Household Notes.

A little alcohol on a rag will make windows brilliant.

Turkeys should always be cut into small pieces before cooking.

A small amount of chopped figs will greatly improve a nut and apple salad. To freshen blue serge, sponge it in blue water and hang it in the air to dry.

Clothes can be made extra white by a little kerosene added to the wash water.

Blotting paper saturated with turpentine is a sure preventive against moths.

The older a woman gets the more water she should drink and the more fruit she should eat.

Pencil marks may often be removed from white paint by rubbing them gently with bread crumbs.

Municipal Council.

The City Council met last night at 7.30. Deputy Mayor Martin presided in his usual able manner.

A long discussion occurred over the dirty condition of the streets.

Councillor Mullaly.—He did not believe that the Council was getting the best value for the money spent in cleaning the streets of snow and opening the drains.

Deputy Mayor did not agree with him and thought that the Council was doing the best possible under the circumstances.

Councillor Myrick said that the money referred to by Councillor Mullaly had been spent in clearing the ice from the drains and gullies, and Councillor Mullaly did not understand the subject when he talked of cleaning the streets.

Councillor Mullaly replied that on one or two streets had been given particular attention, and in other streets people's cellars were flooded with water. He thought that the most necessary work should be done first and that the Council should get as good value for the money as a private employer. He himself, had asked to have several gullies and drains attended to, but nothing had been done.

Deputy Mayor Martin confronted him on this statement by reminding him that what he (Councillor Mullaly) had asked him to have performed had in every case been attended to.

In reference to the complaint made about dirty snow deposited by the R. N. Co. near the C. of E. Rectory, the E. N. Co. wrote to say that they had been given permission by the Engineer to put the snow there where others also had deposited snow.

A complaint was sent in by Hon. D. Morrison on behalf of residents of Renzie's Mill Road. They said that rubbish and bad smelling offal was being dumped on the north side of Renzie's River. He also sent in a letter from Supt. Sullivan, Dr. Brehm and others on the same subject. The Sanitary Supt. asked about it said that the statements of the complaints were exaggerated. The Council decided to stop throwing rubbish there.

As a result of complaint of the R. N. Co. the Council will remove the truck crusher to Flavin Street.

T. J. Roach sent in a complaint about Cove Road. Council cannot grant request owing to the cost.

Tenders for stone blocks were received from Burridge, Kelly and N. Murphy. Burridge's tender offered to supply the stone for 7½ cents, and it was the lowest and therefore accepted.

Keegan were approved, and Harvey & Co., Wm. Best, Joseph Bagge and Joseph Bulger were given permission to make repairs.

The Engineer reported that the money spent the past winter in emergency work would leave very little for employing men the coming season. He also informed the Council that horses had gone over Twenty Mile Pond recently.

The Health Officer called attention to the dump on Water Street West, near the Railway Station. He thought that the throwing of garbage there should be stopped. His report showed ten new cases of diphtheria the past week, one typhoid, one typhoid death and one scarlet fever. In the city up to Thursday last there were 28 cases of diphtheria, two of typhoid and two of scarlet fever.

Councillor Myrick proposed that the sanitary staff be sent out to clean up the streets to-day, and that the iron carts be used to take away the garbage and sweepings. The motion was carried unanimously.

A consultation about the fitting of the City Hall was held with Architect Barter.

After passing pay rolls the meeting adjourned at 9 o'clock.

B. I. S. Debate.

The weekly debate held by the B.I.S. L. & A. boys last night was on the question "Should the Government subsidize local manufacturers despite their costing the consumer more than the previous price of the imported article?" Messrs. T. P. Hally, J. I. Walsh and J. McKenlie spoke for the affirmative, and Messrs. E. L. Carter, J. Darcey and M. Keah argued for the negative. General discussion followed in which Messrs. J. P. Crotty, J. Dee, W. J. Mahoney, J. Keough, J. Campbell, J. Foley and J. M. Devin took part. A vote being taken the affirmative side was found to have won. Mr. J. C. Pippy, the Chairman announced that next Friday night Mr. J. M. Devine would read a paper on the "Unthinking Crowd."

