

only breeder we could ever find there. Now there appear to be dozens, all of whom we regret time did not permit of our visiting.

MR. J. WILKIE,

has three pens of silver Pheasants and has been very successful in breeding this handsome bird, having several of this year's chicks in his yards. With the golden he could do nothing, the cock being literally "an inveterate lady-killer."

MR. J. L. MARGACH,

succumbed to the fever when well up in years and is now as bad as the rest of the "boys." His yards are extensive and well shaded. His stock both at the home runs and at walk is large and consists of silver Wyandottes and brown Leghorns, both of good quality and well bred.

MR. JOSEPH COOPER,

has golden Wyandottes only and chicks at that. They look well, strong and healthy.

MR. W. RAY,

has nothing but the golds, a large flock both of old and young, of his own breeding and imported.

MR. J. BAULCH

is Mr. Massie's next door neighbor and so must needs be a pigeon man. He breeds Trumpeters exclusively in all colors and has the largest and best loft of this variety we have ever seen in Canada. His birds are mostly Rommels and Williams strains and a few direct from the "ould sod." It may not be known to our readers that Coleraine in Ireland is the headquarters for the "Roosians," but such is the case. Mr. Baulch has whites, blacks and duns and mottles and spashes of these colors. A grand pair of whites at once attracted our attention.

MR. W. L. GLIDDEN,

has some very fair Pouters but he being absent we did not see them at their best.

MR. E. J. BAIRD,

is a devotee of the Jacobin and has several really good birds of this variety, though his seasons operations in the breeding loft have not been as good as could be wished. A black cock full of feather and sound in color, but with a black feather or two in tail caught our eye, also one or two grand reds.

MR. C. MASSIE

has Jacobins and white Fantails in abundance, though not too many for the extent of his lofts, and as usual with him,

PLYMOUTH ROCK COCK, "NEW YORK CHAMPION'S SON."
Score 94½. Owned by Bradley Bros., Lee, Mass.

has raised a large percentage of good birds. Mr. Massie breeds his birds and takes a pleasure in it. He does not buy to show, and from our personal knowledge of him for now some twelve years, we can fairly say that his birds each year show an improvement on the birds of the previous year. Though badly in moult his stock looked in nice condition, clean and hardy. He owns one of the nicest Fan cocks we have seen, a stylish bird with a good full spread well carried and circular. His Jacks in all colors are really fine. Among other fanciers we would like to have visited were Mr. W. Langdon, who breeds Indian Game and white Wyandottes, and Mr. F. H. Brown, who goes in for golden Wyandottes and Red Caps. Mr. G. H. Buckle is another pigeon breeder, Pouters and Jacobins being his hobby.

WAGNER BUYS AGAIN.

In addition to the purchases mentioned elsewhere Mr. C. F. Wagner has added to his yards the winning white Minorca chicks at Toronto; the grand pair buff Leghorns winners of two firsts at Toronto, the second prize cock-erel and several good black Wyandottes, amongst which are also some Toronto winners.
