Hood's Sarsaparilla is Especially Adapted to Cure Difficulties Peculiar to the Sex

The restoring and invigorating properties of Hood's Sarsaparilla, combined with its power to vitalize and enrich the blood, render it peculiarly adapted for all troubles peculiar to women—that tired feeling, or debility caused by change of season, climate or life. Hood's Sarsaparilla has accomplished very gratifying results in many cases. Read the following:

Female Weakness
and tried many remedies and physicians, to no good purpose. One day I read one of the Hood's Sarsaparilla books, and thought I would try a bottle of the medicine. It made so great a difference in my condition that I took three bottles more and found myself perfectly well. I have also given

Hood's Sarsaparilla
to the children, and find that it keeps them in good health. I am willing that this shall be used for the benefit of others." Mrs. SARAH MUIR, 203 16th av., So. Minneapolis, Minn.

Collaps of the Nova Scotia Insurance Company—Business Ransacked the M. C. R. Depot at Alvinston.

In a letter to L'Esclapart Mr. Tarte concludes by saying: "Remember what I now tell you. Before two years have passed Wilfrid Laurier will be Prime Minister of Canada."

A writ has been issued on behalf of Mr. Geo. Rankin, the play writer, against McKee Rankin, the well-known actor, for \$10,000 for infringement of his right to the play, "The Canuck," or to get possession of the play.

So many companies withdrew from the Nova Scotia Insurance Association that the organization, which existed to keep up uniform rates, has collapsed, and the proposed increase of rates in insurance premiums has been abandoned.

The M. C. R. depot at Alvinston was broken into Tuesday night by burglars and the money drawer ransacked, but no cash was found. They also broke open a trunk belonging to Rev. Mr. Moore and took some clothing. No clue to the perpetrators.

A Montreal dispatch says there will be no Montreal and Chicago line of steamers this year at all. The proprietors of the boats that formerly ran between those places do not anticipate any World's Fair business and have placed their steamers on Lakes Erie and Superior.

Mr. Charlton, M.P., will speak next Sunday evening in St. Paul's Church, Ottawa, on "Sabbath observance in relation to national life."

Insurance Men in Council.

TORONTO, Ont., March 12.—At the annual meeting of the Mutual Fire Underwriters' Association of Ontario, the following officers were elected: President, John Beattie, Fergus, re-elected; first vice-president, Levi Stanfield, Waterloo; second vice-president, M. W. Cook, Cookville; secretary-treasurer, Hugh Black, Rockwood. Executive committee—Messrs. D. C. Macdonald, London; R. J. Doyle, Owen Sound; C. Packard, Stratford; Wm. Turnbull, Brantford; J. I. Hobson, Mosborough. A tabular statement of losses suffered by 50 companies during 1892 showed that about five-eighths of the losses were from incendiary and unknown causes. It was decided to ask the Government to appoint a commission to inquire into the cause of the loss and the remedy for the growing evil of losses from incendiary and unknown causes.

Relaxing.

In warm weather the muscles relax much more easily than in cold; hence in the treatment of sprains, soreness, stiffness at this time, St. Jacobs Oil does its best work. It never does bad work.

"By their fruits shall ye know them." This is an indisputable truism; its applicability has a wide range. The recent Norma cigar is the product of the H. McKay & Co.'s cigar factory. They speak volumes for the establishment in its quality, pure line of business. In these times of cheap cigars nothing so the finest of material used, and to a connoisseur are indispensable.

Very Suitable.

If you have a nice evening and want to get it nicely framed, you can get a nice white and silver, white and gold, or ivory frame put on it at a very low price by taking it to E. N. Hunt's, 190 Dundas street. To every cash purchaser of \$1 worth or more of goods he also presents a prize.

Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain. What it has done for you it will do for you.

Thirty-Four Japs Killed by an Avalanche.

Mr. Foster's Comments on the Franco-Canadian Treaty Creates Surprise—Strong Feeling Evoked by Prison Inspector Moylan's Report—Mr. Gladstone's Health.

An Awful Avalanche!

Thirty-four lives were lost by an avalanche of snow at Hyda, Japan, Feb. 15. Fire destroyed 220 houses, injuring three firemen at Yawatachow, Japan, Feb. 14.

Against Home Rule.

LONDON, March 12.—A special general assembly of the Presbyterian Church in Ireland, convened in Belfast, has passed unanimously resolutions condemning the Home Rule Bill.

Mr. Gladstone's Health.

LONDON, March 12.—After a long and careful examination of Mr. Gladstone today Sir Andrew Clarke allowed him to go down stairs to attend a small dinner party. Mr. Gladstone will go to the seaside for a few days to recuperate.

The Japs Can Come.

