For the many kindly words of encouragement we tender hearty thanks. From among them we select a few, beginning with the rising sun and following him Westward.

*From Rev. Dr. Macgregor, Halifax, Agent of the Church, Eastern Section:*

"I have received to-day THE CHILDREN'S RECORD. I am highly pleased with it and wish the effort success."

*From Rev. Principal McKnight, D. D., Presbyterian College, Halifax:*

"I am very much pleased with THE CHILDREN'S RECORD. The articles are interesting and instructive, without being childish. The get up, too, is excellent—good paper and print, monthly, for 15c. a year! I wish you a large circulation, as a means of widening and deepening the interest of our people in the Missionary cause."

*From Rev. Dr. Burns, Halifax:*

"THE CHILDREN'S RECORD is packed with good, useful Missionary reading for children. The original matter and the selections richly deserve a careful perusal. They are not fictions, but facts, of real practical value, and of more thrilling interest than attaches to the sensational literature of which our young folks are becoming too fond. It would be a great

blessing if they could be induced to read from beginning to end such a monthly as this. It would supply them with new thoughts and nobler aspirations, increase the amount of our Sunday School collections for Missions, and perhaps, by God's grace, induce some to devote themselves to the work."

*From Rev. Principal McVicar, D. D., Presbyterian College, Montreal:*

"No one who has the prosperity of our church work at heart can doubt the usefulness of your undertaking. Children as well as their seniors and parents should be kept fully informed as to our missionary and other operations. If you can accomplish this, as I trust you may in some good degree, and supply other useful and attractive reading for young and old you will confer lasting benefits on the cause of Christianity. I wish you abundant success."

*From Rev. Dr. Moore, Ottawa:*

"I like the get up of THE CHILDREN'S RECORD very much, and will at once recommend it to the notice of the Superintendent of our Sabbath School."

*From Rev. Principal Grant, D. D., Queen's College, Kingston:*

"I sympathize with your aim of bringing the children of the church into the closest possible relation with our Missionaries, and I think that THE CHILDREN'S RECORD, of which I have received the first copy, will be a means to that end. I trust that the enterprise may succeed far and wide."

*From Rev. Dr. Cochrane, Brantford:*

"THE CHILDREN'S RECORD promises to be a most useful and interesting medium for conveying Missionary intelligence to the younger members of our church. The contents of the first number are so varied, that teachers can find in it matter equally adapted to the younger as well as the older children in their classes, while in every Christian home, where it has once been introduced, it will be a welcome visitor. I trust that it may be largely circulated in our Sabbath Schools."
