

DEMOCRATS SHARPENING KNIFE WITH INTENT TO SLASH TARIFF

No Duties, Save for Revenue Purposes, is Slogan of New York Delegates—Gompers Pressing Claims of Labor—Busy Nailing Platform Together.

BALTIMORE, June 26.—(Can. Press.)—The Democratic committee on resolutions began to-day the work of preparing a platform for the consideration of the convention.

In addition to voting to recommend that the platform should not be presented to the convention until after the nomination of a presidential candidate, a concession to W. J. Bryan, the committee began a series of hearings devoted to the presentation of plans for platform declarations.

The New York platform received very careful consideration. It gives first place to the tariff, declaring it to be a fundamental principle of the Democratic party that the federal government has no "right or power to collect tariff duties except for purposes of revenue."

Extension of Parcel Post. Other recommendations favor: Extension of the parcel post; encouragement of the merchant marine; maintenance of good roads; improvement of the inland waterways; reformation of the civil service, making merit the standard of appointment and promotion; workmen's compensation legislation; improvement of the pure food laws; conservation of natural resources and reduction of governmental expenditures.

Samuel Gompers asked for the re-formation of the Denver platform on questions affecting labor, dwelling especially on the question of the tariff.

As a matter of fact, is not your organization political in character? Mr. Bryan asked.

It is not, said Mr. Emery. It undertakes only to defend itself against the inroads of your party. Opposed to Reciprocity. Speaking for the American Stock Growers' Association, Representative A. W. Rucker of Colorado, a Democrat, attacked the reciprocity law, saying that the stockmen and farmers were united in opposition to it.

Senator Kern was turned to at once as representing the progressive democracy, and there was no nomination in opposition to him.

Mr. Covington then presented the majority supplemental report of the rules committee, making the "unit" rule a rule of the convention. As reported, the rules would make a unit instruction by a state convention binding on the delegates and before the adoption of the platform.

CLARK BOOM IS WANING

Decision of National Committee, Seating Wilson Men in South Dakota, is Over-riden.

BALTIMORE, June 26.—(Can. Press.)—The credentials committee of the Democratic convention late this afternoon overturned the action of the national committee and gave the ten seats from South Dakota to Clark delegates in the first actual test of strength between the Wilson and anti-Wilson forces.

By a vote of 23 to 22, the committee unseated the ten Wilson delegates who had received the highest vote in the state primaries on June 4 and gave the seats to the Clark delegates headed by Andrew E. Lee. This was one of two delegations that had run under the Clark banner and their combined vote exceeded that of the Wilson ticket.

The South Dakota case presented three contesting tickets, one headed "Wilson-Bryan progressives," another "Wilson-Clark-Bryan Democracy," and a third "Clark for president."

The second delegation was the one seated. The Clark forces claimed their third ticket had been filled to divide their vote, but this was denied. The delegates for Clark, said it was claimed that while they received about 400 less votes than the Wilson ticket, they exceeded that cast for the single Wilson ticket.

Contests from Missouri, Texas, Rhode Island and the District of Columbia were the last case taken up.

interfere with the operation of the unit rule as it has obtained heretofore. John W. Peck of Ohio argued in favor of the majority report. The minority would place the nominations for president and vice-president on the program of the convention immediately after the report of the committee on credentials and before the adoption of the platform.

The report, much to the surprise of the convention generally, was adopted by a viva voce vote, without opposition.
