Privy Council Decision in Cable Case.

Yesterday we published a short message stating that the Privy Council had reversed the judgment of the Supreme Court in the Commercial Cable case. The Government sued the Commercial Cable Company for a tax on four cables. The Company paid into Court in respect of two cables, with a denial of liability. The majority of the Supreme Court, Mr. Justice Johnson dissenting, held the Company liable for the tax on four cables, with costs of course to be paid by the Company. Mr. Justice Johnson dissented from the judgment of his brother judges, and held that the Company had paid enough into Court to satisfy its liability. Apparently the Privy Council sustains the substance of the finding of Mr. Justice Johnson. How far this is

so can only be determined by a perusal of the text of the Privy Council's judgment, which is not available. The finding of the Privy Council will occasion no surprise to those who have followed the case closely, and the reversal of the judgment was expected by Mr. Kent, K.C., who had charge of the Commercial Cable case here. The message states that the Privy Council holds that the contract which was repudiated by the Morris Government was valid, apparently without the sanction of the Legislature. It is, however, unsafe to draw inferences on a message which is so meagre in its details. Mr. Kent is to be congratulated on his able conduct of the case.

It is hardly correct, as the message states, that the Supreme Court sustained the repudiation of the Government. That would be to sustain a political act. Two judges held that a clause of the contract exempted the Company from a tax and was not operative without legislative sanction. The third judge held that the clause did not exempt the Company from a tax and did not require legislative sanction.

TRAIN NOTES.

The west bound express which left here Wednesday arrived at Port aux Basques on time. Yesterday's express left Grand Falls on time. The Bruce express arrived here at noon to-day with several passengers.

Baleine Back.

The S.S. Baleine, which was doing Customs protection service on the West Coast during the absence of the cruiser Plover, which is engaged on a tour with His Excellency the Governor and party, arrived in port last night to replenish her bunkers and await instructions. On Thursday of last week the Baleine left Burin and proceeded to the scene of the wrecked steamer Wilhelmina at Peter's River, finding Capt. Larder's two wrecking crafts there taking aboard the debris. The Baleine brought along the captain's nautical instruments and the personal effects of the captain, mate and chief engineer. Capt. Parsons of the Baleine says that the Wilhelmina is in the same position as when first she went ashore and that conditions are splendid for salvaging purposes. Inspector O'Reilly came on the Baleine, which will likely sail on the last service to-morrow.

"Cured the Piles, That I Know"

It is not pleasant to think of the dreadful suffering caused by this wretched disease, but it is satisfactory to know that there is a cure, for all who will avail themselves of it, in Dr. Chase's Ointment. Mr. Dan Stewart, Gabarouse Lake, N.S., writes:—"For about two years I had itching piles. Last summer I was working in a lobster factory, but had to give up and go home because the suffering from piles was so great. I was two weeks in bed, and my doctor could help me very little. One night I suffered such agony that I did not know what to do. Next day I wrote for a sample of Dr. Chase's Ointment, and this did me so much good that I ordered a large box, and was entirely cured by its use. That was six months ago, and there has been no return of the trouble. Dr. Chase's Ointment is a sure cure for piles. That I know." Dr. Chase's Ointment is a positive cure for itching, bleeding and protruding piles. 60c. a box, at all dealers or Edmondson, Bates & Co., Limited, Toronto.

Special to Evening Telegram. POINT-TUPPER, July 11. The loss by fire is considerably over \$200,000, with comparatively little insurance. The total loss aside from the Intercolonial is about \$79,000, with \$34,000 insurance on private property. The Intercolonial Railway losses consist of freight shed, station house, coal shed, store room, marine landing, portion slip, water tank, part ticket office, carpenter's shop and section men's tool house.

Special Evening Telegram. REGINA, To-Day. While definite results from any outlying constituency have not been received, reports at hand indicate that the Scott Government has been returned to power by a majority variously estimated at from 1 to 16. Premier Scott apparently retained. Haultain, leader of the Opposition, is reported elected. South Quappell's majority two.

Special to Evening Telegram. INVERNESS, To-Day. A train on the Inverness railway left the rails near Glendyer, the engine going down the embankment. Engineer Campbell was killed.

Newfound- landers' Picnic.

Editor Evening Telegram. Sir—I have seldom had it in my power to speak with so much pleasure of any excursion, which I have been a participant, as I enjoyed at the 21st annual picnic of the Newfoundland M. B. Association at Quannawit Picnic Grove, Wakefield, July 4th. The scenery of the lake is magnificently beautiful. In the morning a very interesting baseball game was played, after which there were field games and sports of all kinds for old and young. The leading feature of the day's celebration was the boat races on the lake. There were many prizes awarded for all games that went off. I was delighted to see the families who had their lunch baskets to move to grassy places beneath the spreading trees and do justice to their menu, and others to follow their own fancy in the matter of refreshments, etc. I sat down to take a chop with old friends I had not seen for years. The beneficial effects of such outings of fellow-countrymen are sufficiently obvious: I saw the faces and shook the hands of many old comrades, consequently I would not have seen them only for such an excursion. I presume it is a common practice to name such an organization, but as they were all jolly good fellows, and one is as equally deserving as the other, I will not particularize. I understand that the Terra Nova, another Newfoundland Association, are going to have a big time about the middle of this month. In conclusion I must say that my most ardent anticipations were fully realized. Respectfully,
JACK CODY.
