

4. To secure a commercial exhibit of practical and educational value to school people.

5. To publish the proceedings of this Congress and distribute them to each member.

In addition, there is a plan on foot to effect a permanent organization for the purpose of carrying out school hygiene reforms in all the individual communities in this country, if not all over the world.

One of the interesting features of the Congress will be the presence of delegates representing the community interest in school hygiene, including those appointed by mayors and governors, by women's clubs, by school boards, boards of health, by mothers' congresses and charity organization societies and boards of trade. Their help is being solicited with a view of organizing the community in a campaign of school hygiene reform.

The Programme Committee announces a programme of two hundred and fifty papers and fifteen symposiums, taking up hygiene from the following points of view:

1. The hygiene of school buildings, grounds, material and upkeep.

2. The hygiene of school administration and schedule.

3. Medical, hygienic and sanitary supervision in schools.

The contributors to the programme make up a notable list of speakers, college presidents and professors; state, city and county commissioners of education; teachers and superintendents of public schools, medical college professors; state, county and city health officers; physicians in private practice, engineers and architects.

Special discussions are being arranged on the following subjects:

School Feeding: Arranged by the Committee on School Feeding of the American Home Economics Society.

Oral Hygiene: Arranged by National Mouth Hygiene Association.

Sex Hygiene: Arranged by the American Federation of Sex Hygiene.

Conservation of Vision in School Children: Arranged by the Society for the Prevention of Blindness.

Health Supervision of University Students: Arranged by Dr. Mazyck P. Ravenel, University of Wisconsin.

School Illumination: Arranged by the Society of Illuminating Engineers.

Relation Between Physical Education and School Hygiene: Arranged by the American Physical Education Association.
