Chicago Gossip.

Marshall, Spader & Co. to J. and has been rather a tame affair.

s is probably due to the fact that This is probably due to the last that there were rains well distributed over the entire spring wheat section of the north west. Liverpool failed to respond to our advance vesterday. There has been fair selling by northwest interests here today and enough good bull news to cause

a reaction, but buyers seemed to be holding off awaiting some confirmation of the rather sensational claims which have been made by crop killers from that section. The most surprising as well as significant feature of the market to-day was the fact that Minneapolis market was again the weakest on the list in the face of the calamitous news. The close was tired and heavy. Would not sell wheat on the break, as trade is nervous and reactions are to be expected, but in view of the hearish commercial situation would not hesitate to sell it on the bulges.

For the balance of the session market was dull and of a scaling character. There are reports of heavy exports of Marttoba wheat and flour from the southwest. There was a plethora of news affecting the spring wheat crops which in the main was decidedly unfavorable, but its only-effect was to check aggressive bear operations.
