

MISSION COMMITTEE.

THE SECTION OF THE LETTERS... issued by Conveners of last year...

may deem best in order to secure a generous contribution to this object.

There are this year 159 congregations in the western section of the Church receiving aid...

There will be no difficulty in raising \$30,000 if each congregation realizes its obligation to contribute its fair share.

Kindly bear in mind that the Augmentation Fund, while administered by the Home Mission Committee, is entirely distinct from the fund for Home Mission work.

Should you wish to use special envelopes, they may be obtained from the Secretary, Rev. R. H. Warden, Montreal. I am, yours faithfully, D. J. MACDONELL.

Forty-ninth public debate of Knox College... held in the Hall on Friday evening, December 11th...

Gillies, Esq., Atlas Craig; John Heddon, Esq., Lumber Merchant, St. Marys, etc., etc.

September 10th, 1886. S. VARNOT: Dear Sir, - I consider it my duty to you and to the public generally to give a short history of my case. I found myself gradually failing physically, although my mental powers, so far as I or my friends could judge, remained intact and undisturbed. Soon I began to recognize the alarming fact that I was gradually sinking into the grave, having lost forty pounds of flesh in four months. I suffered severe neuralgia in one or both temples, shooting down into the shoulders occasionally of the most excruciating character, accompanied by morbid sensations in my extremities. After all means had failed I thought I would try electricity, knowing it was a powerful remedial agent when occasionally and skillfully applied, and having ascertained that you were the most successful electro-therapeutist in Ontario, I thought I would, if possible, obtain your services, and you very kindly and promptly visited me and proved on that occasion your complete mastery of nervous diseases. Through your instructions as to the application of the battery, and from several treatments received at your office after I was able to visit Toronto, I am now in very good health. I remain, as ever, thankfully yours, L. D. LOEWS, M.D. Malvern P.O., formerly of Toronto.

The cures made by electricity are not limited to any particular class of diseases, acute or chronic, as seen by the numerous testimonials, etc., in the Electric Age (sent for September number and see the marvellous cures made all over Canada).

See a work on Nervous Diseases, their cause and cure (price 25 cents in stamps). It has been the means of saving so many from this distress and suffering.

ADDRESS - Prof. S. Vernoy, As above.
