Continental Gum has returned the gumball to its original home. Our "Antique" gumball machines and stands are decorative conversation pieces and lots of fun. In short, they are the type of unusual gift items that the contemporary consumer is seeking.

Manufactured from quality cast metal, our machines hold over 1,000 gumballs. Taking all coins, they are great savings banks as well. Available in a variety of colours, Continental gumball machines and stands sell on sight.

Our Olde Tyme Reproduction Gas Pump dispenses all types of liquids, and is a novel gift idea for the bar, den, kitchen, office or around the pool or patio. It cleans easily with warm water.

Gumball machines are certain to be attention-getters in any fun setting.

There is a definitely northern flavour to the wide range of gift items produced and distributed by Creations du Vagabond. Seals of all sizes, including mother-and-baby combinations, Indian and Eskimo dolls in lamb skin, pouches in suede and sealskin, and slipper-shaped key chains, are amongst the offerings we make to the discriminating buyer.

Our products, many of which feature maple leaf motifs, have a special appeal to tourists and to other foreign buyers. The typically Canadian look we provide for our products is one reason for the success Creations du Vagabond has enjoyed in its sales to Australia and to several Asian countries.

Our company has an excellent distribution network in place to serve the Canadian market, and is looking forward to an expanded export presence.

There's a definite northern flavour in these Eskimo dolls and seals which are already generating international sales.

General Manager**

Creative Canvas is based in the land of the sail, Nova Scotia. In business since 1979, we offer our customers quality goods, custom-manufactured from canvas and cordura.

Our products are designed especially to the specifications of individual customers. Featuring strong colours and varying contrasts, our goods stand alone in any retail setting. Retailers know that the orders they place for their own unique bags and aprons will appeal to the top end of the purchasing market. Silk screening is available, as required, to further enhance the attractiveness of our products.

Creative Canvas' versatile approach to doing business means that clients will get what they want, how they want it, quickly and well made. Sample bags can be developed, without artwork, for genuinely interested customers, prior to committing themselves to a purchase.

Canvas bags of all types, including this artist's bag, combine eye-catching designs and quality manufacturing.
