## ALL THE NEWS OF THE SEASON'S SPORTS.

TWO-LEAGUES  
AT MONCTON.Baseball Will Boom in  
the Railway Town  
This Season.Joe Page's Montreal Team to  
Play Fast Picked Team---  
Cy. Young Talks About  
Fancy Pitching.

Moncton, April 13.—At a largely attended and enthusiastic meeting of local baseballists, tonight, it was decided to organize a city league for the coming season. Four teams, the Franklins, Y. M. C. A., Trojans and Thistles, had representatives present, and all signified their intention of putting strong teams in the field.

Judging from the enthusiasm displayed the league, this season, will be as great a success as last year. An intermediate league was also organized, and will be composed of four or five teams. G. F. McNally was elected president and Chas. Manning secretary of the intermediate league.

**Joe Page's Montreal Team.**  
The following from the Montreal Gazette of the 12th, will be interesting, as it concerns the promoter of the "All-St. Johns":  
"Weather permitting, a new record will be established in Montreal Sunday afternoon, when the local baseball season will be opened. Joe Page's Parnham team, champions of the Eastern Canadian league, which has been transferred to Montreal for the coming season, will open the ball by playing against a picked team made up of players who will figure in the league during the season."

**Cy Young Talks.**  
"This talk about the bewildering reports that are expected to make the batsmen hammer the atmosphere until they are blue in the face, is enough to make one smile," says Cy Young. "When the season opens such twaddle as the 'split-ball,' 'snake twist,' and the 'grasshopper shot,' will be relegated to the ice-box, and it will be a case of play ball. These fancy names sound all right, but when it comes down to real thing, the fans will find that pitchers are not able to originate a dozen styles of pitching which promise so much in a single season. I think you will find that when the season is at its

## TENNIS

**Tennis Club Elects Officers.**  
At a meeting of the St. John Tennis Club, last evening, the following officers were elected for the ensuing year—L. W. Barker, president; Audrey Schofield, secretary. The following committees of management were appointed: Ladies, Mrs. L. W. Barker, Miss C. Smith, Miss Innes, Miss Schofield, Miss W. Barnaby, Mrs. Geo. W. Jones was made an honorary member. Gentlemen, Wm. Lockhart, L. Peters, and H. Forbes.

**'Ball Notes.**  
The Otters defeated the Navies in Waterworks field last evening 7 to 6. Killen and Ellis, Stone and Doyle were the batterers.

It is rumored that Ed. Haney, the well-known baseball manager will have charge of the proposed Fortlands this season.

The Philadelphia American league baseball club has released pitcher Applegate and infielders O'Brien and Solito to the Toronto Eastern league club.

Keeler is leading the New York Americans in hitting this spring. Dougherty has not done very good hitting since joining the Highlanders.

Jack Taylor, over whom there was such a disturbance made by the National League this year, is seriously ill with pneumonia and reports state he is in a precarious condition.

## BASKETBALL

**League Games.**  
The fourth games in the basketball league were played in the Y. M. C. A. last night, when the Y. M. C. A. and Mission carried off the laurels, as follows—

Y. M. C. A., 18; Trinity, 5.	
Y. M. C. A., Centre.	
D. Reed ..... H. Raymond	Forwards.
P. McAvity ..... D. Fisher	Defence.
G. Keefe ..... D. Church	
D. Roberts ..... C. Leonard	
I. Scott ..... R. Emery	
The score makers were: For Y. M. C. A.—McAvity 5, Keefe 6, Reed 2. For Trinity—Fisher 1, Church 4.	
Mission, 17; St. Luke's 7.	
Centre.	
A. Sturdee ..... A. Ramsey	Forwards.
S. McDonald ..... W. Brown	
N. Lee ..... M. Latham	Defence.
V. Lee ..... A. Goddard	
R. Schofield ..... G. Hanna	

The score makers were: For Mission—McDonald 11, N. Lee 2, A. Sturdee 2, V. Lee 2. For St. Luke's—Ramsey 4, Brown 1, Latham 2.

The officials were: Referee, H. Heane, umpire, G. Emery; scorer, J. McGaw.

The league standing is:

	Played.	Won.	Lost.	P. C.
Y. M. C. A.	4	4	0	1,000
Trinity	4	2	2	500
Mission	4	2	2	500
St. Luke's	4	0	4	000

The next games will be played Monday night, when the order of teams will be reversed.

## BOWLING

**The Five Pin Competition.**  
Tomorrow night on Richey's alleys the following teams will play in the five pin competition—Capt. A. King, A. Harding, C. Cowan, H. O'Brien, H. C. Olive, vs. Capt. J. H. Galbraith, W. K. Galbraith, Wm. Lockhart, L. Peters, and H. Forbes.

