"HELP FEEBLE-MINDED" CAMPAIGN IS STARTED

Plan Launched Saturday Promises to Have Telling Effect. WILL HOLD AN EXHIBIT It Will Set Forth Evils Resulting From Lack of Care.

What promises to have telling effect upon the matter of care for the feeble-minded is a plan launched at noon Saturday in the office of Dr. H. L. Brittain, Traders' Bank Building, at which Dr. Helen MacMurphy presided, and a number of men and women prominent in the medical, religious and social service work attended.

Out of the deliberations developed the decision to hold an exhibit, setting forth the evils resulting from lack of care of the feeble-minded, the idea being to awaken by object lessons and addresses the public conscience to the need for action in the matter.

Mrs. A. M. Huestis gave an account of her visit to Philadelphia, where an exhibit such as the one now framed for Toronto was in progress. What she saw there convinced her that much might be done along similar lines for Ontario. Dr. MacMurphy and the meeting acquiesced and went enthusiastically into the work.

Committees were formed. J. K. Macdonald and Rev. Canon Plumptre being appointed to see where the exhibit might most conveniently be held. Press and publicity was assigned to Dr. Brittain; committee on material, Major Brunton and Rev. J. Bryce; convenor of committee on addresses, Dr. C. K. Clark, Dr. Hincks and Dr. Withrow. Mrs. John Small as vice-president of the dramatic league will be asked to present a play, dealing with the work during the days of the exhibit. To secure signatures showing the number of the public interested in speedy action towards betterment of conditions will be the work of Rev. Lawrence Skey, Miss Brooking, Mrs. O'Sullivan and others will gather information from the industrial school and other institutions.

The exhibit will be held in connection with the annual meeting of the Provincial Association for the Care of the Feeble-minded—the Canadian Conference of Charities and Correction and the Children's Aid Society, which are scheduled to take place on March 28 and 29. The exhibit will likely last from March 27 to 31.

GOOD ROADS CONGRESS WILL OPEN NEXT WEEK

Prominent Speakers on Highway Problems to Attend at Montreal. ONTARIO MODELS FEATURE Discuss Building of National Thorofare From Ocean to Ocean After War.

Unqualified success seem to be assured for the third Canadian and International Good Roads Congress, which opens on Monday next, March 6, at Sohmer Park, Montreal, and continues in session until Friday the 10th. The subject will be conducted under distinguished auspices, as His Honor Lieutenant-Governor P. E. LeBlanc, of Quebec, has accepted the invitations, and motor clubs are among the many bodies which will be represented. Quebec, Ontario, Manitoba and the maritime provinces will have strong delegations, and among the cities which will be represented by civic dignitaries, officials of road experts will be Toronto, Quebec, Hamilton, London, The River, Ottawa, Sherbrooke, St. John, N.B., Halifax, New York, Philadelphia, Baltimore and Boston.

Prominent speakers. The best speakers on road problems and allied subjects in Canada and the United States will be present, and for the first time cost data based on actual experience will be laid before the gathering. Among the subjects which will be considered, some of them for the first time, are "Good Roads" as a help to the improvement and maintenance of existing natural roads, the labor bureau for road workers in its possible relation to the good roads movement, and the close connection between good roads and agricultural prosperity. It is expected that the tentative suggestion will be made that a national highway from ocean to ocean would be an excellent means of affording employment to tens of thousands of soldiers who will return to Canada after the war is ended.

The third good roads exhibition will be held in connection with the congress. Every type of machinery and material used in roadmaking will be shown, and special attention will be given to improved methods of applying a binder to road surfaces, which is considered one of the most important factors in the proper maintenance of improved highways. The Ontario Government models, showing ancient and modern methods of roadmaking, will be an interesting and instructive feature of the exhibition.

Admission free. While the exhibition is in progress, the delegates from all over the Dominion, admission will be free, and the general public will be welcomed.

