BIG LOAN DISCUSSED

Much Apathy Shown To- Gold Camp Needs Time to wards Investment Issues by Public.

SMALL BROKEN LOTS

U. S. Steel and Smelters Only Really Firm Issues on Toronto Exchange.

A good deal of the Toronto Stock Exchange list was operated in yesterday, but again the trades involved mostly only small broken lots of each issue. There were few price improvements. N. S Steel and Smelters are receiving better support than any other stocks and each advanced during the day. The purely speculative issues were easier and not easily marketed. The exchange had no new developments to work upon and the

IN THE MINING SHARES

Demand for Silver Causes Inquiry for the Cobalt Stocks-Porcupines Quiet.

The mining market showed no resilien-ency yesterday, and if anything was quieter than the previous day. Prices are maintained with stolid firmness, but the buying is not of sufficient with are maintained with stolid firmness, but the buying is not of sufficient volume to scare off bear scalpers who try to operate against every public purchase. Inactivity on the New York curb is partially responsible for dulness here, but it is expected that this will rectify itself at a later date. A feature of yesterday's business was an awakened demand for the Cobalts. The advance in allver prices and the expected further demand for the white metal was responsible for this demand, and led by Niptseing, which advanced to 605, all the active Cobalts made some rally. The Forcupines were quite dull, with a demand for only the low-priced shares.

BUY ONLY ON DRIVES.

J. G. Beaty had the following at the close: Wall street took a more cheerful view of the outlook. As for the foreign exchange problem and the proposed big loan or credit of the allies it was assumed that this would take time to work out. While the work is in progress there will doubtless be some restriction to stock trading. We would be governed accordingly, and buy only on drives, taking profits when you have them.

first mortgages, and our capital and surplus.

T.C.R. COUNTRY NOW PROSPECTORS' FIELD

Practical Men Into Territory Unknown Before.

FUTURE WILL SHOW

Prove Itself - Sixty Nickel Claims.

NEW YORK. Sept. 14.—Duliness and inscularity were the striking features of today's stock tarket, which was say the considerable part of the small outset of the same and the professional manipulation in the shares. Those issues made up a wer considerable part of the small outset of this group a few new high record were scored. Bethlehem Steel made a maximum gain of 14% points at 349½ or 14½ over its meant best, and Crucible Steel, which is the market in point of activity, rose is 58%. Crucible preferred enjoyed a smilar distinction, rising 2 to 107½. Other stocks of this class traited atons with gains of 1 to 2 points. The movement is were of the wastle manifested awards layestment issues. These were mostly lower when quoted at all, but their part in the day's operations was selligible. Rock Island became strong towards the close of the session on word from Chicago that money to meet impending interest obligations would be provided. U. S. Steel, generally regarded as the balance wheel or barometer of the market, rose and fell within narrow limits, being subject to steady pressure to the market, rose and fell within marrow limits, being subject to steady pressure of the consideration to the negotiations attending the Anglo-French credit situation and Washington's, exchange of views with Berlin. Opinions of bankers respecting the reported plan and scope of the proposed international loan are not affogsther unanimous. The condition of the exchange markets continues more less nervous, but reduction of offerings on London has made for some proposed international loan are not affogsther unanimous. The condition of the exchange markets continues more less nervous, but reduction of offerings on London has made for some proposed international loan are not affogsther unanimous. The condition of the exchange markets continues more less nervous, but reduction of offerings on London has made for some proposed international loan are not affogsther unanimous. The condition of the exchange markets continues more less nervous, b

would gather the belief that this is altogether likely.
Sixty nickel claims are staked fifteen miles west of Kowkash and some work has been done on them. The World has seen some of this ore; it is not rich, but it is good nickel ore and a sign that there is more in the way of mineral wealth in the hitherto absolutely unknown country along the Transcontinental Railway than some good people are willing to believe. The prospectors who moved in there when they heard of Kowkash will be giving us all some

ficial and hasty work performed by the stakers in finding veins for their discovery posts. There has not been a chance to do more, the rush was too sudden. The World does know for a fact that one man panned gold by crushing the quartz and muck around a vein on a location one mile west of the King Dodds discovery and got a four-inch tail. It is said that gold was panned out of a vein a mile and a half east.