LONDON, March 12.—Heretofore passports have only been granted to Japanese subjects on condition that the applicants could show a definite prospect of earning a livelihood at the point of destination. The Government has changed these conditions, and passports will now be issued to both sexes without reserve, only a veto being put on those who contemplate going abroad for immoral purposes.

Mr. Moylan in Hot Water.

LONDON, March 12.—There was a crowded meeting in Exeter Hall yesterday on behalf of Dr. Bernardo's Homes. The report of Mr. Moylan, inspector of Canadian prisons, was again discussed. A statement was read from this gentleman in regard to his report, which alleged that criminals were shipped from Great Britain to Canada. No details were contained in the communication giving any specific instances of the alleged action of poor guardians in Great Britain in shipping criminals to the Dominion. A resolution was adopted regretting that Mr. Moylan refused to communicate the desired details, and protesting against the use of such language as was contained in his report on the Canadian penitentiaries.

Sir Charles Surprised.

LONDON, March 12.—Surprise exists here over the statement made by Hon. G. E. Foster in the Dominion House of Commons on Monday night that he would not assent to the House to ratify the French treaty this session of Parliament, as there were some points in the draft treaty which would require further consideration. Sir Chas. Tupper, who acted on behalf of the Dominion in negotiating the treaty, says he cannot understand the action of the Ottawa Ministry. He declared that every detail of the French treaty was before the Canadian Government when the authorized British plenipotentiaries signed it. The treaty, he said, was made in exact conformity with the Canadian Government's wishes, except the most favored nation clause stipulating that Canada should receive the same treatment in France with regard to the articles mentioned in the treaty as any other favored nation, while Canada was to extend like treatment to France in all articles.

Lady Greville Laughed At.

LONDON, March 12.—Lady Greville has once again been rendering herself the laughing stock of Mayfair by her extraordinary literary lucubrations. With a view of defending her sex from the recently made charges of extravagance in dress, she endeavored to turn the tables on mankind by accusing the latter of even still greater extravagance. She says that she knows a man who possesses "300 pairs of boots" and "30 hunting coats." She adds that "silk underclothing, umbrellas, the last new thing in walking sticks, perfumery and hair oils bring a man's bill up to quite a respectable amount. Lady Greville, who is a sister-in-law of the Hon. Jas. Greville, Nugent, now undergoing a sentence of penal servitude of twelve months for behaving himself in an improper manner in a railroad compartment, has been extremely unsuccessful in all her literary ventures until now, and has on several occasions exposed herself to charges of the grossest kind of plagiarism. This was especially the case with a play which she had performed last year in London, and which was merely the vulgar adaptation of one of the most unhealthful and displeasing of French novels.

Not Guilty.

BELLEVILLE, March 12.—The trial of Geo. A. Booth, charged with arson, was concluded this evening. Verdict, "Not guilty."

Shot His Mother.

ST. LOUIS, March 12.—Harland Murray, after a dispute with his wife last night, attempted to shoot her. The bullet, however, struck and killed his mother.

Big Blaze in Paris.

PARIS, Ont., March 12.—A fire broke out this morning totally destroying the carpet factory occupied by Wm. Tyler and owned by D. Shepherd. Total loss \$4,000. Newmarket High School Burned.

NEWMARKET, Ont., March 12.—Last night the high school here was completely destroyed by fire. The loss is estimated at about \$7,000, partly covered by insurance. Carnegie's New \$1,000,000 Machine.

HOMESTEAD, Pa., March 12.—The Carnegie Steel Company has ordered a new press for its armor plate works at this place, an enormous piece of machinery that will cost over \$1,000,000, from Wilworth & Co., of Manchester, England. It will be the largest piece of machinery of the kind in this country and perhaps in the world.

ATHLETICS.

The Newark Athletic Club has offered \$80,000 for the Corbett-Mitchell fight. In the pole-vaulting contest in Syracuse Wednesday, C. Fred Ackerman, of that city, vaulted ten feet, beating the world's indoor record, held by himself, by two inches.

The once famous California Athletic Club, the scene of so many celebrated pugilistic events, has assigned for the benefit of its creditors. No figures are given.

Dull Day in the Dominion House of Commons.

Particulars of Industries as Given in the Census.

The Predictions of the Opposition Fully Justified.

(Special Correspondence of the ADVERTISER by Telegraph.)

OTTAWA, March 12.—The House of Commons was as dull to-day as the most tired member of the press gallery could desire. There were long discussions on the projected Prince Edward Island tunnel and on Dr. Weldon's Anti-Bribery Bill.

The first returns to the motions for particulars of industries as given in the census were given, and fully justified the predictions of the Opposition as to the absurdity of the claims of the census in this particular.

