SAN FRANCISCO REFORM

San Francisco, may 18.—Notwith the state of the cities ment about the scope and power of the committee of seven, it is now generally conceded that the administration of municipal affairs here is to some extent at least in its hands. In a written agreement mayor Schmitz has today at his home here.

B. C. TOBACCO IS

bound himself, it is said, to carry out any request which this committee makes upon the representations of five leading commercial organizations may make to him. The committee already has begun an investigation into the police department, and will gradually extend the scope of its actions to the works board, street department and other branches of city government. Its purpose is to make a thorough enquiry into conditions that exist in the various branches of the city government, and to make such changes in personnel and to make such changes in personnel and to only the conditions in the case of the city government and to make such changes in personnel and to only the conditions that exist in the various branches of the city government, and to make such changes in personnel and to only the conditions that exist in the various branches of the city government, and to make such changes in personnel and the conditions that exist in the various branches of the city government, and to make a chorough enquiry into conditions that exist in the various branches of the city government, and to make a chorough enquiry into conditions that exist in the various branches of the city government, and to make a chorough enquiry into conditions that exist in the various branches of the city government, and to make a chorough enquiry into conditions that exist in the various branches of the city government. Authorities Will Keep Sentence in Suspension in Meantime

PENITENTIARY IN THE FUTU

San Francisco, May 17.—The exam ination of Abraham Ruef before the grand jury was resumed today. He was further questioned as to the alyesterday, that \$200,000 was paid by that corporation for the purpose of electrifying the street railway system. He refused to forecast the information he will impart. Mr. Matzen, of his counsel, says the mayor will appear for trial in Judge Dunne's department of the superior court next Monday.

appear for trial in Judge Dunne's department of the superior court next Monday.

The understanding is that the carrying out of the sentence to be imposed upon Abraham Ruef, two weeks hence, by Judge Dunne, will be indefinitely suspended in order that when he takes the stand in court against "those high up" his testimony shall not be that of a convict.

Detective Burns is authority for the statement that it is the purpose of the prosecution to send Ruef eventually to San Quentin penitentary, but the trial of corporation officials who have been indicted and others who have been indicted and others who have not yet been formally charged, will, it is thought, take so long that Ruef's incarceration will be delayed at least a year. No move has been made for his admittance to ball. It is said that he prefers to remain in the custody of Elisor Biggy.

The Call today says "From this time forward Eugene Schmitz will be mayor of San Francisco only in name. He has relinquished the reins of government to a committee of seven, representing the five great commercial organizations of the city. Beginning with today the city will be under the control of men whom the mayor selected to administer the city's affairs on the lines demanded by the public. The capitulation of the mayor is now complete. He has transferred in writing the authority, tantamount to a power of attorney, to F. B. Anderson, F. W. Dohermann, Percy T. Morgan, F. W. Vansickie, Louis Rosenfeld, C. H. Bentley and Charles W. Slack.

LOCAL MARKETS

There are no important changes in the local market quotations. The only event of interest during the past few days is the disappearance of strawberries. One or two consignments were received from California and found a ready sale. The crop of that state however, is over, it being impossible to bring the fruit from there to Victoria in good condition. The berries of the Hood River, Oregon, have not yet started to come in. Therefore it is what might be term-
