THE VANCOUVER SMELTER

To be Erected by an English
Syndicate.

IT IS TO COST \$600,000.

Fairview Camp in Southern British
Columbia is to the Front.

Lord Sudleigh Buys a Mine for \$60,000—
Another Slocan Group Sold to a Sas-
land Man—Treasury Stock to Come
Under the New B. C. Mining Act—This
Stock to be Marked—Rossland Markets

Mr. Harry Symons of Toronto, re-
presenting an English syndicate, of
which Mr. J. H. Rothschild is one of
the chief promoters, recently made an
overture to the City Council of Van-
couver to erect a smelting and refining
plant at that point on condition that
free water and exemption from taxation
were granted them, and it is now
understood that the overture has been
accepted.

Under the agreement the work of
construction is to be commenced with-
in three months, and the smelter is to
be capable of treating at least 500 tons
of ore per day, while the refinery is to
be equal to treating the output of the
smelter. The plant is to cost \$600,000.

FAIRVIEW CAMP.

In Coming to the Front—Good Figures Paid
for Properties.

Fairview camp in the Kettle River
district of Southern British Columbia
is rapidly coming to the front. It now
has about 40 mines under development,
some 200 men being employed on the
various properties. As an indication
of the wealth of the camp it is said
that one mine, the "Joe Dandy," has
been sold to Lord Sudleigh for \$60,000,
a similar figure having been recently
paid for the Stenwinder. The Tin
Horn is another much talked of prop-
erty in the camp. Fairview is situated in
Osoyoos division of Yale district and
is remarkably easy of access. The
steamer Aberdeen is taken at Vernon
and a run of 60 miles brings one to
Fenton, 25 miles from Fairview. The
latter part of the journey being made
by stage. The district is unlike al-
most all other portions of the province
in that it is not mountainous, the topog-
raphical features resembling one huge
park of gently rolling hills. The cli-
mate is said to be remarkably salubri-
ous, but very little snow falling in
winter. The ore of the camp is free
mill.

Another Slocan Group Sold.

Negotiations which have been pend-
ing for some time past have ended in
the sale of the Maxwell group of seven
gold claims in Cariboo Creek camp (on
Snow Creek) by Richard Maxwell, L.
Cagan, Sam Ahlgren and William
Hayward to Edward C. Finch of
Rossland. It is understood that the
four claims of this group, viz: the
Black Fox, the Red Fox, the Grey
Wolf and the Black Diamond claims,
are to pass at once to the ownership
of the Silver Queen Mining Company,
a corporation recently organized under
the laws of British Columbia, with a
capital of \$1,200,000, and that as soon
as this transfer is made the work of de-
veloping the property by an extension
of the tunnel for the Black Fox lead
will be commenced and vigorously pro-
ceeded.

TREASURY STOCK.

Certificates Should be Marked as Such in
Red Ink Across Their Face.

Among the suggestions as to the
amendment of the mining company
laws in British Columbia, is one to the
effect that certificates of treasury
stock should be plainly distinguished
from the promoters' stock by being
marked in some way. The St. Paul
stock Herald proposes that it should
be obligatory to have the words "Treasury
Stock" printed in red ink across the
face of the certificate. There should
also be some provision compelling the
promoters to allow a certain period
to elapse or a certain amount of the
treasury stock to be disposed of be-
fore they place it on the market. Such
provisions would have a considerable
effect in establishing confidence and
fact, the latter is being voluntarily
adopted by the promoters of most of the
schemes now being placed before the
public.

ROSSLAND MARKETS.

Where Provisions Come From and What
Prices are Paid for Them

One of the things that most strongly
interests the visitor to Rossland is the
reasonably low price of all kinds of
goods and the abnormally high prices
commanded for rent and real estate.
Contractor McCallum is building a
small hotel which is already rented for
\$100 a month. Another wood structure
originally intended for a big hotel, has
been transformed into offices and
warehouses. It was not long ago that
for \$500 a month by a speculator who
turned round and sublet it to various
tenants for a total rental of \$800 a
month. A town lot which was offered
a year ago for \$3000 cannot be bought
now for less than \$4000. The houses
rent for \$75 a month and a broker's
office, 15x40, for \$125 a month. On the
other hand, groceries, clothing, meat
and other merchandise are not as
dear as might be expected. Ketch
competition accounts for this. Some
goods, such as hay, which now com-
mand high figures, are coming down
as a result of lower freight rates and
competition between merchants. Hay
has been selling in Rossland at \$25
and \$24 per ton. The freight from
Calgary to Trail, about 450 miles, is
\$6 a ton. From Trail to Rossland 12 miles
the freight is \$4 a ton, an outrageous
figure. It is not the hay, however, that
makes money easily and spend it freely
camp comes from Washington. It is
nearly all timothy, for none but the
best will be used. Irrigated grass
from Alberta would likely find a
ready sale over here once it became
known, but at present the hay is a
fight shy of anything but timothy. In
folden, as in everything else, people
want the best that's going. They
make money easily and spend it freely.
Particularly the miners. There is a big
market for Alberta oats. American
oats, though imported in great quanti-
ties, are inferior, but the reason they
have been so much imported is that
dealers are displaying more enterprise
than Canadians. A very large propor-
tion of merchants' large grocery stores
are Americans. There are good oppor-
tunities for Alberta dealers to put in
produce. The boats coming up from
Northport stop at little landings
every few miles along the river and
throw off huge piles of baled hay.
quarters of beef, potatoes, oats, gro-
ceries, pork and other goods—all from
the States. American grocery but-
ter is imported in immense quantities