Mr. Staire introduced a bill to amend the Act to Incorporate the Eastern Canada Savings and Loan Company.

Mr. Grieve, of North Perth, had two questions on the paper, one for a description of each of the 73 industrial establishments in St. Marys, returned in the census, the names of the manufacturers and the hands employed, and one calling for similar information as to the township of Mornington, and the village of Milverton. Mr. Foster in reply gave a statement which as the first sample of N. P. "industries" is worth reproducing:

Supposing, amid the bustle and hurry of these busy days, we were to forget to change our announcement regularly, who, think you, would be the loser— you or we? No doubt both of us. Our customers want to know what new things we have and our aim is to let them know.

Did we decide not to change for a while, you perhaps would never know that we have just opened up a large and really superb stock of FLANNEL-ETTES, most suitable for wear at this time of the year. They comprise a large variety of patterns. A very choice line is being offered at 12½¢, which will doubtless soon clear the line out. See them early.

Our show windows present a very attractive appearance and much attention is being paid them. The stock of Spring Millinery is not yet quite complete, but it is rapidly assuming proportions that warrant us to say that there is already sufficient in it to please almost everyone.

New PRINTS are also now upon our counters. They are very attractive. The shades and patterns are exquisite. There will be some pretty dresses in London this summer. Great care has been exercised in the selection of these Prints, and as they are unpacked we rejoice that our aim to please has been achieved. When you see them you will also rejoice.

See our Heptonette Waterproofs. The most fashionable, best and most comfortable waterproof made. They fit to perfection. Ladies' and Children's sizes. Cannot be bought elsewhere in London. We have the exclusive agency.

After recess Mr. Weldon moved the House into committee on his bill to punish bribe-takers at elections. In committee Mr. Jeanotte (Conservative) disclaimed the statement attributed to him by the English press on the last occasion when this bill was in committee, to the effect that it was customary to carry elections by bribery. He himself having been elected by acclamation, could have had no such experience. It might be stated here that the Hansard daily edition shows Mr. Jeanotte as having added when describing the bribery used at elections, "I have done it myself, and who has not?" In the revised Hansard Mr. Jeanotte struck out this indiscreet sentence, showing that he was well reported instead of misreported. On the first clause there were votes of "lost" and "carried," and a vote was taken, 55 voting in favor of it and 27 against. There was a great deal of discussion on the bill in a very short time. A great many members declared in opposition to the principle of the bill, but opposed to some of its provisions. After reaching clause 5 the committee rose, reported progress and asked leave to sit again. It is doubtful if it will pass this session. The House adjourned near midnight. The debate on the McCarthy amendment will be resumed to-morrow and go on to a division.

OTTAWA, March 12.—At the assizes this morning, John R. Arnoldi, ex-chief mechanical engineer of the Department of Public Works, known as "Brass Dog" Arnoldi, was sentenced by Justice Falconbridge to six months in jail and to pay a fine of \$1,000. His offense was malfeasance of office.

At a meeting of the agricultural committee this morning, on motion of Mr. Carpenter, it was decided to recommend the Government to grant \$200 to four cheese factories in each constituency whose proprietors convert them into butter-making establishments in winter.

At the committee on banking and commerce this morning the bill authorizing an amalgamation of all the sugar refineries in the Maritime Provinces was again considered and again strongly opposed by both Conservatives and Liberals. Mr. McKay, of Hamilton, declared that we suffered from combines too much already and opposed the authorizing another. Mr. Boyle, of Monck, thought the mutterings of discontent against the N. P. were largely due to the combines formed under it. Mr. Lisler led the opposition to the measure and finally succeeded on a vote in having the bill thrown out by 24 to 17.

Notes.

The private bills committee of the Commons passed the Marthe Ballantyne divorce bill this morning.

The divorce case of James Balfour, which had been referred to this committee, was also passed.

Shall London Have a New Y. M. C. A. Building.

The directors of the Y. M. C. A. have been for some time turning over various plans to the directors of the work among the young men of the city.

To begin with, at no previous time has the Y. M. C. A. ever enjoyed more of the confidence of the general public, largely owing, no doubt, to the excellent judgment and personal qualities of the secretary, Mr. C. B. Sayer. At no previous time have the pastors and workers of the various churches been more in sympathy with the aims and methods of the Association. During no previous two or three years have the Association rooms been more manifestly the common rallying ground for united Christian workers.

It is impossible to over-estimate the importance of surrounding our young men with the best influences along lines touching their physical, mental and moral development. Take the one field of Christian Athletics, if the phrase may be used—that is, affording young men the advantages of the gymnasium separated from all pernicious influences. For the ideal of the Y. M. C. A. now strongly in the ascendant is not mere goody
