Tiredness Comes in the Spring

What are You Doing to Overcome It? The cold of winter exhausts vitality and exposes everyone to disease. Spring is sure to bring tiredness and languor that will not go.

Spring sickness doesn't cure itself—the cause is in the blood, and that cause must be remedied. It is easily done with Ferrozene, a marvelous remedy that purifies the blood and expels those humors and poisons that depress and weaken.

Just think of it—Ferrozene uplifts the entire nervous system, renews the blood, makes it rich and red—gives the sort of aid that's needed in throwing off weakness and spring laggon.

Tens of thousands enjoy the advantages of renewed health through Ferrozene;—if you'll only use it, you'll surely grow strong too; it's beneficial action is noticed even in a week,—you see it goes right to work, removes the causes of the trouble and then quickly makes a cure.

For those who sleep poorly and have nervous apprehensions, Ferrozene is a boon; it is a specialist in such cases. Where there is paleness, poor appetite and languor, Ferrozene makes the patient feel like new in a few days.

In tiredness, nerve exhaustion, spring fever and debility, the power of Ferrozene is known from coast to coast and universally used with grand results. Let Ferrozene build you up, let it win you back to robust health,—it will do so quickly if you give it the chance. Sold by all dealers, 50c. per box or six boxes for \$2.50. Remember the name FERROZENE.

Social Rank.

At a country dance in a Southern town, when the fiddlers had resigned their bows and taken their places on the platform, the floor manager rose. "Git yo' partners for a cotillion! he shouted imperiously.

"All you ladies an' gemmen dat wears shoes an' stockings take yo' places in de middle ob de room. All you ladies an' gemmen dat wears shoes and no stockings take yo' places immejitly behin' dem. An you barefooted crowd you jes jig it rou'n' in de corners.

Groom 90; Bride 74.

Parkhill, July 10.—A very interesting marriage took place here when Mr. Henry Hagerman, aged ninety years, and for a generation a resident of the town, was wedded to Mrs. Rumoch, aged 74 years. The ceremony was performed by Rev. James Allin, and the couple were the subjects of hearty congratulations from their many friends.

Mr. and Mrs. Hagerman have been long and actively connected with the Methodist church in this place and he has large families, extending into three and four generations. They are hale and hearty and may live for years to enjoy their newly formed association.

When Children are Sick.

They eat something that disagrees, catch cold, have cramps or colic. If there is pain just apply Nerviline,—it's good to rub on and for the inside it's most comforting. Effective and pleasant, you can't find a household panacea to equal Polson's Nerviline. Used with satisfaction for half a century and in better demand every day because it does stop pain, ease suffering and cure the thousand and one ills that constantly arise in the family. Large bottles at all dealers for 25c.

Strychnine In Butter.

Kingston, July 11.—The family of George Lee, living near Yarker, had a narrow escape from death by strychnine poisoning. Mr. Lee had placed in the cellar a pound of butter well dosed with strychnine to kill rats. By mistake it was used on the table, and all the family were poisoned. Medical aid was secured in time to relieve them.

They all Failed.

Many have tried to devise a corn cure equal to Putnam's, but after fifty years nothing has come upon the market that so painlessly cures corns and warts. Don't experiment, use the best, and that's "Putnam's."

Hot Weather Advice.

Wear the thickest and warmest clothes you can get during the day. Some folks claim that these keep the heat out. At any rate, you feel much relieved at night after you have removed them. Do not eat indordinately unless that is the only way you can satisfy your appetite. A sure way to avoid sunstroke is to die the previous winter.—Chicago News.

LOCAL OR OTHERWISE.

STATUTE labor has been abolished in 89 townships in the Province, and, it is said, with good results.

DURING the last ten years the insurance business has increased enormously, and since 1890 the amount of insurance of all kinds has nearly doubled.

THE boy or girl whose name is missing from the list of school promotions should not be discouraged. Some of the world's greatest geniuses were always at the foot of the class.

THE Ontario Medical Council has placed itself on record as strongly desirous that hygiene and temperance should be subjects of instruction in Ontario public schools and will so advise the minister of education.

EFFORTS to prove the identification of the unknown woman found in St. Clair river a few days ago have been unavailing as yet, and it is not thought that the woman's name or the circumstances of the drowning will ever be known.

AN Enniskillen farmer was taking a hog to the railway station for shipment and turned a dry goods box over it in the wagon. On arriving at the station the hog was found to be smothered and died shortly afterwards. The day was excessively sultry.

DID you ever stop to recollect that it is one thing to talk about people and another thing to have people talk about you? If those of us who use our tongues a little too freely about our neighbors, would stop and reflect on this matter and realize the great evil that comes from too much gossip we are sure we would call a halt and gossip no more.

Nothing looks more ugly than to see a person whose hands are covered over with warts. Why have these disfigurements on your person when a sure remover of all warts, corns, etc., can be found in Holloways Corn Cure.

THE number of deaths reported to the provincial board of health in May is thirty-nine in the excess in the corresponding month of 1906, and seventy-seven in excess of May, 1905, of the deaths from all causes. The contagious group shows an increase in the case of smallpox, scarletina, diphtheria, measles and typhoid, with a falling off in whooping cough and consumption.

THE new law for the inspection of meats, fish and canned goods will not come into force until Sept. 3, a month later than was first announced. The reason given for the delay is that much preliminary work will have to be done before the Government will be ready to adequately enforce the law. This is significant as indicating that determination of the Government that the law shall be enforced.

THE statute says that the pedestrian has some right—in fact, first right—on the highway, but if this motion lingers with any a visit to some large business centre, such as Montreal or Toronto, will dispel the delusion. The pedestrians right to walk on the earth is fast passing, if it has not already passed, into a tradition. His business on the highway consists principally in dodging every kind of vehicle in use.

A SUCCESSFUL MEDICINE.—Everyone wishes to be successful in any undertaking in which he may engage. It is therefore, extremely gratifying to the proprietors of Parmelee's Vegetable Pills to know that their efforts to compound a medicine which would prove a blessing to mankind have been successful beyond their expectations. The endorsement of these Pills by the public is a guarantee that a pill has been produced which will fulfill everything claimed for it.

A MAGNIFICENT Atlas of Canada has been issued by the department of the interior at Ottawa. It is by far the best and most complete work of its kind ever published in this country, containing, as it does, in addition to excellent maps, numerous colored diagrams which convey at a glance statistical information, about the Dominion drawn from the last census and compared with the figures from previous census. In no other work can one get so much information in compact form about the material development of our country.

THE editor's waste paper basket would not be so liberally fed if correspondents would bear in mind that articles and items of news can find no place in the newspapers if unaccompanied by the name of the writer. As keen as we are to get information, it is absolutely necessary that we have assurance it is reliable and the best assurance of that the person furnishing the information is willing to endorse it with his signature. Names of writers are never divulged by the editor unless the information proves to be false or is furnished with a malicious intent. So often there are people ready to cast a slur at another through the press that the most innocent looking news item may contain a sharp sting. It is to guard against this that we have to insist on your name being attached to every communication if it is only to say that John Jones spent a day in London.

WILSON'S FLY PADS Kill them all. No dead flies lying about when used as directed. DRUGGISTS, GROCERS AND GENERAL STORES 10c. per packet, or 3 packets for 25c. will last a whole season.

DAIRY SUPPLIES
