

If you're trying to make money you'd best invest in a Spramotor

It doesn't matter what your spraying needs may be, there's a Spramotor **specially built** for your purposes—a machine that will do **more and better** work than any other spraying outfit in its class—a machine that will give you **endless satisfaction**, because it is **built to endure**.

Hundreds of farmers have proven the H. P. Spramotor (see cut) to be a very profitable investment. The horse does everything but direct the nozzles. This machine can be operated by hand where preferred. Has 8 nozzles that cannot clog—the number can be arranged to suit requirements.

PRICES range from \$6.00 to \$350.00. Equally effective for vineyards, row crops or grain work.

State requirements and we will forward interesting facts without placing you under obligation to buy.

SPRAMOTOR COMPANY

London, Ontario

A NEW PAYING WRINKLE IN SILO BUILDING

In building a 30-ft. cement silo the last 10 ft. or so handling heavy concrete at a considerable height and under unfavorable conditions requires skilled labor and costs more in time and trouble than the rest of the job put together.

Cut down building expenses and save yourself this hard work by using Waterous Steel Silo Plate in place of concrete at the top of your silo.

Waterous Steel Silo

Plate is shipped to you rolled, punched, and marked for quick erection. Sheets are 4 ft. high and are rolled to 10, 12 and 14 ft. diameters. The Plate is light, readily handled and easily assembled. You and your own help can put it up in a few hours.

Waterous Steel Silo Plate is durable. It is storm, shrinkage and frost proof, and is made absolutely to standard size so that you can add a course at any time.

Prices are exceptionally reasonable—the plate for a 12-ft. section will cost you no more than will cement and gravel alone for the same amount of concrete work.

Before building that Silo remember the new wrinkle in silo building, and ask for prices on Waterous Steel Silo Plate.
