

To Recognize Purity.

Adulteration has grown to such a fine art, that it is almost impossible for a woman now-a-days to detect the false from the true; but a chemical analysis will always detect adulteration. Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, after a number of analyses, reports that "Sunlight Soap is a pure and well-made soap. Try Sunlight Soap before you buy. Next wash day, and you will see that Prof. Ellis is right. No one should know better than he."

A GLEN SONG.

There's a green glen in Eirinn, A green glen in Eirinn Do you remember yet a gradh, The sunshine of that day, How the river ran before us, and the fleckless blue hung o'er us, And against the purple heather gleamed the yellow hay?

There's a green glen in Eirinn, A green glen in Eirinn! Where on a dew-wet springing spray brown throats trilled above, And the blackbirds carolled after in a silver rain of laughter, And the little linnet piped its song that has no theme but "Love."

There's a green glen in Eirinn, A green glen in Eirinn! Was sweet with you beside me in a world of harvest gold, The saligns made a shadow in a corner of the meadow, And your eyes were wells of kindness and my hand lay in your hold.

There's a green glen in Eirinn, A green glen in Eirinn! The voice of Spring comes on the winds like cuckoo calling clear; She bids us fare together, nor heed the fitful weather, And seeks in yon green glen the joy that waits our hearts, my dear. ETHNA CARBERY.

HONOR TO PETERBOROUGH.

Rev. Dr. O'Brien, Spiritual Adviser of the Peterborough T. A. S., has been attending at Dubuque, Iowa, the convention of the C. T. A. U. Fully 1,000 delegates were in attendance. Temperance people in Peterborough were delighted to receive information through a despatch from Dubuque stating that the Total Abstinence Society of Peterborough had won the banner given to the society making the largest increase in membership during the year. The majority was 600. Rev. Dr. O'Brien, of the cathedral, and spiritual adviser of the local society, has worked enthusiastically in its interests and to him is due largely the increase of membership last year by 1,375.

ONE OF CURRAN'S WITTICISMS.

Curran, says a writer in The Green Flag, once had as colleague in a case a remarkably tall and slender man who had originally intended to take a case. When the Judge observed that the case involved a question of co-accusatorial law, Curran said: "I can offer your lordship to the high authority behind me, who was once indicted for the church, though in my opinion he is fitter for the steeple."

Stomach and Liver Troubles

Indigestion and Severe Headaches Resulting from a Stagnant Liver

Dr. Chase's Kidney-Liver Pills

The liver is responsible for more ills and suffering than is generally supposed. Once the workings of the liver are disordered the blood is not properly filtered, and foul impurities are lodged in all parts of the system. Much of the success of Dr. Chase's Kidney-Liver Pills is due to the fact that they act directly on the kidneys, liver and bowels, making them active and regular.

Mr. B. Knowles, broommaker, 588 Main street, St. John, N. J., writes: "For years I suffered from kidney and liver disorders. I had severe pains in the back, and they caught me especially when I stooped over. I was also troubled with indigestion and severe headaches. "I began using Dr. Chase's Kidney-Liver Pills and cannot speak too highly of this medicine. It has done me a world of good. The back pains and headaches have been entirely cured, and my digestion is good." "Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all druggists, or Edmanross, Bates and Co.,

OBITUARY

MRS. MARY SCOTT.

There passed away at the ripe age of 75 years, Mrs. Mary Scott, who departed this life at the homestead in Maryborough Township on Friday last, August 8. Deceased came from the County Clare, Ireland, with her husband over 50 years ago and nearly all that time resided in the above township. Her death was the result of a paralytic stroke. She is survived by six children, three sons and three daughters. One son and two daughters reside in the United States, Michael, who lives at the homestead, a daughter married in Maryborough, and John, who lives at Macdon. Her husband predeceased her twenty-six years ago. The funeral took place on Monday, at St. Joseph's Church, Macdon, where Mass was celebrated by Rev. Father Lehmann. The remains were then laid to rest in the grave.

DEATH OF MR. JOHN McCULLEN.

One after another the older generation of Irishmen at Quebec are passing from the earthly stage of life to that bourne beyond the grave. A few months ago the sad news flashed from the "Ancient Capital" that Edward Cream, for more than forty years a conductor on the G. T. R. between Richmond and Quebec, and latterly in charge of the Immigration Agency at Point Levis, was no more. Again the painful intelligence reaches us that Mr. Jeffrey Roe, a master cooper of that city, and a man always warmly identified with every Irish and Catholic movement therein, had passed to his reward, and now the painful duty is imposed upon us of chronicling the demise of Mr. John McCullen, which occurred on the 31st ult., at 138 Artillery street, at the patriarchal age of 88 years. Mr. McCullen was a native of the County of Carlow, Ireland, which place he left half a century ago just as the stream of emigration from Ireland had seized the people of that country with a panic. Coming straight to Quebec he remained in that city ever since, where he was well known and highly respected. Mr. McCullen leaves a large family, of which two sons, Hugh and Edward, are engaged in the boot and shoe business, and a daughter is the wife of Mr. John Hanlon of the Statistical Branch of the Customs Department at Ottawa.

