The Right Hon. Sir Arthur Currie,
Principal McGill University,
Montreal, P. Q.

Dear Sir Arthur:

I am extremely obliged to you for your kindness to help me and herewith I am sending you a brief summary of my doing during the last ten years.

If the 24th of Oct. 1914 I was appointed " amanuensis " of the Geol. Dep. of the Univ. of Lund, which position I with two interruptions held for 12 halfyear terms. From the 1st of May 1915 until Sept. 1919 I was in charge of the Swedish State Museum in Stockholm. The summers and falls of 1918 and 1919 I was in charge of the Agric. and Forest Dep. of Sweden both in office and field work.

If during my last halfyear term at the University I also held a position as manager of a lim. Comp. and for a following 14 months term I devoted all my time to business. The 1st of Sept. 1922 I engaged myself in teaching being connected with a Swedish State high school as a teacher of chemistry, biology, geography, mathematics. During the fall term I was also connected with the above mentioned Comp. but during the spring terms with the Museum of Gothenburg. From the 10th of June to the 7th of July 1923 I was at this museum making ready the last work in finishing the Geol. Dep. there. This was an entirely new dep. which I have done myself.
