Canada's Deal Farmers are Getting

Back in 1921 we sold them states agricultural products to the value of \$100,000,000 per year based on the U.S. Tariff of 1922. Under that tariff we sold them only \$51,337,724.

By raising their tariff to 100% we are giving the Canadian farmers a "host" of benefits.

What is the lesson to be learned from this? On what terms is the farmer of the United States only forbid the sale of his products to the farm products replacing his own in Canada. Let us examine some of these terms.

Articles	U.S. Tariff	Quantity or Value	U.S. Tariff	Quantity or Value
Wool	Free	\$14,970,944	1 1/2 to 2c. per lb.	\$2,897,753
Woolen goods	Free	769,060	3c. per lb.	611,529

Woolen cloth	Free	2,822,129	15c. per 32 lbs.	389,280

And now a great reduction has been made by the Canadian-Australian Treaty which just went into effect on October 1st, 1925. Under this treaty Australian (and New Zealand) farm products will enter Canada at the following tariffs.

PRODUCTS	For Entrance into Canada the Australians pay:	For Entrance into Australia the Canadians pay:
Eggs, per doz.	Free	18 cts.

Canned Fruits	1/2 ct. per lb.	30 cts. to \$2.10 per doz. cans, according to size

The United States raised their tariff, in order to protect the American Farmers, and the purchasing of foreign farm products was reduced. It was, therefore, to the American Farmer's benefit.

And we prove it. In the next column we list a few Canadian products imported by the United States under the 1921 tariff and under the raised tariff of September 21st, 1922. These figures are quoted from the "Commercial Intelligence Journal" published by Ottawa Government (26th September, 1925, page 324).

Canada will be flooded with farm products from other countries at these low rates, but Canadian farm products are shut out of other countries by high tariffs. Meanwhile half a million Canadians have moved to the United States because of the tariff reductions that have closed up or slowed down hundreds of factories. That is, half a million buyers of Canadian farm products have been lost. The farmers are hit twice.