A WIDELY-KNOWN FRENCH-CANADIAN DEAD.

The death occurred at his summer residence at Mountain View, N. Y., of Dr. J. A. S. Brunelle, C. M., of 698 Sherbrooke street, Montreal. Born at St. Hyacinthe in 1852, Dr. Brunelle was one of the most prominent French-Canadian physicians in the City of Montreal and had been for twenty-seven years a visiting physician at the Hotel Dieu Hospital. For a number of years past he was professor of surgery in the medical faculty of Laval University and by his great devotion to the university did much towards making the staff of the medical faculty one of the strongest in Canada.

BAPTISTS' OPINION OF US.

(From The Sacred Heart Review.) The Watchman (Baptist) "regrets to say" that some Protestants in America, when discussing the missionary opportunity offered by the Philippines, have used language that might imply that "they regarded the establishment of American sovereignty as a Protestant triumph." We are glad to see our esteemed contemporary deprecating that misguided zeal which has been so prominent a feature of Protestant utterance since the Spanish war. Another editorial opinion to be found in the same issue of The Watchman is not quite so much to the point. It is, in fact, incorrect. Here it is: "No daily paper or journal which expects any circulation among its adherents ventures to print anything derogatory to the Roman Church, under penalty of losing the patronage of Roman Catholics. While Protestants continue to patronize papers and often reflect sharply on their churches, Romanists, as many publishers have learned, will not do so."

We heartily wish that Catholics could be credited with the loyalty and solidarity which is implied in the above extract. We know it to be only too true, however, that the average Catholic keeps on buying papers which continually contain ignorant or malicious attacks upon his most cherished beliefs.

A TELLING REPORT.

Fault was found, says The Christian Endeavor World, with the way in which the shorthand writers reported the speeches in a legislative body. They retailed by giving the speech of one of the members exactly as he made it, with the following result: "The reporters—ought not to—the reporters ought not to be the ones to judge of what is important—not to say what should be left out—but—the member can only judge of what is important. As I—as my speeches—as the reports—as what I say is reported sometimes, no one—nobody can understand from the reports—what it is—what I mean. So—it strikes me—it has struck me on certain matters—things that appear of importance—are sometimes left out—omitted. The reporters—the papers—politicians are reported—I mean—to make a brief statement—what the paper thinks of interest—is reported."

"EVIDENCE" AGAINST FRIARS.

Writing to the editor of The Evening Post, New York, a correspondent says: "Let me give you a sample of the way in which 'evidence' is manufactured against the friars. A young physician—whose name and address are at your disposal if required—who has just returned from the Philippines, happened to be present in a Manila court room when some native priests were on trial for an alleged offense. Next day The Manila Times gave an account of the trial, saying that the culprits were friars. Our young American called the editor's attention to the mistake and suggested a correction, but the latter merely smiled as he said: 'That is not our policy.' And no correction was made. The Manila editor has evidently been studying American journalism."

ONE MAD MAN'S WISDOM.

Bastiat, the French political economist of the last century, puts this sample of swearerology in the mouth of a man who has studied money economically until he has grown mad: "I CURSE money because it is constantly confounded with wealth, and from this confusion arise errors and calamities without number. I CURSE it because its functions are ill understood and very difficult of comprehension. I CURSE it because it confuses all ideas, causes the means to be taken for the end, the obstacle for the cause, alpha for omega; because its presence in the world, beneficial in itself, has introduced a false notion, a begging of the question, a fallacious theory, that in its numerous ramifications has imperceptibly man and crimsoned the earth with blood. I CURSE it because I feel myself incapable of wrestling against the error to which it has given birth other than by a long and fatiguing dissertation to which no one will listen."

CATHOLIC NEWS.

It is semi-officially announced that the Holy Father will celebrate the close of his jubilee year by holding a consistory, in the course of which he will create no fewer than six new Cardinals.

How the Church can be more separated from the State than it is in France we cannot easily imagine, says The London Catholic Times. It is so separated that the State never comes near it, except whip in hand.

