WALL STREET MARKET ACTIVE AND STRONG

Numerous Substantial Advances Were Made in Early Trading Today.

By STUART P. WEST. Special to The Advertiser. Wall Street, New York, Feb. 21.-The Allied market continued active and strong

through the early trading today. There were numerous substantial advances in special issues.

The newly listed stock of Fleischmann The newly listed stock of Fleischmann & Company crossed 40 on heavy trading. Buying was based on earnings rather than on dividends, because when the stock was brought out a dividend of \$2 was declared for the year ahead.

L. and N. had another remarkable tump to above 50, and Atlantic Coast Line, as the majority owner, was drawn along sympathetically. Gulf Mobile and Northern preferred was another rail that advanced sharply, this in anticipation of the beginning of dividends and perhaps some payment on back dividend accounts.

Associated Dry Goods finally re-

Associated Dry Goods finally responded to the estimates that the annual report would show at least \$14 a share earned. Jewel Tea was another specialty which passed its previous high for the year, and Iron Products was still another.

The sugar group, after nearly a week of realizing, began to move forward again, and rubber and tire shares were taken up in expectation of an early advance in tire prices.

Trading Was Less Buoyant, TWENTY LOADS OF HAY But Undertone Still Continues Strong.

Reported for The Advertiser by Johnston & Ward. Montreal, Feb. 21—Noon.—There was less buoyancy and fewer changes in the first part of today's session, but the first part of the undertone of the market would indicate that trading has entered into a resting period, following upon the great activity in the past few days. The conservative element on the street is more pleased with the performance of the market this way than if an extravagant rise had developed. The outstanding feature of the trading was Montreal Power, with a new high record price of 110½. Brazilian Traction was again by far the most active stock on the list, but the price level is not greatly altered. The other public utilities were featureless. Howard Smith preferred was the strongest pulp and paper issue, advancing to a new high level at 194. Steels were dull.

Dominion Textile was the most active stock in its group, and gained a fraction from the opening. less buoyancy and fewer changes in

Everything the Farmer Trades In

Winnipeg, Feb. 20.—The market was howing a weaker tendency today, in he face of continued stagnant export temand and lower cables. Trading in wheat trading was very dull, prices noving within a narrow range and losing 1/40 kower for May and 1/40 down or July. DELIVERED IN LONDON Demand Continues Steady With

Demand Continues Steady With Sales Averaging From \$12 to \$14 Per Ton.

The deliveries of hay at the local market continue to be heavy. The total receipts for the first two days of the week were 40 loads, and this morning 20 more were offered for sale. Previous to last week's storms there had been many loads sold here, and the demand showed quite a falling off. There were hardly any receipts after the roads blocked up, but the farmers seem to be anxious now to get their supplies to the market. The prices remain at the level quoted for the first few days, \$12 to \$14 per ton. At noon there were not many loads left unsold. Half a dozen loads of wood were remains steady at the usual prices, \$4 to \$6 a cord.

There was a much heavier shipment of oats than has been the case in some time. Ten loads came in, and they were all disposed of before 12 o'clock at prices ranging from \$1.48 to \$1.55 per cwt. The demand is good at the present time.

There was no wheat offered, though a shipment now would meet with quick sale.

There is a good inquiry for all the green stuff displayed, and the prices are firm. As Wednesday is not a regular market day, all the business in this line was conducted by local dealers. When the people from the outside district are able to get to the city, the prices in this department will likely become easier.