The point is that before judgment can be passed on Kowkash the men, who staked there must be given a chance to show more gold. That's only fair.

It was years before the public could be brought to believe in the richness of Cobalt. It was a year after the first find be-

It was a year after the first find before Porcupine was accepted as being a promising gold camp. One of the biggest mines was six years in reaching the dividend stage.

It is eight years since Munro was staked, and it is only now that "the recest gold in Canada"—en the word of an authority—is being mined from it.

It is three weeks since Kowkash was discovered, and it is reasonable that a little more time, but not necessarily a year, should be allowed the district before iumping to conclusions. year, should be allowed the district before jumping to conclusions.

It should further be kept in mind that gold is very, very much needed by the empire today, and that the man who seeks to find and produce it should be given every encouragement. The natural hindrances are difficulties enough.

WHEAT PRICES UP ON BAD WEATHER

Cold in Canadian West, Rain in Dakotas and Minnesota Boomed Market.

CHICAGO, Sept. 14.—Cold and snow in Canada with rains in the Dakotas and minnesota threatening delay to the spring Beaver Consolidated crop movement, resulted today in higher Buffalo Chambers - Ferland. Security Against

Depression

No matter what the cause of business depression, our Guaranteed Mortgage Investments are absolutely secure, both as to principal and interest. SPLENDID QUALITY OF STRAWBERRIES

Heavy Market Again Yesterday and Trade Was . Active.

QUIETED DOWN LATER

Afternoon Trading Slow and Draggy Owing to Heat.

Strawberries of splendid quality were on the market yesterday. N. A. Bowen of Aldershot shipped three crates to D. Spence, which sold at 20c per box. There was a heavy market again yesterday, and trade was quite active in the morning, but slow and draggy in the afternoon, due to the intense heat; a lot of the fruits and tomatoes showing waste. Peaches sold at 25c to 40c per 6-quart basket, and 35c to 75c per 11-quart basket; only the few extra choice reaching the high mark. R. L. Pendergast of Niagara shipped very choice Crawfords to Manser Webb.

Plums were quite plentiful again, and sold at 20c to 35c per 11-quart basket. Albert Scheer. Aldershot, shipped some choice large blue ones to H. Peters.

Pears were rather slow, and brought from 25c to 35c per 11-quart flat baskets; one lot of fancy Bartletts, in leno baskets, bringing 75c. F. L. Lailey, St. Catharines, shipped the latter lot to Clemes F.os., and also shipped choice plums. terday, and trade was quite active in the

plums.

Apples were very slow, selling at 15c to 25c per 11-quart basket; some choice ones bringing 40c, and from \$2.50 to \$3 per bbl. Ross Metcalfe, Port Nelson, shipped some fine large ones to H. Peters.
Tomatoes sold at 12c to 15c per 6-quart basket, and from 12½c to 25c per 11-quart basket.

per 11-quart basket.

There were only a few thimbleberries on the market, which brought 5c to 7c per box. Cantaloupes sold at 20c to 40c per 11-quart basket, and 35c to 60c per 16-quart basket.

Watermelons—35c to 50c each.
Wholesale Vegetables.
Beets—New, Canadian, 75c per bag; 15c
to 20c per 11-quart basket.
Cabbage—20c to 40c per dozen.
Cauliflower—No good on the market.

WINNIPEG GRAIN MARKET. WINNIPEG, Sept. 14.—Wheat opened at 91½c to 92c for October and December, and at 97%c for May, which, at the low points, show a jump of 2c to 2½c over Monday's close.

Oats opened unchanged to ½c higher, and were steady following. Barley was ½c higher for September, while flax for October was 2½c, and 2c for December higher. Wheat was strong, and a good business was done in future lots. The strong early market was due to the inclement weather in the winter states and the Canadian wast.

Oats were in good demand, sales having been made beforehand, and owing to the weather delivery cannot be fulfilled on time.

Inspections, 459 cars, as against 1273 last year. In sight today, 675 cars.

Wheat futures closed unchanged to ½c up; cash wheat, 1½c to 1½c up; oats, ¼c to ½c lower. WINNIPEG, Sept. 14.—Wheat opened