The accommodation in the State institutions is already taxed to the utmost, writes a Paris correspondent and they will not be able to provide in September for the additional children who will assemble them on account of the closing of the convent schools. It is estimated that at least 20,000 children will be unable to find school accommodation in September in Paris alone, and as fathers are liable to penalties for not sending their children to school, whether there is accommodation or not, one easily imagines the happy life which Catholic fathers will have in the autumn in the present temper of the government.

Husband (mildly)—You should remember, my dear, that the most patient person that ever lived was a man. Wife (impatiently)—Oh, don't talk to me about the patience of that man Job. Just think of the patience poor Mrs. Job must have had to enable her to put up with such a man. "You see," explained the delegation that was extending a "call" to a distinguished clergyman, "we have had many ministers who gave satisfaction in the pulpit, but somehow the church debt has not been reduced." "Ah," replied the distinguished divine, "I quite understand. You are looking for a business manager under another name."

DEPORTED TEACHERS.

The Date of the Four Who Were Expelled in the Philippines. Manila, Aug. 12. An investigation by the consular to clear up the facts about the expulsion of a Catholic teacher, party of four school teachers shows that the party was expelled twelve miles from Cebu. Two teachers were shot and killed at the first volley; a third, who ran, was shot in the back, and a fourth, who was captured, was shot in the chest while he was pleading for mercy. It is suspected that the fourth man was buried alive, for his wound was slight and probably would not have caused death if he had been left sufficient evidence has been secured to convict all the participants in the crime.

A Missouri Lynching. Lexington, Mo., Aug. 12.—At 1.30 o'clock this morning a mob, numbering some 200 or 300 masked men, battered down the door of the jail, located in the courtyard here, and secured Charles Salvern (white) and Harry Gates (colored), who one week ago murdered George W. Johnson, and hanged them to a tree a short distance south of the town.

THE MARKET REPORTS.

Wheat in Prairie—Toronto Live Stock—Latest Quotations. Tuesday Evening, Aug. 12. Toronto St. Lawrence Market. The market was not brisk to day, most farmers being too busy to deliver produce. The only grain received was two loads of corn, which sold unchanged at 60c. Hay and Straw—Ten loads of new hay sold at \$10 to \$12 and one load of old at \$18. Straw was worth from \$10 to \$11 & only one load delivered. Butter—Very light offerings met only a moderate demand at unchanged prices. Eggs—Strictly new laid eggs sold to a fair demand at 17c to 18c; seconds were quoted at 15c to 16c. Poultry—Moderate offerings sold to a steady demand at unchanged prices. Potatoes—There was a fair demand and good potatoes sold at 50c a bushel. The range was from 40c to 60c.

CHEESE MARKETS.

Quebec, Aug. 12.—Offering today, 600 boxes colored cheese, 250 July, balance August make; D.C. to D.C. bid; no sales. Canada—Aug. 12.—A. C. Case reported Cheese Board today 1,400 boarded. Italy bought whole board at 19c. Toronto Live Stock. Trade in cattle was good here to day, notwithstanding the fact that over 1,000 head were on sale. Prices were generally steady, with very little noticeable change from last week's quotations. The quality of cattle here was better than had been here for some time, and the consequence was that country buyers were more inclined to bid. However, the proportion of poor stock, however, was small, and therefore was not a factor in the market. Good stock sold out. Sheep were steady; lambs draggy. Hogs held firm, but the outlook was uncertain. Cattle—Prices for choice stock were steady at \$3.75 to \$4.45 per cwt. The market was steady. Export Cattle—Steady at \$4 to \$5.00 per cwt. The latter price for choice heavy stock of \$5.00 to \$5.00 lb. There was a pretty good demand. One extra bull, 2,100 lb., sold at \$3.75 per cwt. Hens—Cattle—Steady. Choice bullocks, equal in quality to the best export, sold at \$3.50 to \$3.75, but the average choice stock sold around \$3. The cheaper grades were draggy. As the quality all round was good buyers were not quick to pay fancy prices. Anything above \$3.25 was for something extra fine. Feeders and Stockers—Good demand for choice steers. Prices steady at \$3 to \$3.50 for stockers and \$2.50 to \$3.25 for light to short-keep feeders. Poor stock was slow. Milch Cows—Choice 15 cows sold at \$30 to \$35 a head. Lambing—The market was draggy and slow. Choice quotations ranged from \$4.75 to \$4.75 per cwt. Sheep—Steady at \$3.50 to \$3.80 per cwt for short-keep and \$2 to \$3 for culls. Hogs—Steady at \$7.75 per cwt for selected and \$7.25 for light and fat.
