

A Master Stroke

OF INTEREST TO THE BOOKLOVER

We have just completed what is possibly the best collection of the famous standard authors in Library bindings ever published. The list is a large one, prepared at a great cost, and we feel should contain one or more "favorites" of interest to the Booklover.

It is difficult to imagine a more handsome combination. The prices are very low for such books. The plan of distribution is sure to appeal to you.

In past years the term "Subscription Sets" meant that a poor book, cheaply made, was sold at a high price. Times have changed, however, and now the best books, and sets of books, are sold through small payments. We have devised a new system—the "Cambridge Plan" of selling by mail, which saves the purchaser and ourselves money. If you are "Building a Library" you should know about it.

Check with an **X** the authors you are interested in and return the coupon to us to-day. We can then send you further details and order forms. If you wish use a postal card.
