

*Business of the House*

in the year 1983 we will be able to better fulfil and live up to their expectations, that there will indeed be prosperity in the land, and that everyone who is currently faced with difficult times will find their wishes fulfilled.

I want to say to the people who serve the House of Commons that without them this place could never operate. Their contribution is one which provides the public of Canada with what it requires. I would say to Hon. Members on all sides that we in the New Democratic Party hope that they enjoy the brief respite from the work of the House of Commons, that they will enjoy their time with friends and families and their visit with constituents, and that when they return we will be able to get down to the business of the nation.
