## FEW ARE STRIPPED OF RIGHT TO VOTE

Naturalization Act is Chief Disqualification Under New Franchise Measure.

Ottawa, Aug. 3 .- (Special.) -- Under the new franchise act, there are few persons directly disqualined. The chief disqualification comes from the naturalization aet. Alexander Smith, barrister, of this city, points out that while the percentage of those not entitled for some years yet to apply for naturalization is small, there is a very large number of persons resident in Canada for an average of from 30 to 50 years who cannot vote with-30 to 50 years who cannot vote with-out first receiving naturalization. In addition to this, the children who were born outside of Canada and under 21 years old, and resident with their parents at the time their parents were naturalized, and thus were themselves naturalized by process of law, cannot vote, altho many of them are now 50 years old or more, unless they obtain a special certificate to allow them to vote It is pointed out that there are some restrictions on Germans, Austrians and others who fought Britain in the great war, and that any real subject of a country at world war with Britain at any time since August, 1914, cannot be naturalized in Canada un-til ten years after the war. This re-striction, however, does not apply to a member of a race or comply to striction, however, does not apply to a member of a race or community known to be opposed to these enemy governments. These people are free to apply for naturalization in the usual period. The restrictions, Mr. Smith points out, are further modified by the fact that persons of enemy alien blood, Austrians, Germans and others who have been resident in Canada for ten years previous to July 7, 1919, may be granted naturalization.

#### She Was Sick and Nobody Came

For

There

It was a cheap roomthat's why she took it.

But at that it cost her five dollars a week. And her salary was only ten.

So she had to economize on food. And she had little to spend on boots.

That's how she caught cold, probably—her feet got wet. She tried to get up, but her head swam dizzily. So she just lay there.

Nobody came. If she had died nobody would have known

A rooming house is no place in which to be sick.

That's what the landlady said when she found out finally. So the ambulance came, and she was taken to a public ward in the hospital.

Willard Hall maintains a dispensary. If a girl gets sick she is "mothered" and cared for. If she has to go to the hospital, arrangements are made. If she has no money, the Women's Christian Temperance Union pays the expense. While she is convalescing she is cared for at Willard Hall. The girls carry trays and help.
