

March 26, 1925.

J.B. Capper, Esq.,
St. Michael's,
Reigate, Surrey.

Dear Mr. Capper:-

It was with very great regret that we heard of the death of your brother, our original professor of Architecture. Mr. Capper's work in our Architectural Department has left an enduring mark, not only in the department itself, but in the work of our many graduates who served under him.

His interests at McGill were not confined to his own Faculty. He gave some of our first illustrated public lectures and he won the hearts of the undergraduates by his interest in athletics and in their other activities. It was a real loss when he left us in 1903.

It is more than gratifying to the University to know that he looked back to his stay here with pleasure, and I can say with certainty that when we receive the fund provided from his estate, we shall regard it as a share of our heritage in which we may feel particular pride.

I am, as you request, giving no publicity to the matter until hearing further from you.

With kind regards
