## CODMAN & SHURTLEFF'S

## Atomization of Liquids for Inhalation, Local Anæsthesia, &c.

Fig. 15. The complete Steam Atomizer.

By the Atomizer, any medicated liquid may be converted into the finest spray. In this state it may be inhaled into the smallest air-cells, thus opening a new era in the treatment of all diseases of the throat and lungs. (Fig. 15).

It consists of the sphere-shaped brass boiler A, steam outlet tube B, with packing box C, formed to receive rubber packing through which the atomizing tube D passes, steam tight, and by means of which tubes, of various sizes, may be tightly held against any force of steam, by screwing down the cover while the packing is warm; the safety-valve E, capable of graduation to high or low pressure by the spring or screw in its top, the non-conducting handle, by which the boiler may be lifted while hot, the medicament cup and cup-holder G, the support H, iron base I I, the glass face-shield J, with oval mouth-piece connected by the elsstic band K with the cradle L, whose slotted staff passes into a slot in the shield-stand M M, where it may be fixed at any height or angle required by the milled screw N.

The waste cup. medicated liquid may be inhaled into the smallest

The waste cup, medicament cup and lamp are held in their places in such a manner that they cannot fall out when the apparatus is carried or used over a bed or otherwise.

All its joints are hard soldered. It cannot be injured by exhaustion of water, of any attainable pressure of steam. It does not throw spirts of hot water, to frighten or scald the patient. Is compact and portable, occupies space of one-sixth cubic foot only, can be carried from place to place without removing the atomizing tube or the water, can be unpacked and repacked without loss of time. Will render the best of service for many years, and is cheap in the best sense of the word. Price \$6; brass parts, nickel plated, additional, \$2.50. Neatly made, strong black walnut box, with

Shurtleff's Atomizing Apparatus. Pat. March 24, 1868.

The most desirable hand apparatus. Rubber warranted of very best quality. Valves imperishable, every one carefully fitted to its seat and work perfectly in all positions. The bulbs are adapted to all the tubes made by us for Local Anæsthesia in Surgical Operations, Teeth Extraction and Inhalation. Price \$4.00. Each of the above Apparatus is supplied with two carefully made annealed glass atomizing tubes, and accompanied with directions for use rections for use.

Every steam Apparatus is tested with steam, at very high pressure. Each apparatus is carefully packed for transportation, and warranted perfect. Also,

HAND BALL APPARATUS, (Fig. 5, without shield) with two glass GLASS ATOMIZING TUBES, to fit any of our Apparatus, warranted

Pat. March 24, 1868.

GLASS ATOMIZING TUBES, to fit any of our Apparatus, warranted

PERFUME ATOMIZER, nickel plated, for toilet use

SILVER SPRAY

"150
NICKEL PLATED TUBES, for Local Anæsthesia and for Inhalation
RHIGOLENE, for Local Anæsthesia, best quality, packed
NASAL DOUCHE, for reating diseases of the Nasal Cavity, eight different varieties, each with two nozzles packed \$1.20, \$1.50, 2.00, 2.50 and 3 50

N.B.—To save collection expenses, funds should be sent with the order, either in form of draft, post-office order, or registered letter.

Will send by mail (post-paid), on application, a pamphlet containing two articles, by distinguished foreign authority, on "Inhalation of Atomized Liquids," with formulæ of those successfully employed. Also, an article by Dr. L. W. Thudichum, M.R.

C.P., on "A New Mode of Treating Diseases of the Nasal Cavity," with his formulæ. Also an illustrated description of the best Apparatus for the above purposes, and for producing Local Anæsthesia by Atomization of Rhigolene.

Instruments made to order, Sharpened, Polished, and Repaired.

An Illustrated Catalogue of Surgical and Atomizing Instruments sent by mail, postpaid, on application.

H. J. ROSE, corner Queen and Yonge Streets, Toronto, Agent for the Instruments, also the Pamphlet mentioned.

## Mrs. Pearson's Abdominal Supporter.

PATENTED OCTOBER, 1870.

THE attention of the Medical profession is called to the great benefit that has been derived by those who have found it necessary to use the Abdominal Supporter. Its great use has been to those who are suffering from partial Procidential Utaria Ante or Retroversion of the Utarya, and in Language, — necessary to use the Addominal Supporter. Its great use has been to those who are suffering from partial Products tia Uteri, Ante, or Retroversion of the Uterus, and in Leucorrhœa, depending on those defects: by removing the cause, it quickly cures the discharges. It is also of marked service to persons suffering from a lax, or pendulous state of the abdominal walls, and during pregnancy, it furnishes the much needed support to the Abdomen. A perineal pad can also be attached to the Supporter when required.

The following continents having the value is the investigation of the support of the suppo
