ottawa with perservering energy and 1912, were \$778,642.28, out of which thoroughness.

"As the Ottawa correspondent of The Free Press stated vesterday, Sir William and Sir Donald and their force of lobbyists great and lobbyists small, have taken their departure from Ottawa, their work being finished; and "What did Messrs. Mackenzie and "What did Messrs." tawa, their work being finished; and the Government now has its part to do in bringingthe matter before Parliament at an early date. The lobbying has been most persistent and skilfur. The lobbyists great and the lobbyists small have piled their arts on both sides of the house; and all the signs go to show that Sir William and Sir Donald regard it now as a foregone conclusion that the necessary government legislation they have arranged for to enable them to help themselves to cash from the Dominion treasury and to grant them a Dominion loan will slide through parliament,

buil Moose Party Suggested

"If this is done, if there is merely a perfunctory debate, if there is only a make-believe criticism, there will be many from end to end of the Dominion who will indignantly declare that parliament exists not to do the will of the Canadian people, but to do the will of Big Business and High Finance. If both the parties show themselves subserviently serviceable in carrying through this arranged raid upon the Dominion, there will be many Canadians who will believe that the time has come for the organization of a Bull Moose party in this country.

The Free Press is not prepared to say dogmetically that circumstances do not warrant the granting of some Dominion ald, direct or indirect, to the Canadian Northern. But there is a strong presumption, that the Canadian Northern is not entitled to, and does not rightly-need, such assistance. This presumption is held by the people of this country generally; and it is the manifest duty of parliament to have oan will slide through parliament, vithout difficulty or delay.

FOR NOME IN CANOE

Seattle, May 23 .- Arthur D. Simpson and Forrest Clark, of San Diego, have started from Seattle harbor in an 18-foot canvas canoe, in which they expect to row to Nome, going all the way by water except the distance between Skagway and the head of navigation on the Yukon, at White Horse,

water nearly all the way, but there are open places on the inside passage and rapids in the Yukon that are full of peril. They expect to reach Skagway n three months and to take less time in floating down the Yukon. The crossing of Norton Sound from the nouth of the Yukon to Nome, is the nost venturesome part of the cruise.

This is the statement of Lars Frederiksen, cattle expert to the United Agricultural Societies of Jutland, a prevince in Denmark. Mr. Frederiksen, who is registered at the King George, was the guest yesterday of Provincial Dairy Commissioner Marker. The Danish expert is making a tour of the North American continent, getting advanctional cattle raising and dairying, and plans to spend at least two months in western Canada before derarting for Donmark.

"I have gained many valuable ideas

great benefit to the Danish farmers. I find that some of our people want to try their fortunes in this wonderful new western country, and I shall undoubtedly be asked to designate the places where Danes should emigrate if they are bound to come to the new world.
