

NEW CANADIAN EMIGRATION OFFICES.

The remarkable growth of emigration from Great Britain to Canada has necessitated the erection by the Dominion Government of large new offices in London, England. These new offices, which were opened in April, are located at Charing Cross, in the centre of the

The office of Mr. T. R. Preston, the Canadian Commissioner of Emigration, is on the ground floor. All the fittings are of Canadian wood, comprising bird's-eye maple, cherry, ash, and oak, the fittings having been mainly supplied by the Office Specialty Company, of Toronto, and the Canadian Office and School Furniture

that raged last spring in Quebec, New Brunswick and Nova Scotia to send men in early to cut the damaged timber. Prompt action must be taken if the timber is to be saved from the ravages of the small white worm that preys on exposed wood in the Canadian limits. This parasite seemingly cannot get in its fine work when the tree is protected by its verdure, but once the trunk is charred or scarred in the slightest degree, it finds an opening. Cases have been known where the worm has attacked and worked on shanties which have been standing for a season or more. In other cases charred trees have escaped for a couple of seasons, while those on a nearby limit have, in a few months, been rendered unfit for the chopper's attention.

Metropolis. They comprise a very imposing block of buildings of commanding appearance, and should provide adequate accommodation for the purpose for which they have been erected for many years to come.

The accompanying illustration shows a portion of the interior of the ground floor. It is partitioned off for various departments.

Company, of Preston. All the offices are admirably arranged to meet the work of this department, which now comprises quite a considerable staff.

BURNT TIMBER.

Arrangements are being made by several of the firms whose limits were swept by the fires

LUMBERMEN'S AXES.

One of the largest manufacturers of axes and edge tools for the use of the lumber trade is the James Smart Manufacturing Company, Limited, of Brockville, Ont. This well known company not only make axes, but a general line of metal goods.

In order to make the above it requires one of the largest plants in the country, and this the Smart Company have. Their special line, however, is lumbermen's axes, wood-splitting mauls, cedar wedges, hanging wedges, chopping axes, joiner's and framing axes, tomahawks, lathing and shingle hatchets, etc.

These axes and wedges are manufactured from solid cast steel, polished bits and in a great variety of patterns, as used in the different sections of our Dominion.

Lumbermen and camp supply jobbers should send for illustrated catalogue of this firm's products. A visit to the works of this company at Brockville shows an immense staff employed in the developing of a great industry.

R. McDonald has sold his lumber business at Ronald, Man., to the Canada Lumber Company.

HENDERSON'S

Ox Hide Brand Oil Tan Footwear

The Line That Sets the Pace

Absolutely the Best

Nine out of ten lumbermen are anxious for the very best when it comes to camp equipment. Quality is the important feature with them; a few cents in price is no object. If you want the grip on the Moccasin trade, buy OX HIDE and see the Larrigan end of your business go ahead with a bound.

The Best Equipped Moccasin Factory in Canada.
