Costs City \$7,000 Annually in Tim Buck Denies Hidden Leaks in Supply

SOLUTION SUGGESTED

Examination of All Underground Mains May Be Made.

London loses 300,000 gallons of water daily. After it has been pumped into waterworks mains at Springbank it just runs away and loses itself and costs the city \$7,000 an-

ties manager, told the P. U. C. at yesterday's session, and the commissioners advised investigation into the worth of a complete survey of the system of mains. An offer came from an outside firm to chart London's underground world, spot the deaks and advise methods of stopping wastage. Commissioners balked a bit at the thought of coughing up \$7,000 but dealers. wastage. Commissioners balked a bit at the thought of coughing up \$7,000, but decided to at least look into the prospects.

According to the utilities manager a third of the water that is pumped

a third of the water that is pumped into the city mains never reaches domestic or industrial consumers. It is lost through scores of leaks that break into the system from time to time, and can be discovered with much difficulty. Sometimes a leak functions for months, possibly years, before it is discovered.

Lendon is not the only city afflicted by leakage of water mains. Other

London is not the only city afflicted by leakage of water mains, Other cities have a wastage of from 30 to demand by the travelling public demand by the travelling public makes possible a wave of prosperity within its gates.

On the other hand, the city which sits idly by and neglects to provide adequate and modern hotel accommowants wasting 125,000 gallons of water a decimal to attract this ever-moving. Haward the community which invites this demand by the travelling public makes possible a wave of prosperity within its gates.

On the other hand, the city which sits idly by and neglects to provide adequate and modern hotel accommodation. In

A platform ladder truck will likely be purchased to assist in wiring work of the hydro department. It will cost \$3,000.

Petition of the city council for 20 new fire hydrants was endorsed, with reservations. The commission passed on 17 hydrants and turned back of three. These would be situated in out-of-the-way places, where much out-of-the-way places, where much of extended mains, from 300 to 700 of extended mains, from 300 to 700 and a sum of the hotel at which they are entertained is a modern one, as we have come to know it today. These same visitors can, and three town unannounced, perhaps, and if the hotel at which they are entertained is a modern one, as we have come to know it today. MODERN HOTEL AN ASSET TO CITY

Has Great Influence Upon the Minds of Visitors.

London may spend thousands of dollars in newspaper, magazine, billboard, street car or direct by mail advertising and then through the lack of adequate hotel accommodation lose much of the value of that publicity, by causing an unfavorable opinion in the mind of some inthe trades and labor congress, this morning rose in the convention to deny a statement made by Hon. James Murdock, minister of labor, at a social gathering of the delegates, which was to the effect that "there's not much wrong with fluential visitor. A modern hotel focuses favorable comment upon the community in which it is located. Recount, if you will, your own visits to cities maintaining better hotel accommodations. Are not your impressions far more favorable than trades and labor congress led by those in which their hotels are no

longer modern? Which city would you consider more favorably? automobile is revolutionizing the hotel industry-and the automobile is admittedly still in its infancy. It brings to London's gates thousands of visitors in the course of a year and each visitor during his stay will spend money in London, not alone for hotel accommodations, but for gift-

things for distant friends. Conventions. A city reasonably located and with Visitors.

Today, with the extensive railway ravel and the countless miles of prothree days, during which he spends not less than \$10 per day for hotels and entertainment, it is easy to figure the great revenue available from this one source alone.

Has London a real social and com-munity center? With a modern hotel at your beck and call, you've a place in which to entertain the most distinguished visitor. You've a gathering place where men and women of every walk of life may gather and mix to the general welfare of your

Arrangements Under Way For Jewish New Year Here

An event of extraordinary importance to Jewish London will be the visit of Cantor M. Weis-dorf, of Toronto, for the New Year's convices on September 18 Year's services on September 18, and for the day of atonement, September 28. He will sing for these two religious days at all services in Benai Israel syna-gogue, corner of Grey and Wel-

lington streets.

Cantor Weisdorf, though only 22 years old, has already won international distinction as a lyric enor. He was born in Lemberg, the great masters of Europe. Prior to coming to America he was a pupil of Cantor Darskin. was a pupil of Cantor Datskin, of Odessa, Russia. He is halled by critics everywhere as the most promising of the younger genera-tion of singers. A voice of such purity and power comes only once in a generation, says one. Cantor Weisdorf will be the highest paid Jewish singer to have ever visited London.

Max Grafstien of the London Silk and Wool Shop is a cousin of Cantor Weisdorf, and it is under his direction that he comes.
