

IMPORTERS/DISTRIBUTORS/USERS

Direct exporting to South Korea is not simple, it often demands that you visit South Korea, learn about the market, and meet with potential importers, end-users, distributors, agents, and government trade officials. Exporters must develop a network of contacts on the South Korean side and establish close working relationships with several key individuals. In light of constantly evolving circumstances, the following list of importers, distributors and users cannot be timeless or exhaustive, Canadian fish, processed food and beverage exporters are advised to check all relevant details with their commercial contacts and to adhere strictly to the specifications set by South Korean importers and authorities.