At the Sportsmen's show in Louisville, Ky., N. J. Cartmell, formerly of the University of Pennsylvania, is credited with running 50 yards in 1-15 seconds, which beats the world's record of 5-2-5 seconds, held jointly by A. P. Duffey, Georgetown, and V. S. Rice of Chicago. It is said that five times agreed upon the figures and of course application will be made to the A. A. U. to have the new mark accepted. Cartmell will return to Pennsylvania next fall to complete his studies.

Cowanville, Ont., April 10.—William McClellan and Charles Sylvester are home on a visit after their professional hockey season with the Calumet, Mich. team, champions of the United States. Each player received a gold watch for suitably engraved, as a memento of having won the championship. The team cleared up \$2,000 above expenses this season. It may interest hockeyists to learn that the style of play in Calumet is for point and cover play, players to rush with the puck forward as far as possible, pass to a forward and then skate swiftly back to position. This works better than lifting.

The international cross country championship of the British Isles was decided recently at Baldoyle race course, near Dublin, Ireland. England, Scotland, Ireland and Wales had teams entered, making a field of

forty-eight men in all. The course was eight miles, over the stiffest kind of country, so trying that even the Englishmen, who are the sturdiest performers over all sorts of country, objected to the big water jump and it was cut out. This obstacle measured 13 feet wide and 6 feet deep and had a brush hurdle 3 feet high on the take-off side.

Great things were expected of John J. Daly, who won the championship at New York last fall, but the big Irishman, who has been suffering of late from neuralgia, stopped after going a couple of miles. Early in the contest it was evident that Aldridge of the Highgate Harriers, London, would secure the individual honors, and he won by about eighty yards in 40.20 from Hynes of Galway, Ireland. England won the team honors by a big margin, with Scotland second and Ireland third.

**FROM WEALTH TO POVERTY.**  
**Fate of Frank A. Magowan, Once Mayor of Trenton, N. J.**

New York, April 14.—A Herald despatch, dated Trenton, N. J., says that Frank A. Magowan, once a power in financial circles of New Jersey, some time mayor of Trenton, and the United States Senate, but at one time, regarded seriously as a candidate for the governorship, is now a pauper.

Magowan, who is said to have been a partner in the business of the late John D. Rockefeller, was recently found in a rooming house in Trenton, N. J., where he was said to be living in poverty.

Magowan was once a very successful man, but he was ruined by his association with the late John D. Rockefeller, who was a very successful man, but he was ruined by his association with the late John D. Rockefeller.

Magowan was once a very successful man, but he was ruined by his association with the late John D. Rockefeller, who was a very successful man, but he was ruined by his association with the late John D. Rockefeller.

HERFORD IS  
AFTER BOUTS.

**Will Give \$15,000 For Britt and Gans to Meet at Baltimore.**

**Young Kelly and Young Donahue Draw—Jack Watts Replies to Bob Campbell—Ring Notes.**

The unemployed boxer of reputation, if Al Herford has his way, will be taken care of in the future at Baltimore. Herford arrived in New York yesterday and said that he was prepared to hold any number of good bouts in Baltimore this summer and that he was here for the purpose of securing talent.

"I have secured the armory in Baltimore," declared Herford, "and have arranged two important matches already. The first takes place on April 24, and will be between Tommy Dely and Aurelio Herrera, the Mexican. After that, Benny Yanger will meet Kid Sullivan of Washington, who recently met Young Corbett. Then I am negotiating for a match between Owen Moran and some other good bantam for the first week in May. I have landed a bout between Jack O'Brien and Kid McCoy about the middle of next month.

"I think that Baltimore is the coming fighting centre, and if any of the crack boxers want to appear there, they can get engagements. I will give a purse of \$5,000 with a private of 50 per cent. of the gate receipts for O'Brien and Tommy Ryan, my O'Brien's game. And I am also prepared to give \$15,000 for a twenty round bout between Jimmy Britt and Joe Gans at 135 pounds, ring-side, the same as in the last encounter. Let no one deceive themselves about Gans not being able to get to 135 pounds. He can do so and will prove this any time. I think that Gans and Battling Nelson will fight at Baltimore. At present I am arranging such a bout."

**Watts Replies to Campbell.**  
In reference to the statement which appears in the papers a day or two ago from Bob Campbell of Carleton saying that he had bested Jack Watts the London boxer in their recent bout at Jack Powers' boxing entertainment, Watts has authorized the following: "With reference to Campbell wanting to box Watts again, Watts wishes to inform Camp-

bell that he wants to box somebody that can box." He added that he can be met at Robt. Garnett's, King square.

