GERMAN NOTE DISCUSSED BY NEW YORK PRESS.

NEW YORK, April 13. Under the caption, "Germany's Confession," the "World" this morning says editorially: "To clear itself of the accusation that the Sussex was attacked without warning by a German submarine, the Imperial Government triumphantly submits evidence that another ship was attacked without warning. The commander of the U-boat, which made the attack is still in ignorance of the name of this ship, he does not know whether it was a liner or transport or merchantman. All he does know is that it made a dash for his vessel and that this dash does not correspond with a photograph of the Sussex. Here in itself is an admission that German submarine commanders are sinking ships without warning, without knowing the character of the ships they sink and without regard to any of the rules of warfare which the German government promised to observe. It is not enough when Germany has laid and flagrantly violates the law of nations and seeks justification in the theory of reprisal or military necessity. It is intolerable when the German government formally pledges itself to respect the law of nations and then to tear these pledges to shreds. What, therefore, remains for the United States to do but to sever diplomatic relations with Germany, which has obliterated the only basis upon which diplomatic relations can be continued. What other course is left?"

PARIS OFFICIAL. The French Government has documentary evidence that the Sussex was attacked by a submarine. The statement, which was given out here after receipt here of the German note to the United States, says: "It suffices in order to answer the German note, to recall that fragments of a torpedo have been discovered in the vicinity of the Sussex; that the French Government is in possession of documents which give the name of the commander and the number of the submarine which sank the Sussex. A further statement made from the same official source, says that the British and British warships sank a German submarine on April 5th, after taking prisoners the officers and crew of the submarine. It stated that the prisoners now fully confirm the information in the possession of the British Government concerning the name of the Commander of the submarine which it is said torpedoed the Sussex."

FOREIGN OFFICE STATEMENT. LONDON, April 13. Asked to give an official view of Germany's note to the American Government concerning the Sussex, the Foreign Office to-day made the following statement to the Associated Press: "Based upon information obtained from the Admiralty officials, there is no resemblance between the Arabic class and the Sussex. The Germans are confirmed by their own statement, which says that a submarine attacked a ship at 3.35 p.m., the exact time at which the Sussex was attacked. The submarine commander also reports the fore part of the ship blown off. No ship but the Sussex suffered damage in any way resembling this, and that the sketch of the vessel made by the commander of the submarine does not resemble the picture of the Sussex, said to have been taken from an English newspaper, will not cause surprise."

GERMAN ATTACK PREVENTED. PARIS, April 13. Calm prevailed in the whole region of Verdun last night and this morning, the official communication says, preparation was made by the Germans for an attack on Hill 304, but the attack was prevented by the French from being carried into effect. No other important developments were reported at the front.

WEATHER BAD, FLOODS INCREASED. LONDON, April 13. Replying on behalf of the Foreign Office to a question asked in the Lords concerning the Turkish reports that some 3,000 British dead had been collected in front of the Turkish trenches after an attack on April 9, Baron Sandhurst, Lord Chamberlain, said that General Lake reports that total casualties were much below this figure. He had satisfied himself by personal inspection and enquiry among the wounded themselves. This showed that medical arrangements generally had been satisfactory. He also reports the weather very bad, that on the 12th there was a hurricane accompanied by torrents of rain. Floods on both banks of the Tigris were increasing.

TO AMEND MILITARY SERVICE ACT. LONDON, April 13. Sir Edward Carson has given notice he will introduce a motion in the Commons to amend the Military Service Act, so as to require as far as possible equal sacrifices by all men of military age, making all liable to service. The Daily Mail says the question of general compulsion will be brought to a head by the motion which will be debated April 15th.

ZEPPELIN CASUALTIES. LONDON, April 13. Premier Asquith denied to-day that the number of deaths caused by Zeppelin raids had been kept from public knowledge. He was asked in the Commons by Noel Pemberton Billing whether it was with the consent of the Government that the actual number of deaths from Zeppelin raids had been withheld from the public. The exact figures have been collected by the police and published. Asquith replied, "The official statistics of casualties have been given out after the various Zeppelin raids, but in statements made unofficially, particularly by a traveler returning to the United States from England, the actual number of deaths greatly exceeded the totals given by the British authorities."

A MARQUIS DEAD. LONDON, April 13. Hubert George De Borch Gannin, second Marquis of Chichester, died in London yesterday.

BRITAIN'S REPLY TO AMERICA. WASHINGTON, April 13. Britain's reply to the American note, protesting against the Trading with the Enemy Act as pregnant with the possibility of undue interference with American trade, describes the Act as purely domestic legislation to restrict the activities of trade with persons under British jurisdiction, and assures the United States that in its enforcement every care will be exercised to avoid injury to neutral commerce. In its protest to the British Foreign Office, on Jan. 26th, Ambassador Evans of the United States expressed the opinion that the regulations had been framed without proper regard for the right of persons domiciled in the United States to carry on trade with persons in belligerent countries, and made formal reservation of its right to contest the legality, should it be found that American trade was hampered.

