Peculiar

"To itself in many important particulars, Hood's Sarsaparilla is different from and superior to any other medicine."

Peculiar in combination, proportion and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its medicinal merit, Hood's Sarsaparilla accomplishes cures hitherto unknown.

Peculiar in strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "100 doses one dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's Sarsaparilla.

Peculiar in its "good name at home"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time. Do not be lulled to sleep by any other preparation. Be sure to get Hood's Sarsaparilla.

BASEBALL.
Frank Shibeck is to play with the Cleve-
lands next season.

It is stated that Al. Johnson will receive
about \$25,000 for his baseball interests in
Cleveland.

The Toledo baseball people claim that
they will be in the Association next season
with a strong team.

The Chicago Brotherhood players claim
that they have \$5,000 coming to them on
last season's salary account.

President Young says a fair estimate of
the amount of money lost during the past
season by the warring baseball leagues
would be \$500,000.

Mark Baldwin admits that the Chicago
Brotherhood players are \$7,000 to \$8,000 in
arrears for salary and don't expect to get a
cent of it. Comiskey is the heaviest
loser, being \$1,000 behind the lights house.

President Young has sent out official
notice of the expiration of the old Cincinnati
club and the election to membership of the
new. He also gives notice that the new
club has accepted the services of the old
players as follows: Latham, Beard, Mc-
Phee, Kelly, Knight, Holliday, Barr, Har-
rington, Keenan, Rhines, Dolan, Mullane,
Clintman and Duryea.

The American Baseball Association met
at Louisville Monday. The meeting was
held with closed doors. Those who ought
to know state that the Toledo, Syracuse
and Rochester clubs will be dropped and
the Athletic franchise will be given to the
Philadelphia Players' League, and a new
association will be formed, which will in-
clude Louisville, Columbus, St. Louis,
Baltimore, Boston, Chicago, Philadelphia
and Washington or Cincinnati. This, of
course, is not authoritative, but things look
that way. Zach Phillips was re-elected
president of the Association. The Athletic
franchise was declared forfeited, and
petitions for admission were received from
Buffalo and Washington.

THE WHEEL.
The lady riders of Cincinnati have formed
an organization to be known as the Queen
Cycle Club, which will become a league
club.

An American has invented a bicycle rim
or felloe for supporting a rubber tire which
is constructed entirely of wire, and in Eng-
land a tire has been patented composed of
braided wire, covered with wire and other
materials.

FOOTBALL.
"Glad," said Mr. Summet, "who is

care to have much to do with him, rather,"
replied that young lady with the air of re-
pose which comes from perfect trust. "He
is one of the rascals on a football team."

HIGH SCHOOL VS. BUSINESS COLLEGE.
The Collegiate Institute finished their
series of matches in the London Association
yesterday afternoon by defeating the Forest
City Business College Football Club by a
score of 6 goals to 0, on Tecumseh Park,
thus finishing the season without the loss of
a game. The High School team for the
season included Little, W. Hobbs, Gray
(captain), E. Mills, Kerrigan, D. Mills, B.
Mills, J. Muir, Anderson, Bryant, Stringer,
Fawcett, J. Hobbs. The following table
shows the standing of the clubs in the Lon-
don Association Football League to date:

THE TURF.
George Forbes is reported to have
cleared \$10,000 on the opening day at Gut-
tenburg. He won three races with
Evangeline, Ketchum and Loney, getting
long odds against them and beating the
other three races of the day also.

The Nashville, Tenn., pool rooms were
swindled the other day. It is said that
some one stood on the dome of the Capitol,
which is about two miles from the track,
and in view of it, and with a powerful tele-
scope distinguished the colors of the winner
he passed the post. Then a confederate
rushed to the rooms, which are near at
hand, and played the lucky horse for the
limit.

The Independent Driving Park Associa-
tion, which is controlled by C. W.

stake for free-for-all stallions, to be trotted
at the August meeting. The Independence
meeting of 1891 is expected to be the
greatest trotting meeting given since the
prosperous days of the Buffalo Driving
Park. On Jan. 1 Williams will open nine
\$5,000 stakes, which will be open for year-
lings, 2, 3 and 4-year-olds, and also for
aged trotters and pacers. The aggregate
amount to be given in stakes will be \$75,-

MISCELLANEOUS.

The Association of Carrier Pigeon So-
cieties in Germany has just held its seven-

association contains 175 societies of 10 to 50
members each, and controls 63,530 pigeons.
Thirty-five societies against nineteen last
year reported the special training of their
birds for military service. The association
is under the protection of Emperor Wil-

A STRANGE STORY.

How Two Women Lived Together for
Years as Man and Wife.