**Kelly and Donahue Draw.**  
Chelsea, Mass., April 13.—Young Kelly of Lawrence, and Young Donahue of Boston, fought 15 rounds to a draw, before the Douglas A. A. tonight. Kelly appeared to have a little the better of it throughout, but was knocked down in the 13th round.

**News of the Boxers.**  
Reading, April 13.—In the fourth of what was to have been a ten-round bout, Willie Fitzgerald of Brooklyn, knocked out Tommy Connolly of Reading at the Eureka Athletic club last night. Although Connolly was clearly outclassed, he held his own for three rounds. In the fourth Fitzgerald fainted with his left for a job and swung with his right, taking Connolly on the left side of the jaw, knocking him down and out. It was a minute and a half before Connolly recovered consciousness.

Owen Moran, the crack English bantam, who it is said gained a decision over Jim Bowker, arrived in New York on the Majestic. Moran is coming here to meet any bantam in the country. After a brief stay in New York he will go west and join James White, who is in San Francisco training for his encounter with Jimmy Britt. Moran is a native of Birmingham.

Dan Littlejohn, the well-known boxer, of St. John, N. B., is at present in the city. He will remain here for a few days, when he will return to St. John and says he will be prepared to meet either McLeod or Jordan.—Sydney Record.

**MARCONI AND SHIPS.**  
(From the Scientific American.)  
A Boston inventor has devised a means for determining the location of navigable vessels under all conditions of weather, the object being to provide improved indicating devices for use with a ship's compass and the usual sailing charts, whereby the bearings of known objects at a distance from the ship may be positively determined at times, when owing to fog or storm the landmarks may be invisible.

The invention is based upon the scientific fact that "direct-wave" impulses or signals may be conveyed over long distances without connecting wires. This principle is utilized to determine the position of the ship with relation to known landmarks, thus rendering navigation safer and avoiding delays in the movement of vessels caused by foggy or stormy weather when the usual sight observations cannot be taken.

The apparatus, carried on the ship, is applied to or connected with the in-

strument electrically connected with an upright condenser so situated that it can receive only the wave impulse or signal coming from a transmitting station on shore or from another ship or lightship through a lateral casing or slot when such exposure is in proper range radially with said ship or shore station. The conductor is surrounded by a rotatable shield, cup, or tube slotted vertically, as the slot or opening is approximately between said station and the closed conductor. With this apparatus or its equivalent when used on shipboard over and close to the compass, always in the same radial vertical plane as the slot of exposure to indicate on the face of the compass the bearing of the station from which emanates the signal or impulse reaching the receiving instrument through such slot or exposure.

With this system of taking bearings each lighthouse and prominent landmark will have a distinctive name or number by which it is known and designated on sailing charts, and each will be provided with a transmitting instrument adapted for, or to automatically transmit, such identity of the station certain. When a ship appears off the coast providing the slot of its compass and intermittently acting shield the impulse sent seaward from the transmitting station, and the navigator notes at once on his chart the bearing of the station as denoted on his compass-dial by the indicating pointer. From another station he receives a different signal, and by the cross bearings thus secured he obtains his reckoning, showing exactly where the ship should be. A transmitting instrument on the ship will at such times be able to communicate with the shore-station thus making its presence and its exact location known.

**BILLIANTS.**  
Lift up your heads ye sorrowing ones, And be ye glad of heart: For Calvary-day and Easter day, Earth's saddest day and gladder day, Were just one day apart!

My God! I thank thee, who has made The earth so bright— So full of splendor and of joy, Beauty and light: So many glorious things are here Noble and right.

A. A. Proctor.

Smile, once in a while, Till make your heart seem lighter: Smile, once in a while, Till make your pathway brighter, Life's a mirror: If we smile, Smiles come back to greet us: If we're frowning all the while, Frowns forever meet us.

Nixon Waterman.

Wiggles—"The idea of your charging a dollar for that little pinch of powder. Guess you haven't such a thing as a conscience about you."

Druggist—"Oh, I've got a conscience all right, but then, of course, I can't use it any business."

ASK FOR  
Labatt's India Pale Ale

The standard to which other brewers endeavor to work.  
**Taken by Nervous People** at night it acts as a very effective and harmless hypnotic.

**It is Undoubtedly Better** for the sick and convalescent than potent medicines or tonics, of which no one knows the composition. Ask your wine merchant for a sample order.