CHICAGO MEAT PACKERS' CASE SETTLED. LONDON, April 13. Chandler Anderson, formerly Counselor for the State Department at Washington, and representative of the Chicago Meat Packers in the Prize Court cases involving cargoes valued at between \$15,000,000 and \$20,000,000, said to-day that settlement with the British Government had been agreed upon, and that the money would be paid over to-morrow.

LABOR BATTALION TO BE RAISED. TORONTO, April 13. Labor is to have a battalion all its own. Authorization of the labor battalion came from Ottawa to-day. The unit is to be raised by the whole of Ontario.

SAFE ARRIVAL IN ENGLAND. OTTAWA, April 13. The safe arrival in England of three Canadian troopships with a total of 5,597 officers and men of the Canadian Expeditionary Forces, aboard, is officially announced.

PLEADED "NOT GUILTY." SAN FRANCISCO, April 13. Franz Bopp, Consul-General for Germany here, with four companions, pleaded "Not Guilty" to-day in the United States District Court to indictments involving violation of neutrality.

DUTCH STEAMER DAMAGED. LONDON, April 13. The Dutch steamer "Columbia" from Baltimore, March 28th, for Amsterdam put into Gravesend to-day damaged by striking a mine in the English Channel yesterday. The "Columbia" is a 5,500 ton ship, built in Holland last year, and owned in New York. The British barque "Inverloch" was sunk by a submarine, according to a report received here by Lloyd's. Twelve members of the crew have been picked up.

VILLA FLEEING SOUTHWARD. MEXICO CITY, April 13. General Herrera reported to the War Department from Ciudad Guaymas to-day that Villa was fleeing southward with a handful of ragged followers, badly armed and without rations. He added that Villa was a thoroughly dejected man and was losing what little prestige he had by selling what little property he had, and fleeing in that section of the country.

THE UNFORGETTING. Boys haven't changed since Adam's time—Most every kind of lark That they pull off was first tried out By youngsters in the ark. I have no doubt that oftentimes A sudden stomach-ache Smote Noah just because the kids Put muclage in his cake. I have no doubt on fishing days That Ham—a sleepy-head—Would tie a fish line to his toe Before he went to bed. And let it dangle from the house. Quite sure that Shem would yank the Then sleep in faith sublime. And get him up on time. As I went by a swimming hole I saw the youngsters play And splash and dive and frolic there As I did yesterday. One kid decided to go home. But as he donned his shirt The other splattered mud on him And covered him with dirt. So everywhere I go I find All kids like me and you—They pull the same stunts that we pulled. They know the things we knew. We used to think no other boys Would have the fun we had But kids to-day are just as gay And just about as glad.

The Tonnage Problem Sealers to be Used as Freight Carriers.

The introduction of the wooden sealing ships into the mercantile marine will help in no small measure to bring about a solution to the tonnage problem, as we understand that the steamers Neptune, Erik, Samuel Blandford, Eagle, Diana, Bloodhound, Terra Nova, Viking and Ranger will be all engaged a few weeks hence, either bringing coal cargoes from Sydney, but props to the Old Country or be employed in other capacities freight carrying. For all sorts of reasons the probability of handsome profits, owing to the high and increased freight rate. However, it is gratifying to know and in the interests of our trade and commerce that the question of shortage in tonnage so far as Newfoundland is considered is being coped with.

Left Arm Became Powerless Saved From Paralytic Stroke

By the Timely Use of Dr. Chase's Nerve Food—Has Built Up Nervous System Wonderfully.

Paralysis is not a pleasant thing to contemplate. Even nervous prostration and locomotor ataxia are among the most dreaded conditions. It is always better to avoid these results of neglected nervous troubles by keeping the nerves in health and vigor. Dr. Chase's Nerve Food has done wonders for people suffering from the more severe forms of nervous diseases, but we prefer to recommend it as a means of preventing such conditions. This letter from Mrs. Nichols well represents what we mean, for she was undoubtedly on the verge of more serious trouble when she heard of Dr. Chase's Nerve Food and sought his aid. It is best to be warned by nervous headaches, sleeplessness, nervousness and irritability and to apply the remedy in time. Mrs. Merritt Nichols, R. R. No. 3, Dundalk, Ont., writes: "I take pleasure in writing to tell you the great benefit I have derived from the use of Dr. Chase's Nerve Food. I was so nervous I could not sleep and found it