Registration of delegates and visitors will begin at 10 a.m. on Monday, and will continue through the congress. The first session will be held at 2:30 p.m. on Monday, with President B. Mitchell presiding. His Honor the Lieutenant-Governor, who has declared the congress open, there will be an address of welcome by Sir Lomer Gouin, premier of Quebec; Hon. J. A. Tassier, Quebec's minister of roads; Hon. J. E. Caron, Quebec's minister of agriculture; Mayor Médéric Martineau, mayor of Montreal; and the Hon. J. A. Tassier, minister of roads. The afternoon session will include an illustrated address and lecture by W. A. McLean, chief of the Ontario Highway Department, and W. E. Connell, chief of bureau of highways, Philadelphia. "The Cost of Maintaining New York State's Highways," by F. W. Sarr, deputy highway commissioner, Albany.

The first speaker at Wednesday morning's session will be W. J. Levesque, M.L.A. for Laval County, who will speak on "Provincial Aid for Roadbuilding." Other addresses will be: "The Legislative Aspect of Road Construction," by A. C. Emmett, Winnipeg; "Brick Pavements," by J. Duchastel de Montreuil, city engineer of Outremont, Que. In the afternoon Mayor T. L. Church of Toronto will speak on "The Value of Good Roads to Cities and Towns." The other addresses will be: "Highway Bridges," by George Hogarth, chief engineer, Ontario Highway Department; "Highway Culverts," engineer, Quebec highway department. The annual meeting of the Canadian Automobile Federation will take place at 5 p.m. at the Place Viger.

Road Drainage. Major W. V. Crosby, of Baltimore, will be the first speaker at the Thursday morning session, his subject being "Road Drainage and Foundation." This will be followed by "Concrete Highways and Streets," by Percy H. Wilson, consulting engineer, Philadelphia. In the afternoon, Andrew P. MacCallum, city engineer of Hamilton, Ont., will give a paper on "Crested Wood Block Pavements." Col. Wm. D. Sohier, chairman of the Massachusetts Highway Commission, will give a talk on "The Selection of Pavements as Governed by the Volume and

WE KNOW HOW

ALCOHOL AND STERN WORK INCOMPATIBLE

Lessons From War Prove That Intoxicants Play No Important Part in the War.

It is now freely acknowledged that when stern work is to be performed and a high degree of efficiency is required, not only is alcohol unnecessary, but its use is contra-indicated.

Among the lessons learned from the war is that if the body and mind are to be kept up successfully to meet hardships and horrors of every description, the fictitious stimulation afforded by alcohol is indeed a broken reed on which to lean. Still, as pointed out by The British Medical Journal, it is interesting to note that every one of the armies now at war is provided with a ration of alcohol. Among the French troops this consists of 50 grams of kumquat rum, to be taken with the morning coffee.

FEATURING MUSIC AT THE PAVLOVA ACADEMY

Orchestra Concerts Promise to Be Successful—Twelve Musicians Delight Spectators and Dancers.

Hear "Old Bill Bailey," Tuesday night at Pavlova Academy, played by an orchestra composed of some of the best musicians in the city.

Orchestra concerts have caught on here as quickly as on the other side, and they are sure to be a big drawing card at the Pavlova.

The selections played by the special Pavlova Orchestra are the latest of New York hits, as played in the most exclusive dancing academies of the United States metropolis, and all prove big favorites with local patrons of exclusive Pavlova.

Automobile parties are now very much in evidence as parking space for one hundred cars has been arranged in the rear of the academy.

For those wishing to learn the new dances, Pavlova is the best place to go, only standard steps are taught in dances that have been adopted by the leading academies in New York City.

EDISON HAS NEW LAMP OF BIG ILLUMINATION

Will Prove Great Value on Battle Field, as It Harbors Three Million Candle Power.

EDISON'S latest lamp is perhaps a bit too bulky for use in the ordinary home, but it is calculated to be very popular on the battlefields of Europe, for it confesses to harboring 3,000,000 candle power.

Edison has employed a small and simple carriage for the transporting of his lamp. It is supplied with electric

RUMORS WEAKENED CHICAGO MARKET

Government Report is Expected to Show Large Reserves of Wheat.

CHICAGO, March 4.—Predictions that the forthcoming government crop report would show large reserves of wheat to be still in the hands of producers tend today to weaken the market for that cereal. In this connection it was said English buyers were not disposed to follow advances in price and that reliance was being placed on continued liberal arrivals at Liverpool. A reason given for this confidence was the statement that the British admiralty was operating 1800 requisitioned vessels.

