Government February Second and Demand Hearing.

Committees on fairs and exhibitions thruout the province are declaring themselves up in arms against the ac-tion of the Ontario department of agriculture in cutting the annual grant in half. Representatives claimed yes-terday that when the annual conven-tion assembled in Toronto on Febru-ary 2 a monster deputation will approach the government and urge that their support be made the same as in the past. Some were very out-spoken in discussing the affair, and stated that it was a most inappropri-ate year to launch such a policy. If the department pursued such a course how could they expect that the farm-ers would rally in a great production campaign. mittees on fairs and ex

Campaign. Members of the associations also urged a grievance of long standing. They state that whereas Ontario's grant to this branch of the work has stood at the same figure for the past stood at the same figure for the past stood at the same figure for the past stood at the some figure for the past stood at the some figure for the past of these allowances Ontario fairs should be recuiving \$400,000. In cut-ting down the grant it will be spread thinly over all, including many new organizations recently formed. The official explanation of the de-partment is learned to be that an an-noncement of this change was given early last fall, and that the majority of the fairs will not suffer much be-cause of their present strength. Un-doubtedly the government's course is a part of the general retrenchment which must follow the financial string-oncy due to the war. The convention opens at 22 College street on February 2. Hoke Smith of Georgia rose to protest and there was no liquor in his state and was promptly informed by O'Gorman of New York, that 876 illicit stills had been seized and destroyed by the federal authorities during the past year. John Sharp Williams of Mississippi, the wag of the senate, lined up with Bristow of Kansas, declaring that after 40 years' experiment he was able to say that cocktails did nobody any

good. So no one can tell just how many debates may suddenly spring up to stave off discussion and a vote upon Mr. Wilson's ship purchase bill. It is by no means to be assumed, however, that no means to be assumed, however, that friendship for the bill means opposition to the allies, or that opposition to the bill means friendship to Bri-tain. Watered stock is now condemned by The Toronto Globe, which points out that our dropsical corporations are passing dividends and defaulting on preferred stock and even on bonds. Representatives of the different hos-pital boards of the city approached Hon. W. J. Hanna yesterday to ask assistance for outdoor patients. They requested this to come at the rate of ten cents per day per patient. This would mean a yearly grant of ap-proximately \$5000.
The minister stated frankly that it was a lean year, and that he could ex-tend little hope of assistance. He acknowledged that the work was praiseworthy and hoped if conditions improved to help it along.
Mark Irish, M.L.A., and J. W. Flavelle introduced the deputation. This was their second visit on the sub-ject.