Boston, Mass., Nov. 24.—The recent
death of Maria L. Perry, of Whitman,
brings to notice a strange story relative to
her life. About twenty years ago Miss
Perry left her father's home, and while on
a visit to friends in New York, she met a
man known as Joseph L. Lobdell. It was
a case of love at first sight, and it required
not very ardent persuasion on Lobdell's
part to gain Miss Perry's consent to a
speedy marriage.

The marriage took place in a small town
near Pittsburgh, where the couple resided
for a number of years apparently in a happy
and harmonious manner. Miss Perry longed
to see her old home in Massachusetts, and,
with her supposed husband, came to Whit-
man, and the couple were closely encoined
in a home there. Lobdell occupied his time
farming and working in the factories.

Their home was fixed up in a fine manner,
and they appeared to think the world of
each other. The people were, however,
started one day to learn that Mrs. Perry's
supposed husband was a woman, her true
name being Mrs. Lucy A. Lobdell, and
that she had a daughter residing in New
York. Miss Perry's grief at the public
discovery of her supposed spouse passed
comprehension. As soon as her rela-
tives discovered the state of affairs
they had Mrs. Lobdell arrested and
placed in the House of Correction for mas-
querading as a man. She refused to leave
her companion, and after being liberated
Mrs. Lobdell and Miss Perry went to New
York, where they resided for many years
as man and wife. Their story became
known there, and they were again driven
from their temporary home. They then
went to Pennsylvania, where they resided
until Mrs. Lobdell's death. Soon after
Miss Perry returned to Whitman, where
she has since resided.

C. P. R. Earnings—Supt. Morford Does
Not Intend Resigning.

The inclined railway being built to run
to the mountain top at Hamilton will be
completed and in operation by June next.

Supt. Morford of the M. C. R., states that
there is nothing in the rumor that he is to
resign to accept a position on a western
road.

Canadian Pacific traffic returns for the
week ending Nov. 21 were \$411,000; the
same week last year, \$347,000. The earn-
ings of the New Brunswick Railway are in-
cluded in both years.

The regular dividends of 3 per cent.,
semi-annually, on common stock and 1 1/2
per cent., quarterly, on preferred, were de-
clared yesterday by the Chicago and North-
western Railway Company.

Aitchison people at Boston deny that Jay
Gould has secured a controlling interest in
that property. Gould is a large holder,
but of the 970,000 shares issued over 575,
000 shares are held in New England.

At a meeting of the Finance Committee
of the Hamilton City Council a resolution
was passed that application be made to the
Ontario Legislature for power to exprop-
riate property for a right-of-way for rail-
way purposes.

The Southern Pacific is sending east im-
mense shipments of beans this fall. On
Saturday a special train of twenty cars left
San Pedro, and other specials, ranging
from fifteen to twenty cars, are being made
up all over California, the largest ship-
ments, however, going from Los Angeles
and Sacramento. Most of these beans go
to Boston.

POLITICAL POINTS.

The Dominion voters' list will be revised
next July.

The writ for Naperville, Que., has been
issued. Nomination, Dec. 2; polling,
Dec. 9.

The election to fill the vacancy in the
Commons for South Victoria has been fixed
for Wednesday, Dec. 10; nomination a week
earlier.

Mr. J. J. Curran, M.P. for Montreal
Central, is to be the recipient of a testi-
monial from his friends and admirers. Over

The East Hastings election petitions and
cross petitions were dismissed by Judges
Falconbridge and McLennan on Monday
without costs. One charge of bribery was
gone into, and it was dismissed.

The election in Vaudreuil for the Quebec
Legislature resulted in a tie, and will likely
be decided by the returning officer in
favor of Dr. Lalonde, the Government
candidate.

At a meeting of the Toronto Young Men's
Liberal Club Monday evening, a resolution
was adopted favoring the running of candi-
dates in conjunction with the Liberal party
in one or more constituencies at the next
Federal elections.

WHO IS RIGHT?

The C. P. R. Bonus Presents a
New Difficulty.

The Terms of the Blyan Found To Be
Ambiguous—A Representation to Inter-
view President Van Horne.

Ald. Moule (chairman), Mayor Taylor,
Aldermen Anderson, Skinner, Luney, Tay-
lor, Secretary Pope, Messrs. W. J. Reid and
J. W. Little, ex-Mayor Hodgson and C. P.
R. Assistant Superintendent Williams at-
tended a special meeting of No. 1 Commit-
tee held at 3 o'clock yesterday after-
noon to consider the C. P. R. bonus
question, the Council having received a
communication some time ago from
Superintendent Tait, asking the payment
of the \$25,000, the terms of the agreement
between the city and company having been
compiled with. Previous to taking up this
business a letter was read from Adam
Brown, M.P., Canadian commissioner to
the Jamaica Exhibition, introducing the
representatives interested in securing a
\$100 grant from the city towards preparing
views of its prominent buildings and sights,
to be shown at the three-months' exhibition
at Kingston, Jamaica. The letter explained
that the views would be thrown out on a
35-foot canvas by the limelight process.
Hamilton, Ottawa, Quebec, Montreal, Van-
cover, Winnipeg, Belleville and other
cities had adopted the idea. The committee
resolved to recommend the matter to the
favorable consideration of the Council.