Man Reported Missing

A man named Ash came to the police station last night and reported that one Shide, his cousin, of Harbor Grace, who had been to the ice in the Bonaventure, was missing. He has been living with Mr. Ash at his residence, Prince's Street, left there Thursday morning, and had not returned up to the time the report was made. The police had no tidings of him up to midnight, but it is hoped that he has gone to Harbor Grace.

OBITUARY.

There passed away last night, at her residence, Bambrick Street, a venerable and respected resident of the West End in the person of Mrs. Ann Breen, relict of the late John Breen, who was drowned on the Nova Scotia, on a foreign voyage many years ago. Mrs. Breen, who was in her 76th year, leaves to mourn her two sons—Mr. Patk. Breen, of the Boot & Shoe Factory, and Mr. Jno. Breen, residing at Summerville, Mass. Her sister is Sister Agnes of the Presentation Convent, Torbay. To the bereaved friends and relatives the Telegram extends its sympathy.

When haggard from fatigue try a hot bath in which a little vinegar and cologne has been added.

BERLIN, March 31.

The Reichstag, by a large majority, rejected the Socialist motion calling upon the Government to take immediate steps leading towards an international agreement concerning universal limitation of armaments and the abolition of the right of capture at sea.

Special to Evening Telegram.

LONDON, March 31.

The King's Bench division to-day awarded \$200 damages to former Inspector Dew of Scotland Yard, in a libel suit brought by him against the Darby Chronicle, in connection with the Crippen murder case. The alleged libel was contained in a cable despatch to the Chronicle from Quebec in which it was asserted that Dew had informed the correspondent that Dr. Crippen had confessed.

EL PASO, March 31.

The bloodiest battle of the Mexican Revolution is reported to be still raging around the town of Ures in the State of Sonora. A thousand have already been killed, and the town of Ures has fallen into the hands of the revolutionists. The nearby town of San Rafael has been sacked and destroyed. The federal troops are encamped about Ures and a long battle is being fought, both sides awaiting reinforcements. The insurgents trapped 20 federals in the Municipal building of Ures. They poured a galling fire into the structure, killing all. The regulars fought gallantly to death. By forced marches the insurgents surprised the regular troops, and a hand to hand battle in the streets of the town ensued.

Keep Chaps Away.

It is not always easy to do so, but we are continually hearing of the wonderful virtues of a preparation called Snow Cream, which is a positive chap and spray preventative. It costs 25 cts. per bot., and may be had at W. T. COURTNEY'S, the Prescription Pharmacy, cor. Duckworth and Prescott Sts.—mar20,11.

Derelict Vessel Sighted

The Minister of Marine and Fisheries had the following wire yesterday afternoon from William Young, light keeper at Bonne Bay:—

"Sighted vessel in ice to-day 5 miles N. W. of light; no sign of life on board. Ice and vessel moving Northward."

Mr. Piccott wired for further particulars and should have a reply to-day. It is not unlikely that the vessel is the "Goodwin" which left Bay of Islands for Gloucester in December last with herring and which has not been heard from since.

Ice Impedes Glencoe.

The S. S. Glencoe arrived at Dublin's Cove at 6 p.m. yesterday from Louisburg, as Port aux Basques is blocked with ice. She left Louisburg at 11.30 a.m. Thursday for Port aux Basques but could not enter there, and Capt Spracklin determined to run around to Dublin's Cove and remain until the blockade is raised, when she will go to her destination.

Bonaventure's

Turnout Yesterday.

Up to 6 p.m. yesterday there were landed from the Bonaventure 16,620 seals, including 8,829 young harps, 240 old harps, 1,140 young and 3,420 old hoods. The young harps averaged 35 lbs.; young hoods, 43 lbs.; and the old hoods, 155 lbs. The ship should finish discharging Monday.

NINE HOUR DAY.—Rumor has it that the members of the Laborers' Union are seriously considering the advisability of agitating for a 9 hour working day instead of the present 10 hour system. They contend that working "long shore," especially discharging ships and vessels, is very laborious, as is also the barrowing of fish, and after 10 hours of such work men are used up. Many mechanics and factory hands are also considering the advisability of doing the same.
