

A great international airline has to go a long way to ensure its place in the world.

Our route map shows the full extent of our international flight network, which includes 38 cities in five continents. Varig operates state-of-the-art equipment, including turbines of the latest generation. One of Varig's main features is the unsurpassed standard of its maintenance. Another is the excellence of its inflight service, recognized as one of the best in the world.

By doing its job efficiently, Varig has won its place among the outstanding airlines of the world.

Looking at a route map like this, one can see that ours is indeed a small world, well within your reach. Fly with us from most of the world's major cities.
