation unless it is doing something it ought not to do, and then he takes a hand in the matter and settles it. If he finds a pig in a field where it doesn't belong, he drives it out without being directed to do so. If a horse slips its bridle while hitched to the hitching post and cavers down the road, it is only for a few moments, for Pal is close upon its heels or at its nose and he brings it back and keeps it standing where it was left.

Taking the Next Census.

The government takes stock of its resources this year. July 1, 1919, begins the next decennial census of the population and industries of the United States. It comes fittingly at an important epoch in the nation's destiny and at a time when we are launching upon a new era of expansion and foreign interest. Thomas H. Logan says in Leslie's. Our statesmen and students will be deeply concerned in the data accumulated as to the value of our industries as well as to their extent. It will be a greatly energized and strengthened America which the new census taker will find. He will observe and record the effects of the war upon our industrial life. He will report also the exact number of our citizens by races and ages. It will be possible to determine how far General Crowder's draft registration fell short of the actual number of population of draft age. The last census showed 8,781,324 population. Guesses as to the present population range from 105,000,000 to as high as 112,000,000. Inroads of the war, of influenza, without compensating immigration, have abated our rate of increase. Despite this, the totals may surprise us.

"Times" as Smallest Seller.

"Having blown the horn of our American friends as to their circulations," said Lord Northcliffe at a luncheon to American editors, "I may be permitted to say that each afternoon we print here a special daily newspaper with perhaps the smallest circulation in the world. I will ask you to come and see it produced. It is the permanent record edition of the Times, which we make for libraries all over the world. We produce it on paper that we believe to be indestructible, with indelible ink."—Publisher's Weekly.

Reno.

"And what is this place?"
"This is Reno. The limited stops here are twenty minutes."
"Oh, I've heard of Reno."
"Of course you have."
"Is twenty minutes long enough to get a divorce?"—Birmingham Age-Herald.

Country's Corn Production.

When the Indians taught the white settlers of this country how to raise corn, so flight of the imagination could have foreseen the crop of 1918, covering nearly 178,000 square miles, or nearly as much land as there is in Germany.

STANFIELD'S UNDERWEAR

\$1.69

A lucky purchase brings these fine Shirts and Drawers to you at this low price. Fine ribbed, heavy weight Underwear with the Stanfield label that guarantees you satisfaction. All sizes from 34 to 44 and regular \$2.25 quality.