Messrs. Little, Reid, Cronyn and Hyman
were on the Board of Trade Committee
who interviewed Mr. Van Horne regarding
the agreement between the city and the
C. P. R.

Mayor Taylor read a letter from Mr. W.
R. Meredith, saying he had had an inter-
view with Mr. Tait, who took strong
grounds that the money should be paid.
The company, according to Mr. Tait's state-
ment intended to make the city the chief
divisional point on the road between To-
ronto and Detroit, and had ordered the
trainman to take up their residence in
London. The latter closed with some
cautionary advice to keep on good terms
with the company.

Some discussion arose over the non-ex-
istence in the case of the workshop, which
in the opinion of the members of the com-
mittee, were required to be erected by the
terms of the by-law.

The clause relating to this question stip-
ulates that, in consideration of the bonus,
the company "will make the city of London
its chief divisional point between Toronto
and Detroit, and will maintain within the
said city the necessary car, machine and
other shops requisite and usual at such
divisional point, and employ there all the
men that may be necessary for the proper
working of such divisional point, and for
the car, machine and other shops thereat."

Mr. Reid thought it would be well to get
at the bottom of it and find out what the
divisional point workshop, etc., meant.

Mr. Little said if the number of men
stated in the bylaw were removed to the
city it would make, including the families,
an increase to London's population of about
800, which certainly had not been done.
Mr. Tait should be asked to furnish a list
of those who were in the city.

Ald. Anderson—We should write to the
company asking them to make out a list of
houses when they have complied with the
bylaw.

Mr. Reid—They would only refer you to
the company, if they maintain they have
complied with it.

The Mayor asked Mr. Williams what
constituted the shops necessary for a
divisional point.

Mr. Williams replied that the car repair-
ing was done in the city. All the men
working on the line had been ordered to
live in London. He said 80 married men
live in the city in the employ of the rail-
road, not including those employed since
the line was opened up west. It was not
necessary that these men should live here.

Mr. Little said if the number of men
appointed to interview Mr. Van Horne
and try to come to an agreement.

Ald. Taylor moved that the Mayor, ex-
Mayor Hodgson and Mr. Little be the pro-
posed committee.

Mr. Little preferred not being appointed
for business reasons, Mr. Reid also de-
clining to act.

Mayor Taylor then moved a report be
made to the Council that, as in the opinion
of the committee the agreement in the by-
law had not been carried out, a deputa-
tion be requested to wait upon Mr. Van
Horne. Carried.

The committee then adjourned.

THE WORKING WORLD.

**Types on Strike in Belgium—Successful
Co-operation—Cardinal Manning**

Five hundred compositors employed in
the weekly newspapers in Brussels have
gone on strike. Their action has complet-
ely paralyzed all typographical work on
these papers.

The experiment of co-operative labor at
the Albert docks, as suggested by Presi-
dent Mann, of the Dockers' Union, is con-
sidered an satisfactory trial efforts are being
made to induce other dock companies to
adopt it. The dockers, on the co-operative
plan, are earning nine-pence-half-penny (19
cents) an hour. They work nine hours.

Cardinal Manning, speaking on the
labor question, says the wages difficulty
ought to be solved by means of a free con-
tract between masters and men, which
should be revised periodically. He also
thinks recourse to legislation for the settle-
ment of labor disputes should, as far as pos-
sible, be avoided.

According to the Bedford (Pa.) Era, the
Erie have in their employment and living
in that city the following number of em-
ployees: Forty-three engineers, 40 firemen,
15 crews of 5 men to each crew, 30 extra
brakemen, 50 men in the shop force, 15
switchmen and 25 office men.

No freight trains are moving on the
Chicago and Eastern Illinois because of a
strike of conductors and brakemen. They
insist on three brakemen for the C. and E.
I., where only two are employed.

The growth of the Brotherhood of Loc-
omotive Firemen the last few months has
been the largest at any time in the history
of the organization. In the New England
States and on the Pacific coast the growth
has been most marked, new lodges
springing up at a number of prominent
railroad centers.

The gutlinite is falling, and the heads of
Michigan Central conductors are dropping
into the basket. James Brittain, of the
Bay City division, and Chas. Kelsey, of the
Machine division, have received their blue
envelopes and have cut off new buttons.
The reason given is "unsatisfactory ser-
vice." It is believed that spotters have
been at work, although it is asserted by
persons in a position to know that the re-
quest for increased salaries had
something to do with the discharges. More
are to follow.

Teeth extracted without pain. Conscience-
less retained during the entire opera-