The Industrial

Mining Development and Investment Company
of Toronto (Limited).

North England Institute Mining and Mechanical Engineering); Ontario:
B. J. Townsend, M.E.

The Company is organized for the purpose of acquiring, buying,
selling, operating, leasing, prospecting and developing mining prop-
erties in Ontario and British Columbia. The Company's MINE

The Robert E. Burns,

A valuable FREE MILLING property, situated in the McMurdo Creek
Basin, East Kootenay (adjoining the International). The mine is
already equipped with machinery and a five-stamp mill and necessary
outbuildings, boarding houses, etc. Considerable development work
has been done and the following assays made by W. Pelley Harvey,
E.C.S., when reporting on the Robert E. Burns prove the remarkable
value of the mine:

	Oz.	D.	G.
No. 1—Sample from dump at No. 1 cut, gold.	1	8	8
No. 2—Average dirt from No. 1 cut, gold.	4	6	12
No. 3—Picked from surface No. 1 cut, gold.	3	1	0
No. 4—Sorted No. 1 cut, gold.	3	1	0
No. 5—Sample from dump No. 2 cut, gold.	1	3	0
No. 6—Average dirt from No. 2 cut, gold.	0	17	2
No. 7—Average sample general surface, gold.	0	13	1
No. 8—Average sample general surface, gold.	0	13	1
Assays previously made from No. 5 cut, gold.	27	1	0
Assays previously made from No. 3 cut, gold.	18	5	0
Assays previously made from No. 3 cut, gold.	14	6	10

Full reports on the mine by W. Pelley Harvey, E.C.S.; Lionel
Wills, M.E., and B. J. Townsend, M.E., may be seen at the company's
head office.

Several locations are now under consideration in Western Ontario
and British Columbia, where the company will chiefly operate. A
limited number of shares are now offered at \$1.00 per share. In
blocks of not less than ten. Apply to

DIVIDENDS GUARANTEED

On a special Block of stock at the rate of ten per cent. per annum now
offered for sale by tender up to 20th April, 1897.

This is a Development Company organized for the purpose of buying, selling and developing min-
ing properties in British Columbia, and is at present engaged in active work on eight full-sized claims, viz:
Ethel No. 1, Ada L., Iron King No. 4, Blue Bell No. 1, Elk No. 1, Tenderfoot, Dor-
othy and Bert, all owned by the Company in one block and situated at the head of Murphy Creek, in
close proximity to the Yellowstone Group and Heather Bell.

The Ethel Group properties are well mineralized. Ore taken from a shaft 15 feet in Ethel No. 1
and from another shaft 23 feet assays \$7 to \$12 per ton in gold and a later assay goes \$17 to the ton, which
compares very favorably with the assays of ore from the richest mines in Trail Creek District at the same
stages. Contracts are now let for 100 feet more on each shaft and work is being pushed night and day to
complete these by the end of May, when more extensive operations will be pushed forward.

While the management of the company feel assured that pay ore will be
reached within a few months, they do not overlook the fact that during the first
few years of development the expense of procuring the most approved machin-
ery and appliances, sinking shafts and other work, may prevent the company
from paying dividends with regularity. The present shareholders have therefore
made arrangements with

The Toronto Financial Corporation

(with whom securities have been deposited) whereby that corporation has guaran-
teed the payment of DIVIDENDS OR INTEREST AT THE RATE OF TEN
PER CENT. PER ANNUM, payable half yearly for the first five years on the
allotted price of this special issue of stock, the script for which has such
guarantee endorsed thereon.

This issue of stock is offered to the public with a view of producing increased
development, and work will be pushed forward as rapidly as possible consistent
with judicious and expert management, thus assuring to the purchasers of
the stock that the profits of the mines will enable the management to continue pay-
ing permanent and increased dividends.

Tenders are hereby called for the purchase of 100,000 shares of this pre-
ferred stock, the minimum price being 75 CENTS per share on the par value
of one dollar per share.

For Forms of Tender, Prospectus and Maps please address

The Ethel Group Gold Mining Co'y, Ltd., of Rossland, B. C.,
34 ADELAIDE STREET EAST, TORONTO, CANADA.