After opening 1-4 off to 1-4 up, with May at \$1.13 3-4 to \$1.14 and July at \$1.11 1-4, the market here underwent a material sag all around.

USE SOME COMPULSION TO GET MONTREAL MEN

Statement of Brigadier-General Wilson Suggests That Response to Colors is Weak.

MONTREAL, March 4.—Some form of compulsion will be necessary in Montreal if recruiting does not take turn for the better soon, was the statement made by Brig.-Gen. Wilson, G.O. C., fourth division, yesterday to newsmen. He did not think that the right compulsion would be necessary, but that some modified form such as a present in force in Australia, New Zealand and the British Isles would be adopted.

"There are thousands of young men in the City of Montreal who are not doing their duty," said the general, in discussing the recruiting situation. The general said that the three battalions now recruiting were not getting the number of men per day they were entitled to in a city the size of Montreal.

MASQUERADE BALL AT THE CAFE ROYAL

Special Attraction for Next Friday and Other Interesting Features.

If one were to judge from the continued generous patronage and the sustained interest, the cabaret at the Cafe Royal has become about the most popular evening resort in town. It is here that the tables are most occupied, and the fact that the entertainment provided always goes with a merry swing is a tribute to the efficiency of the management. An unusually interesting evening is arranged for Friday next, when a masquerade carnival ball will be held.

Those who wish to do so will of course come in masquerade costume, and prizes will be given to the lady and gentleman having the most striking costumes, a handsome gold wrist watch to the lady and a military case to the gentleman. There will also be two second prizes. It is expected that there will be a very large attendance, as in this case the management is yielding to the request of many young people that this event be given. A military night is under consideration for a future date. In addition to the usual musical program next week, there will be musical numbers every evening by the Donovan sisters of New York, who will render the newest and most popular songs.

COAL BARGES WRECKED CAPTAIN IS DROWNED

SCITUATE, Mass., March 4.—Two light coal barges, the Ashland and Kohinor, which broke adrift from the tug Swatara, in tow for Philadelphia, were wrecked on Monday's head. Five men, the crew of the Kohinor, were lost, while five men aboard the Ashland were washed ashore on the deck-house early today and hauled thru the breakers to safety.

The North Scituate coast guard picked up an exhaust from the tug Swatara, but died before the guard boat landed. The bodies of Capt. Ira Montgomery of Philadelphia, and other members of the Kohinor's crew had not been recovered this forenoon.

Left Arm Became Powerless Saved From Paralytic Stroke

By the Timely Use of Dr. Chase's Nerve Food—Has Built Up Nervous System Wonderfully

Paralysis is not a pleasant thing to contemplate. Even nervous prostration and locomotor ataxia are among the most dreadful conditions. It is always best to avoid these results of neglected nervous troubles by keeping the nerves in health and vigor.

Dr. Chase's Nerve Food has done wonders for people suffering from the more severe forms of nervous diseases, but we prefer to recommend it as a means of preventing such conditions.

"This letter from Mrs. Nichols well represents what we mean, for she was undoubtedly in the verge of more serious trouble when she heard of Dr. Chase's Nerve Food and sought its aid. It is best to be warned by nervous headaches, sleeplessness, nervousness and irritability and to apply the remedy in time.

Mrs. Merritt Nichols, R. R. No. 3, Dundas, Ont., writes: "I take pleasure in writing to tell you the great benefit I have derived from the use of Dr. Chase's Nerve Food. I was so nervous

I could not sleep and found it hard to get my work done at all, but having no help at the time, had to do the best I could. Finally my left arm became powerless and cold, and this continued to get worse until my whole side was affected, head and all. I decided to try Dr. Chase's Nerve Food, and the first box helped me so much that I used several, and believe that this treatment saved me from having a paralytic stroke. It has built me up wonderfully and I can recommend it most heartily believing that if more Nerve Food were used there would be much less sickness."

There is no lack of evidence as to the great work of restoration being carried on by Dr. Chase's Nerve Food. The sales of this great nerve tonic are rapidly increasing, as its virtues are being found out. But this will not help you unless you put it to the test in your own particular case. It is well worth trying, and will not disappoint you. Fifty cents a box, 6 for \$2.50, all dealers, or Edmondson, Bates & Co., Limited, Toronto.
